# **GLOSSARY OF COMMONLY USED TERMS**

**Baseline:** Baseline is an analysis describing the initial state of an indicator before the start of a project/programme, against which progress can be assessed or comparisons made

**County Executive Committee** - Means a county executive committee in charge of a department/ sector established in accordance with Article 176 of the Constitution.

**County Government:** Refers to a political sub-division, which are created within the state for the exercise of duties and responsibilities granted by constitutional provisions or legislative enactments; it is provided for under Article 176 of the Constitution

**Development Issue:** The key constraint/emerging issue concerning a sector that needs to be addressed or tapped into through various interventions and programmes.

**Flagship/Transformative Projects:** These are projects with high impact in terms of employment creation, increasing county competitiveness, revenue generation etc. They may be derived from the Kenya Vision 2030 (and its MTPs) or the County Transformative Agenda

**Outcome:** Measures the intermediate results generated relative to the objective of the intervention. It describes the actual change in conditions/situation as a result of an intervention output(s) such as changed practices as a result of a programme or project.

**Performance indicator:** A measurement that evaluates the success of an organization or of a particular activity (such as projects, programs, products and other initiatives) in which it engages.

**Programme:** A grouping of similar projects and/or services performed by a Ministry or Department to achieve a specific objective; The Programmes must be mapped to strategic objectives.

**Project:** A project is a set of coordinated activities implemented to meet specific objectives within defined time, cost and performance parameters. Projects aimed at achieving a common goal form a programme.

**Strategy:** It is the overall direction and scope in the long run; which enhances competitiveness in a changing environment through its alignment of both intangible and tangible resources with the aim of gratifying stakeholders' aspirations.

**Target:** A result to be achieved within a given time frame through application of available inputs.

# FOREWORD

The Constitution of Kenya 2010, the County Government Act 2012, the Kenya Vision 2030 and the Medium-Term Plans form the basis of the preparation of the third County Integrated Development Plan (CIDP). In particular, Sections 102(h), 104(1) and 108 of the County Government Act 2012, requires county governments to prepare 5-year County Integrated Development Plans which form the basis for appropriation of funds. Further, Section 104 (1) of the Act obligates the county governments to plan for the county and no public funds should be appropriated without a planning framework. It is on the basis of the above legal provisions we have prepared the third generation County Integrated Development Plan that will guide allocation of scarce resources to priority projects and programmes.

Implementation of the second-generation County Integrated Development Plan (CIDP) brought about progress on both the social and economic fronts. The County successfully implemented numerous transformational programmes and projects with positive socio-economic outcomes to the people of Kiambu County. Key among these projects include the water projects aimed at increasing access to clean and portable water that were realized through drilling, equipping and operationalization of boreholes, laying of water pipelines; and the food security programme that involved distribution of subsidized seeds to farmers and training of farmers. Other projects included the healthcare management that saw the construction, face-lifting and equipping of the all the three Level 5 Hospitals and other health centres as well as leading the fight against COVID 19 pandemic. Further, the infrastructural works were implemented that included tarmacking and maintenance of roads, purchase of road equipment, construction of markets, bus parks, stadiums and the provision of bursaries to needy and bright students, among others.

The third generation County Integrated Development Plan (CIDP 2023-2027) is a roadmap of what will be undertaken during the plan period and has been aligned to the national development framework – the Kenya Vision 2030 and its Medium-Term Plan. Additionally, it has incorporated the Governors manifesto, the relevant aspirations of regional development frameworks such as the continental Agenda 2063. Similarly, international commitments and obligations such as the 2030 Agenda and Sustainable Development Goals (SDGs), the Paris Agreement on climate change and the Sendai Framework, among others, have been incorporated.

During the 2023-2027 plan period, the County Government of Kiambu will require an estimated resource envelope of Kshs. 168.07 billion in order to comprehensively address the transformation agenda for the County. I, Hon. Kimani Wamatangi, stand for transformation today, for a better tomorrow. I therefore take great pride and pleasure in presenting to you Kiambu County Integrated Development Plan 2023-2027, a covenant with the people of Kiambu which is anchored on five pillars; Governance, People, Resources, Competitiveness and Harmony.

I call upon all relevant stakeholders, development partners and the people of Kiambu to remain steadfast in playing their respective roles during programme/project planning, implementation, monitoring and evaluation in order to bring about the envisaged social economic transformation for our people.

HIS EXCELLENCY DR KIMANI WAMATANGI GOVERNOR, KIAMBU COUNTY

# ACKNOWLEDGEMENT

The preparation of the County Integrated Development Plan (CIDP 2023-2027) was achieved through commitment, dedication, sacrifice and determination of the members of staff of the County Government, citizens and other stakeholders who provided valuable inputs.

I wish to express my sincere gratitude to the Governor, His Excellency Dr Kimani Wamatangi and Deputy Governor Her Excellency Rosemary Kirika, the County Secretary Dr. Martin Njogu, all County Executive Committee Members and Chief Officers for steering the preparation process of the third Generation CIDP up to its successful completion.

Special thanks go to the State Department for Planning in the National Treasury and Economic Planning for providing the

guidelines that were used in preparation of this plan. These guidelines provided direction on the preparation and arrangement of the document.

I take this opportunity to appreciate the efforts of the CIDP Secretariat and the Technical Working Committee drawn from all the County Government entities/ departments; led by Mr. William Kimani, the Chief Officer Finance and Economic planning and staff from the Directorate of Economic Planning for their commitment throughout the preparation process. We further express our appreciation to all section directors and the County departments staff whose invaluable contribution enriched this document.

Finally, I want to thank in a special way, the people of Kiambu who heeded to our call during the public participation forums conducted in all the sixty county wards. The turnouts were overwhelming and the suggestions of development priorities obtained during these sessions provided important guide for county planning and budgeting.

Lastly, I take this opportunity to thank all our partners who supported the preparation of this plan either directly or indirectly.

· h

MS NANCY KIRUMBA, CECM, FINANCE, ICT AND ECONOMIC PLANNING

# **EXECUTIVE SUMMARY**

The preparation of Kiambu County Integrated Development Plan (CIDP 2023-2027) was led by the County Executive Member in charge of Finance ICT and Economic Planning. It was done in close collaboration with various stakeholders including government departments, civil society organizations, community groups and the private sector. The Plan was prepared using the guidelines for preparation of the third-generation county integrated development plans issued by the State Department of Planning in The National Treasury and Economic Planning.

The County Integrated Development Plan has six (6) chapters. Chapter One presents the county overview in terms of background information including inhabitants (dominant, marginalized, minority communities), location of its headquarters, major economic activities, membership to regional economic bloc (s) and other inter/intra county relations. The chapter also provides the position of the county and its neighbouring counties, the size of the county in square kilometres and its coordinates (longitudes and latitudes). This chapter further describes the county in terms of physiographic and natural conditions with details on physical and topographic features, climatic conditions and ecological conditions of the County. Finally, the chapter provides the demographic features as per the 2019 Kenya Population and Housing census report and the projections for the plan period, a brief explanation of the Human Development Indicators with comparison to the national Human Development Index. The data provided are meant to inform strategies to be undertaken in various sectors to address the development gap within the county.

Chapter two provides a review on implementation of the CIDP 2018-2022. It presents an analysis of county performance in terms of revenues, expenditures; key achievements; major challenges faced and lessons learnt in the implementation of the plan. The chapter has also discussed the major natural resources found within the county and key sector development issues.

Chapter Three provide the spatial framework within which development projects and programmes will be implemented. The information provided covers all thematic areas as outlined in the County Spatial Plans which are aligned to National Spatial Plan 2015–2045.

Chapter Four provide sector development priorities, strategies, programmes, flagship projects, and cross-sectoral linkages. It provides a detailed description of the different sectors within the County and the programmes planned for implementation during the plan period. It also provides the sector composition, vision, mission, development needs, priorities and strategies Programs. This chapter further gives the CIDP Linkages with National Development Agenda, Regional and International Development Frameworks.

Chapter Five presents the implementation framework. This chapter generally outlines the institutional framework and organizational structure within the County that will be followed in implementing the plan. It also outlines the resource requirements by sectors, resource mobilization framework and measures to address the resource gaps, asset Management and risk management.

Chapter Six highlights the monitoring and evaluation (M&E) framework that will be used to monitor and evaluate the plan during and after the implementation. It specifies objectively verifiable indicators that will be used to monitor programs and sets medium term and end term milestones for impact assessment. The chapter therefore highlights the proposed M&E structure; data collection, analysis, reporting and learning; M&E outcome indicators tracking; dissemination and feedback mechanism.

# **COUNTY OVERVIEW**

# 1.1 Background

**CHAPTER** 

Kiambu County is one of the 47 counties in the Republic of Kenya. The County is a metropolitan County and it's headquarter is based in Kiambu Town. The County serves as a residential area for many people from different parts of the country who work in the urban centres especially Nairobi City. The County therefore is inhabited by different tribes of Kenya with majority being Kikuyus.

The County is a member of Central Region Economic Bloc (CEREB) that bring together ten counties drawn from the larger Mount Kenya region namely: Embu, Kiambu, Kirinyaga, Laikipia, Nakuru, Nyandarua, Nyeri, Meru, Murang'a and Tharaka Nithi. The bloc was established through an MoU in February 2016 with the overall goal of harmonizing laws and regulations to facilitate trade and investment, leveraging competitive and comparative advantages and economies of scale to create employment opportunities and incomes, and tap into technology development to expand economic frontiers in the member counties. Consequently, CEREB governors signed an agreement in June 2019 to harness resources in the region for development. The region is known for agricultural activities due to the favourable climatic conditions and the fertile soils. The main aim of this Bloc is to leverage on economies of scale in undertaking joint development projects and activities. Based on the Kenya National Bureau of Statistics data, CEREB is the bloc that contributes the largest share of the Country's economy at over 26% of the total National Gross Domestic Product (GDP). Nakuru County contributed the highest GCP of 6.9 while Tharaka Nithi County had the least at 0.9 per cent

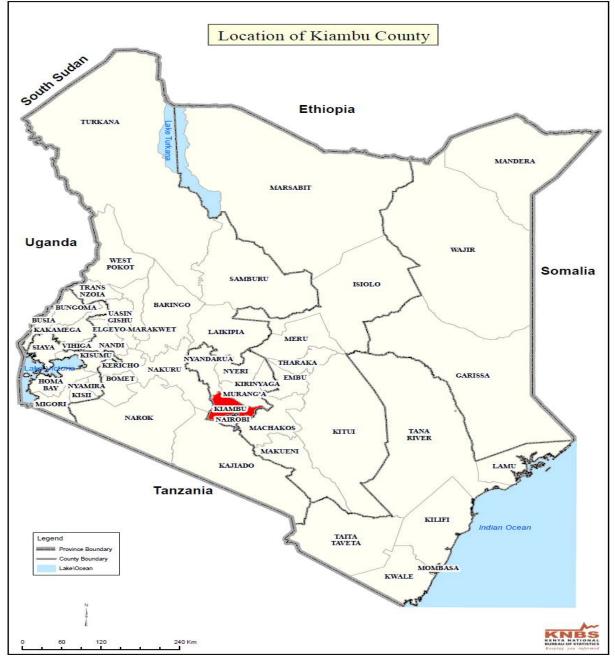

The County has huge potential in agriculture and service sectors. A large proportion of the population in the County depend on agriculture thus making it to be the predominant economic activity. Agriculture therefore contributes the largest share of County population's income and overall Gross Domestic Product in Kenya. Other activities that take place in the urban areas of the County include industrial/ manufacturing activities. The County further has quarrying and mining activities taking place such as in Juja and Thika Sub Counties.

# **1.2 Position and Size**

Kiambu County is located in the central region and covers a total area of 2,538.7 Km2 according to the 2019 Kenya Population and Housing Census. It also borders six counties namely Nairobi and Kajiado Counties to the South; Machakos to the East; Murangʻa to the North and North East, Nyandarua to the North West, and Nakuru to the West. Further the County lies between latitudes 00 25'and 10 20'South of the Equator and Longitude 360 31'and 370 15'East. Figure 1 show the location of the County in Kenya.

Figure 1: Location of the County in Kenya

# **1.3 Physiographic and Natural Conditions**

# 1.3.1 Physical and Topographic features

Kiambu County is divided into four broad topographical zones; Upper Highland, Lower Highland, Upper Midland and Lower Midland Zones. The Upper Highland Zone is found in Lari subcounty and it is an extension of the Aberdare ranges that lies at an altitude of 1,800-2,550 metres above sea level. It is dominated by highly dissected ranges and it is very wet, steep and important as a water catchment area. The major forests in the County are also found in this zone, which are Kieni and Kinale with an acreage of 13,723.6 and 10, 504.87 hectares respectively.

The lower highland zone is mostly found in Limuru and some parts of Gatundu North, Gatundu South, Githunguri and Kabete sub counties. The area is characterized by hills, plateaus, and high-elevation plains. The area lies between 1,500-1,800 metres above sea level and is generally a tea and dairy zone though some activities like maize, horticultural crops and sheep farming are also practiced. The upper midland zone lies between 1,300-1,500 metres above sea level and it covers mostly parts of Juja and other sub counties with the exception

of Lari. The landscape comprises of volcanic middle level uplands. The lower midland zone partly covers Thika Town (Gatuanyaga), Limuru and Kikuyu sub counties. The area lies between 1,200-1,360 metres above sea level. The soils in the midland zone are dissected and are easily eroded. Other physical features include steep slopes and valleys, which are unsuitable for cultivation. Some parts are also covered by forests.

The county is covered by three broad categories of soils which are: high level upland soils, plateau soils and volcanic footbridges soils. These soils are of varying fertility levels with soils from high-level uplands, which are from volcanic rocks, being very fertile. Their fertility is conducive for livestock keeping and growth of various cash crops and food crops such as tea, coffee, horticultural products, pyrethrum, vegetables, maize, beans, peas and potatoes. These soils are found in the highlands, mostly in Gatundu South, Gatundu North, Githunguri, Kiambu, Kiambaa, Lari, Kikuyu, Kabete and Limuru sub counties. Low fertility soils are mainly found in the middle zone and the eastern part of the county which form part of the semi-arid areas. The soils are sandy or clay and can support drought resistant crops such as soya beans and sunflower as well as ranching. These soils are mostly found in parts of Juja, Thika Town, Ruiru, Kikuyu, Limuru, Gatundu North and Gatundu South sub counties.

Most parts of the county are covered by soils from volcanic footbridges. These are well drained with moderate fertility. They are red to dark brown friable clays, which are suited for cash crops like coffee, tea and pyrethrum. However, parts of Thika Town, Ruiru and Juja sub counties are covered by shallow soils, which are poorly drained, and these areas are characterized by low rainfall, which severely limits agricultural development. However, these areas are suitable for ranching and growth of drought resistant crops.

# 1.3.2 Climatic conditions

The county experiences two rain seasons: the long rains season runs between March and May and is wetter than the short rains season experienced between October and December. Dry spells (periods with less than 20 mm rainfall) occur between July and September. This season is also cooler characterised with drizzles and frost in some parts of the County. April receives the highest rainfall, more than 200 mm. The annual average precipitation in the county is 600-1300 mm. The northern region receives an annual average precipitation of more than 1000 mm. Historical annual average rainfall and temperature records show a directional-spatial trend, with peak values generally appearing in the northern parts of the county for precipitation and western parts of the county for temperatures.

The annual average temperature for the county is 15-23°C. The western areas of the county including the upper midland and the lower highland agro ecological zones experience annual average temperatures greater than 20°C. Lowest temperatures are recorded in the months of June to August whereas highest temperatures are recorded in the months of June to March. The county's average relative humidity ranges from 65 percent in February which is generally a hot month and 84 percent in the wet months of April and May.

# 1.3.3 Ecological conditions

Kiambu County covers a wide range of agro ecological zones based on the climatic characteristics. These are upper highland humid and semi humid; lower highland humid, semi humid and sub humid; upper midland humid, semi humid and sub humid; lower midland humid, semi humid and sub humid; lower midland transitional and upper midland transitional, among others.

The upper highland humid agro ecological zone covers the upper parts of Kiambaa and Limuru; Kikuyu sub county falls in the lower highland semi humid zone; Gatundu North and Gatundu South sub-counties found in the upper midland sub humid agro ecological zone. Small land holdings as well as small scale farming are mostly found in these areas. The large land holdings are especially found in Juja sub-county which is in the upper midland transitional agro ecological zone and the upper highlands in Limuru and Lari sub-counties in the upper highland humid zone.

The County has both surface and ground water resources. The county is divided into several sub-catchments areas. The first one is Nairobi River Sub-catchment which occupies the southern part of the county with the major rivers being Nairobi, Gitaru, Gitathuru, Karura, RuiRwaka, and Gatharaini. The second one is Kamiti

and Ruiru Rivers Sub-catchment which is located to the north of the Nairobi River sub-catchment. It has eight permanent rivers which include Riara, Kiu, Kamiti, Makuyu, Ruiru, Bathi, Gatamaiyu and Komothai.

The third one is the Aberdare plateau that contributes to the availability of two sub-catchments areas comprising of Thiririka and Ndarugu Rivers. The main streams found in the two areas include Mugutha, Theta, Thiririka, Ruabora, Ndarugu and Komu. They flow from Nairobi, Kamiti, Ruiru, Thiririka, and Ndarugu sub-catchments to form Athi River sub-catchment. The fourth is the Chania River and its tributaries comprising of Thika and Karimenu Rivers which rise from the slopes of Mt. Kinangop in the Aberdare ranges. The last one is Ewaso Kedong sub catchment which runs in the North-South direction and occupies the western part of the County. It has several streams that normally form swamps such as Ondiri and Nyakumu swamps in Kikuyu subcounty.

The eastern part of the county that includes Thika, Gatundu, Ruiru and Juja is well endowed with surface water from Chania, Thika, Karimenu, Ruabora, Ndarugu, Thiririka, Theta, Mukuyu, Ruiru rivers. The western part of the county that includes Limuru, Kikuyu, Kiambu, Karuri, Lari and Githunguri areas has limited surface sources, hence rely on underground water sources mainly boreholes.

# 1.4 Administrative and Political Units

## 1.4.1 Administrative Units

From the National Government perspective, the County is divided into Sub Counties, Divisions, Locations and Sub Locations. The County is headed by the County Commissioner while Sub Counties, Divisions, Locations and Sub Locations are headed by the Deputy County Commissioners, Assistant County Commissioners, Chiefs and Assistant Chiefs respectively.

Figure 2 shows the boundaries of the administrative and political units in Kiambu County.

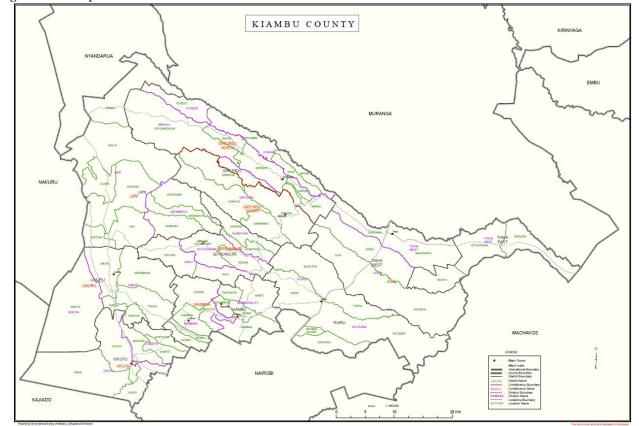

Figure 2: County's Administrative and Political Units

Table 1 presents the area in square kilometer of the National Government administrative units.

Sub County	No of Divisions	No of Locations		Area (Km <sup>2</sup> )
			location	
Gatundu North	2	8	28	285.9
Gatundu South	3	11	38	193.6
Githunguri	3	6	20	174.4
Juja	2	10	19	342.0
Kabete	2	7	14	60.7
Kiambaa	2	7	26	91.1
Kiambu	2	9	17	98.3
Kikuyu	3	8	16	172.9

Limuru	2	9	23	158.1
Ndeiya	1	2	6	127.0
Ruiru	1	1	3	49.7
Githurai	1	3	7	151.4
Thika West	2	7	14	91.4
Thika East	2	4	6	109.9
Total	33	96	245	2,538.7

 Table 1: Area (KM<sup>2</sup>) by Sub County

Source: KNBS, 2019 and County Commissioner's office Kiambu, 2022

Kiambu County is subdivided into fifteen (15) Sub Counties with thirty-three (33) Divisions, ninety Six (96) Locations and two hundred and forty five (245) Sub Locations as shown in table 1. The largest Sub County in terms of size is Lari with an area of 432.3 Km2, while the smallest Sub County is Kabete with an area of 60.7 Km2. A large area of land in Lari Sub County is under forest cover.

## 1.4.2 County Government Administrative Wards by Constituencies

Table 2 shows the County Government Sub Counties, the total area in square kilometer and the number of wards per every sub county.

Sub County	Area sq.km	No. of wards
Gatundu North	285.9	4
Gatundu South	193.6	4
Githunguri	174.4	5
Juja	342.0	5
Kabete	60.7	5
Kiambaa	91.1	5
Kiambu	98.3	4
Kikuyu	172.9	5
Lari	432.3	5
Limuru	285.1	5
Ruiru	201.1	8

#### Table 2: County Government Administrative Wards

Sub County	Area sq.km	No. of wards			
Thika	201.3	5			
Total	2538.7	60			

Source: County Government of Kiambu, 2022

From the County Government Perspective, the County is subdivided into twelve (12) Sub Counties and sixty (60) wards. The wards range from 4 wards to 8 wards per Sub County with Ruiru Sub County having the largest number of wards. Administratively, every Sub County is headed by the Sub County Administrator while every ward is headed by the Ward Administrator.

### 1.4.3 Political units (Constituencies and Wards)

Kiambu County has twelve constituencies and sixty wards. Table 3 shows the constituencies and electoral wards in the County.

Constituency	No. of	Electoral Wards
	wards	
Gatundu North	4	Gituamba, Githobokoni, Chania, Mang'u
Gatundu South	4	Kiamwangi, Kiganjo, Ndarugo, Ngenda
Githunguri	5	Githunguri, Githiga, Ikinu, Ngewa, Komothai
Juja	5	Murera, Theta, Juja, Witeithie, Kalimoni
Kabete	5	Gitaru, Muguga, Nyathuna, Kabete, Uthiru
Kiambaa	5	Cianda, Karuri, Ndenderu, Muchatha, Kihara
Kiambu	4	Ting'ang'a, Ndumberi, Riabai, Township
Kikuyu	5	Karai, Nachu, Sigona, Kikuyu, Kinoo
Lari	5	Kinale, Kijabe, Nyanduma, Kamburu, Lari/Kirenga
Limuru	5	Bibirioni, Limuru Central, Ndeiya, Limuru East, Ngecha/Tigoni
Ruiru	8	Gitothua, Biashara, Gatongora, Kahawa/Sukari, Kahawa Wendani, Kiuu, Mwiki, Mwihoko

Table 3: County's Electoral Wards by Constituency

Source: IEBC

Kiambu County has 12 constituencies with wards ranges from four to eight wards per constituency. Every Constituency has an elected Member of Parliament (MP) who represents the residents in the National Assembly while every ward has an elected Member of County Assembly (MCA) who represents the residents in the County Assembly. The County therefore has 12 elected Members of Assembly and 60 elected Members of County Assembly.

Ruiru Constituency has the highest number of wards (8) while Gatundu North, Gatundu South and Kiambu constituencies have the least with each having 4 wards. Ruiru Constituency is also densely populated thus exerting pressure on the available resources. The County should therefore plan to implement programmes aimed at upgrading the existing infrastructure such as road, housing, water among others in the densely populated areas in order to accommodate the rising population.

# **1.5 Demographic Features**

# 1.5.1 Population Size, Composition and Distribution

This section present information pertaining the County in tabular form containing population data as per the 2019 Kenya Population and Housing Census Report as the base year (2019 KPHCR), current estimates and projections for both mid (2025) and end (2027) of the plan period, segregated by sex.

According to the 2019 Kenya Population and Housing Census, Kiambu County population stood at 2,417,735 which is projected to be 2,602,250 by the year 2022. The population is further projected to reach 2,754,140 and 2,854,954 by the end of year 2025 and 2027 respectively.

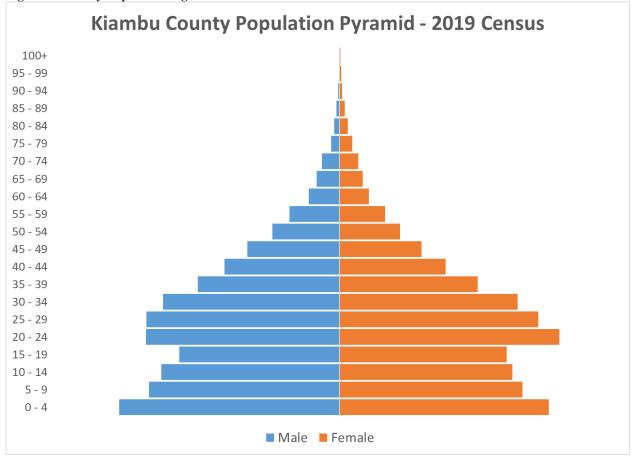

Figure 3: County Population Age Structure

Source: KNBS

A population pyramid in the figure 3 displays the age-sex structure of the population in Kiambu County. The figure shows that majority of the population in the county are the youth at 78 percent. The old dependency ratio stood at 5.5 percent while child dependency ratio is at 47.2 percent. The total dependency ratio in the county is 52.6 percent. The labour force population in the county stood at 65.5 percent.

#### Table 4: County Population Age Structure

Kiambu 2019	Male	Female	Total	%-age
0 - 14 Years	374,330	372,941	747,271	30.90%

Source: KNBS

From the table 4, Kiambu County has a population of 2,417,735 persons as per the 2019 KPHC out of which 1,187,146 are males, 1,230, 454 are Females and 135 are intersex. The female population in the County is higher than that of male by 43,308 persons. Ruiru and Juja sub counties have the highest population of 371,111 and 300,948 persons while Gatundu North and South sub counties have the least population of 109,870 and 122,103 persons respectively. Ruiru Sub County has the highest disparities by sex by 9,197 persons while Limuru sub county has the least by 50 persons.

Table 6: Population Projections by Age Cohort

Source: KNBS

Out of a population of 2,417,600 as per the 2019 KPHC, the age cohort of 0-4 years have the highest population with 278,141 persons while the age cohort of 75-79 years have the least with 13,520 persons. The female population is higher in all age cohorts except with the age cohort of 10-14, 40-44, 45-49 and 50-54. The population is expected to increase across all age cohorts in the year 2022, 2025 and in the 2027.

#### Table 7: Population Projections by Urban Area

Source: KNBS

The 2019 Population and Housing Census indicate that the county had an urban population of 1,706,003 in 2019 and is projected to be 1,836,147, 1,943,365 and 1,995,539 in the year 2022, 2025 and 2027 respectively. Ruiru sub county has the highest urban population of 490,088 persons followed by Kikuyu and Thika sub counties with a population of 323,663 and 251,389 persons respectively. Kijabe and Ngewa has the least urban population with 2,024 and 2,452 persons respectively. This high population in urban centers can be attributed to the proximity of the county to Nairobi as most of the people work in Nairobi and reside in the county. In addition, industrial development in some sub counties like Thika West and Ruiru attract more Labour force. In these areas, urban planning should be effectively undertaken to avoid strain on the physical amenities from growth of informal settlements. In addition, community policing should be enhanced to reduce insecurity. Also, more infrastructural facilities like transport network, housing, schools and health centers should be built.

Table 8: Population distribution and density by Sub-County

Source: KNBS

Kiambu county had a population density of 952 persons per square kilometer in 2019. The population density was projected at 1025, 1085 and 1125 persons per square kilometer in the year 2022, 2025 and 2027 respectively. Kabete sub county has the highest population density of 3,289 in 2019 followed closely by Kiambaa and Ruiru Sub counties with a population density of 2,595 and 1,845 persons respectively. Lari and Gatundu North Sub counties had the least population density of 313 and 384 persons respectively in 2019.

#### Under 1 year

The population of under 1 year age group was 59,053 in 2019 and was projected at 66,540 in 2022 and 84,482 at the end of the plan period(2027).

#### Labour Force Projections

The population in the Labour force (those aged 15-64 years) is expected to increase by 13 percent from 1,622,100 persons in the beginning of the plan period 2022 to 1,834,360 person at the end of the plan period the year 2027.

#### Table 10: Population of Persons with Disability by Type, Age and Sex

Source: KNBS

The population of people with disability in the county according to the KPHC 2019 was 124,474 out of which 51,042 were males and 73,342 were females. Mobility disability had the highest number of persons followed by visual disability at 32,634 persons. Hearing disability had the least number with 9,926 persons. The population between 0-14 had the highest number of people with disability at 69,530 followed by population above 50+ years with 30,696 persons. The Kiambu County CIDP 2023-2027 shall seeks to address disparities in service provisions and also ensure that services that are available to other citizens are also available to PWDs in pursuance of article 19 (b) of the constitution. In specific, the county will continue to establish more ECDEs classes and TVETS that can accommodate more persons with disability in all areas.

# 1.5.5 Demographic Dividend

Demographic dividend refers to the potential accelerated economic growth that may result from a decline in a country's mortality and fertility and the subsequent change in the age structure of the population. This means that if fewer births are recorded each year in a country, then the young dependent population grows smaller in relation to the working age population. As a result, opportunities are created for economic growth since fewer resources are needed to meet the needs of this young age group more so if the right social and economic policies are developed and investments made.

It is evident in Kenya that demographic transition is taking place at both national and county level, with different counties at different stages of the demographic transition, thus creating a demographic window of opportunity to harness the demographic dividend. Demographic window is the period when the population structure is such that those aged below 15 years are less than 30% of the total population and those aged 65 years and above are less than 15% of the population.

The age population structure and fertility levels in Kiambu County as shown in table 10 may enable the county to experience a demographic dividend. It is therefore imperative that the County prioritize interventions and investments in the four focus areas of the demographic dividend, namely: health and wellbeing; education and skills development; employment and entrepreneurship; and rights, governance and youth empowerment. Further, harnessing the demographic potential is anchored on minimum of five pillars or wheels: (i) Demographic Transition; (ii) Education; (iii) Health; (iv), Economic Reforms and Job Creation; and (v) Governance and Accountability. All the five policy pillars are interrelated and should be implemented concurrently in order to drive the county towards the economic prosperity that can result from the demographic potential.

# 1.6 Human Development Index

According to the United Nations Development Programme (UNDP), Human development is about giving people more freedom to live lives they value. This means developing people's abilities and giving them a chance to use them. It focuses on improving the lives and the wellbeing of people. This is envisaged in the Kenya's economic blue print, the Vision 2030, as one of the objectives of providing a high quality of life for all Kenyans. Human development is assessed though the human development index (HDI) which is a summary measure of average achievement in key dimensions of human development: a long and healthy life, being knowledgeable and have a decent standard of living. The HDI is the geometric mean of normalized indices for each of the three dimensions.

The health dimension is assessed by life expectancy at birth, the education dimension is measured by mean of years of schooling for adults aged 25 years and more and expected years of schooling for children of school entering age. The standard of living dimension is measured by gross national income per capita. The HDI uses the logarithm of income, to reflect the diminishing importance of income with increasing Gross National Income (GNI). The scores for the three HDI dimension indices are then aggregated into a composite index using geometric mean.

According to 2021/2022 Human Development Report, Kenya's HDI for 2021 is estimated at 0.575 putting the country in the medium human development category. The HDI estimate for Kiambu County as of the year 2012 was 0.561. The County needs to develop policies as well as priorities in the key dimensions of the human development index.

# 1.7 Kiambu County Poverty Profiles

As per the UN definitions, poverty is considered as the lack of income and resources necessary to ensure a sustainable livelihood. It is evident through occurrences of issues such as hunger, malnutrition, limited access to education and basic services, social discrimination & exclusion and lack of participation in decision-making. The Sustainable Development Goal 1 aims at ending all forms of poverty. According KNBS data, Kiambu County is ranked number two after Nairobi County with the lowest poverty levels.

In Kiambu County, more than 1 out of 10 children are multidimensionally poor compared to the national average of 5 out of 10. This rate is twice that of Nairobi, the county with the lowest poverty rate, and is significantly lower than the national average. Multidimensionally poor children in Kiambu County are deprived of an average of 3.4 out of the 7 basic needs and services examined, which is lower than the national average of 4.1. The monetary child poverty rate (29%percent) is below the national average of 42 percent, but only 9 percentage points higher than that of Meru (the county with lowest child monetary poverty rate). Poverty overlap in Kiambu County is quite low as almost 1 out of 10 children are both monetary and multidimensionally poor. Only 4.8 percent are multidimensionally poor but not monetary poor, pointing to challenges with basic services accessibility and availability and/or lack of awareness on importance of certain services.

Multi-dimensional monetary poverty incidence among women in Kiambu County is significantly lower than the national average. Two out of 10 women are multidimensionally poor, slightly higher than the rate of the top performing county, Nairobi. The multidimensionally poor women are deprived on average from 3.6 basic needs and services out of 7, which is 1 basic need lower deprivation than the national average of 4.3 deprivation. The monetary poverty rate amongst women stands at 17 percent (almost half than the national average), similar to that of Nairobi (15%).

#### NB: According to data from KNBS;

Multidimensional poverty among children was measured using age specific indicators across the following dimensions of wellbeing: Nutrition, Health, Physical Development, Education, Child protection, Information, Water, Sanitation and Housing

Multidimensional poverty among women (18-59 years) was measured using indicators in the dimension of nutrition, education, economic activity, information, water, sanitation and housing. Monetary poverty was measure using the absolute/overall poverty line of monthly adult equivalent consumption below Kshs. 3, 252 in rural and peri-urban areas, and below Kshs 5,995 in urban areas.

# **PERFORMANCE REVIEW OF THE CIDP 2018-2022**

# 2.0 Overview

**CHAPTER** 

This chapter gives a brief review on implementation of previous County Integrated Development Plan (CIDP). It provides an analysis of county performance in terms of revenues, an analysis of county expenditure by sector as compared to budget versus actual, key outcomes as well as challenges and lessons learnt in the last four years plan period.

The CIDP 2018-2022 was prepared in 2018 and earmarked for implementation from July 2018 to June 2023. It was aligned to the national planning framework in particular Medium-Term Plan III of the Kenya Vision 2030 and the Big Four Agenda. The plan also integrated the Sustainable Development Goals (SDGs) among others. The five-year plan had an estimated resource requirement of Kshs. 116.963 billion and was able to mobilize Kshs. 61.858 billion in the first four years representing 52.9 percent of the total required to implement programs over the plan period. There was a deficit of Kshs. 55.105 billion implying that 47.2 percent of the proposed programs remained outstanding by the end of the fourth year.

# 2.1 Analysis of the County Revenue Sources

Table 11 provides the annual projected revenues versus actual receipts during the period under review

Revenue Sources		Reven	ue Projection (l	Kshs)	Actual Revenue (Kshs)							
	2018/19	2019/20	2020/21	2021/22	2022/23	2018/19	2019/20	2020/21	2021/22	2022/23		
a) Equitable Share	9,267,734,453	10,194,507,898	11,213,958,688	12,335,354,557	13,568,890,013	9,357,200,000	8,402,912,221	9,431,700,000	10,780,123,663			
b) Conditional grants	895,301,402	984,831,542	1,083,314,696	1,191,646,166	1,310,810,783	3,354,955,863	2,830,104,577	1,906,814,281	340,600,928			
d) Own Source Revenue	2,681,734,639	2,949,908,103	3,244,898,913	3,569,388,805	3,926,327,685	2,737,467,842	2,466,345,109	2,392,873,848	3,149,182,552			
e).Other Sources	2,169,283,320	2,386,211,652	2,624,832,817	2,887,316,099	3,176,047,709	774,055,366	1,201,095,086	1,885,983,472	847,325,359			
Total	15,014,053,814	16,515,459,195	18,167,005,114	19,983,705,627	21,982,076,190	16,223,679,071	14,900,456,993	15,617,371,601	15,117,232,502			

Table 12: Annual projected revenues versus actual receipts from FY 2018/19- 2022/2023

Source: County Treasury

The projected revenue for the five years (2018-2022) was Kshs. 91.662 billion. However, the actual revenue realised during the first 4 years (2018/19-2021/22) was Kshs. 61.858 billion translating to 67.5 percent of the set target. This means that the county was not able to fund some of prioritised programs in the 2018-2022 CIDP.

The equitable share is the main source of County revenue and accounts for the largest share of total revenue. Its performance has been progressive over time except in the Financial Year 2019/20 which was attributed to the emergence of Covid 19 pandemic during the fourth quarter and non-remittance of June exchequer of the same year.

The total conditional grants projections for the plan period were kshs.5.465 billion, however the actual conditional grants revenue realised during the first four years was Kshs. 8.432 billion which was 154.29 percent

of the projections. The over achievement was occasioned by KUSP grant received which was not anticipated during the preparation of the 2018-2022 CIDP.

# 2.2 County Budget Expenditure Analysis

Table 13 provide an analysis of total budget allocation and total actual expenditure by sector from 2018/19 to FY 2021/22.

Vote	Department	Total Budget	Total Actual	Variance	Absorption	Remarks
		Allocation	Expenditure		rate %	
		(Kshs)	(Kshs)			
4061	County Assembly	5,248,488,694	4,436,605,079	811,883,615	84.53	
4062	County Executive	1,637,185,047	1,349,491,623	287,693,424	82.43	
4063	County Public Service Board	275,498,208	226,564,506	48,933,702	82.24

	TOTAL	70,152,898,651	59,103,854,233	11,049,044,418	84.25	

Table 13: County Expenditure Analysis (Kshs) 2018/2019-2021/2022

Source: County Treasury

During the period under review, the County's actual expenditure was Kshs 59.103 billion against a budget allocation Kshs 70.152 billion. There was a shortfall of Kshs 11.049 billion which could be attributed to underperformance of own source revenues, delayed release of exchequer and adverse effects of Covid-19 pandemic from FY 2019/20 to 2021/22. The absorption rate was 84.25 percent. The Department of Administration and Public Services and the Department of Heath Services recorded the highest absorption rate of 94.66 percent and 93.15 percent respectively while the Department of Trade, Tourism, Industry & Co-operative and the Department of Youth Sports and communication recorded the lowest absorption rate of 69.96 and 55.86 percent respectively. The expenditure trend will act as a tool for decision making in future especially on resource allocation to critical sectors.

# 2.3 Sector Programmes' Performance Review

# 2.3.1 County Assembly

In the period under review, the County Assembly promoted effective and efficient service delivery by providing oversight on programmes implemented by the County Executive and quality legislation. To achieve the objective, the County Assembly approved thirty (30) bills, 435 motions, 44 petitions, 225 statements, carrying out of public participation, publishing annual Assembly digest. Further, the Assembly enhanced security and overall representation where it implemented the virtual meeting platform for plenary and committee sittings, installation of the Closed Circuit Television (CCTV) security surveillance system, operationalization of the Records management unit, budget execution and increase in budget absorption, prioritizing expenditure to resources available, adoption of the IFMIS and e-procurement system, adequate internal controls, timely production of financial reports, construction of five(5) ward offices, refurbishment of assembly buildings.

# 2.3.2 County Executive

During the period under review the County Executive provided policy direction and guidelines passed during cabinet meetings with an aim promoting efficient and effective service delivery. The executive drafted 10 policies and 198 cabinet papers and bills during the planed period and It was also involved in coordinating departments/sectors in formulation of sector plans policies and bills, for onwards submission to the County Assembly. The County Executive further initiated a performance management system that has helped improve and track the performance of programme/projects within the County; promoted public participation in the development of policies and various planning documents; implemented digital communication platforms and feedback mechanisms. Thus, enabling free and timely flow of information to citizens for better service delivery. Additionally, the Executive operationalized the office of the County Attorney to offer legal representation and services.

# 2.3.3 County Public Service Board

During the plan period, the Board motivated staff to enhance their productivity and maximize the workers efficiency in service delivery. This achievement was attributed to championing the roll out of a comprehensive medical cover for all the County staff under the National Hospital Insurance Fund, addressing industrial disputes on labour related grievances as advanced by the various workers Unions; and recruiting personnel in various cadres across the county including medical officers to combat the Covid-19 pandemic. The CPSB also provided policy direction in human resource management where a County Staff Establishment was developed and adopted by the County Executive. The Board also provided human resource advisory in terms of schemes of service and career guideline.

# 2.3.4 Department of Finance, ICT & Economic Planning

In the plan period, the department strengthened planning and policy formulation through capacity building programs. It also prepared County Integrated Development Plan and 4 Annual Development plans which guide planning and budgeting in the County. The department further strengthened linkages between policy, planning and budgeting and tracked implementation of the plans, policies and budgets. This was achieved through preparation of 4 County Fiscal Strategy Papers, 4 Itemized and Program Based Budget, County annual and quarterly progress reports and budget implementation status reports.

Further, the department enhanced efficiency in revenue collection through automation of county services by provision of relevant systems, among them liquor licensing, hospital revenue collection and also improvement of existing revenue collection systems.

Additionally, the department strengthened its internal audit processes through compliance with International Professional Practices Framework (IPPF) and achieved at least 55% compliance. This was enabled through additional staff and equipment which increased the efficiency and productivity of the internal audit unit as well as the re-constitution of the internal audit committee.

To deepened accountability and transparency in public finance management, the county treasury processed payment through the IFMIS systems and prepared both the quarterly and annual financial reports. These reports were shared to the relevant statutory offices such as the Controller of budget and Office of the Auditor General. The County strengthened the safeguards of the County asset by regular update of both the current Asset registers and pending bills register.

# 2.3.5 Department of Administration and Public Service

In the plan period, the department planned to improve service delivery through; construction and equipping of three sub county offices and one ablution block, increase access to county services and improve staff capacity and welfare. At the end of the period the department increased office space for various staff through completion of construction and equipping of one sub county offices and renovation of one office block. The department also created a conducive working environment by improving sanitation where one ablution block was constructed. To increase access to county services, the department decentralized their services to the sub county and ward level and deployed staff of various cadres. Further, the department enhanced staff capacity and welfare through training of staff on various skills and provision of comprehensive medical cover.

In the plan period, the department also targeted to enhance compliance of public to county laws and reduce incidences of; alcohol and substance abuse, illegal betting and gaming. At the end of the period a reduction on incidences of alcohol abuse, illegal betting and gaming was achieved. The department also enhanced compliance of public to county Laws and applicable National legislation.

# 2.3.6 Department of Agriculture, Livestock and Irrigation

To increase production and enhance food and nutrition security, the department implemented four programmes, namely; crop development and management, agribusiness and information management, livestock resources management and development, and fisheries development and management.

There has been a consistent increase in production during the plan period 2018-2022 whereby maize production increased by 23% from 41,262 tonnes to 50,652 tonnes, production of beans by 22% from 16,800 tonnes to 20,499 tonnes. In addition, production of avocadoes increased by 27% from 16,943 tonnes at the beginning of the plan period to 21,584 tonnes, whereas banana production decreased by 6% from 70,463 tonnes to 60,920 tonnes. Further, dairy productivity increased by 20% during the plan period from 7.5 litres per cow per day to 9 litres per cow per day. Also the department in collaboration with the Aquaculture Business Development Programme and the State Department of Fisheries, increased fish production by 14% from 15,736 Kgs to 17,933 Kgs.

Some of the interventions put in place include; procurement and distribution of 342.18 tonnes of certified seeds (maize, bean seed, sunflower, and canola), 84,203 fruit tree seedlings, 1,282.5 tonnes of coffee and food fertilizer, as well as procurement and distribution of 84,000 potato mini-tubers. The department also trained over 246,634 farmers on modern farming technologies across the County through individual and group visits. Additionally, 67,714 doses of semen for the Kiambu County Free A.I program were procured and inseminated, 19 milk coolers were installed for value addition in collaboration with the state department of Livestock, as well as conducting 12 FMD, 3 LSD, 1 PPR, 1 RVF, and 5 Anthrax vaccination campaigns. Selected ponds and dams across the County were also stocked with 146,000 fingerlings in collaboration with ABDP and the State Department of Fisheries. Equally, 400 households were trained on nutrition education through 8 eat more fish field days.

Further, the department in collaboration with NARIGP implemented six multi-community sustainable land management (SLM) investments, namely; Kamwamba, Renguti, Kamae-Kirasha, Gatharo, Githaruru, and Kibera. A total of 120 KMs of terraces, 120 solar-powered water ponds were constructed as well as the planting of 20,400 agroforestry seedlings reaching 6,000 direct beneficiaries. Kamwamba irrigation project was initiated, which is 50% complete, serving Chania and Mang'u wards. Additionally, 7 dairy, 3 Local Chicken, 5 Potato and 3 Banana Producer organization have benefited with a total of Ksh 17,610,450 inclusion grants and 4 Dairy cooperatives supported with equipment worth Ksh 23,417,100 to undertake various investments covering

mainly value addition and marketing. They were supported to procure equipment for milk pasteurization i.e. pasteurizer, holding tanks, homogenizer, air compressor, boiler, chiller, milk cans, milk testing equipment, weighing scales etc. This had a significant impact on the milk quality, increased revenue streams, better prices to members and improved profitability.

# 2.3.7 Department of Water, Environment, Energy Natural Resource and Climate Change

## Water and Sanitation Sub-sector

Access to clean and portable water in the county stood at 54% at the beginning of the 2018 plan period and the proportion increased to 69% during the plan period. This was realized through; drilling, equipping and operationalization of 51 boreholes in various wards through financing from AWWDAs, WSPS and the county. A composite filtration unit (CFU) at Marigoiti under GATWASCO was constructed. A Water Treatment Plant (WTP) at Kambaa primary school providing an additional 21,354m<sup>3</sup>/day was also constructed. Spring sources were protected to achieve clean and safe water to county residents. Over 762 km of pipelines were laid to increase water supply and 23 tanks were either constructed or distributed to various institutions to enhance water storage. To reduce non-revenue water (NRW) in the WSPs, the county offered technical support in mapping and digitizing the water and sanitation services infrastructures. The directorate supplied 2042 water meters to the WSPs. Sewered sanitation during the plan period stood at 16.4%. Access to sanitation is at 70-73%, this was attributed to operationalization of 11 toilets and laying, extending 66.7km of sewer pipelines with a potential to serve approximately 25,000 people.

#### Environment and Waste Management

Garbage collection and disposal around the urban centers within the county of Kiambu stood at 48% at the beginning of the 2018 plan period and it increased to 65% during the plan period. Waste generation rates in the county stands at 1432tonnes per day. The average number of residents in a household stood at 5 persons/ household, with an average daily discharge of 0.53 to 0.65kg/person/day (JICA, 2010). Seventy-two (72) private firms and 26 registered youth group compliments Kiambu county government in waste collection as at 2018 plan period. The county increase in capacity to manage waste (collection, transport and disposal) in terms of human resources and equipment was realized through procurement and servicing of all solid waste disposal equipment and machinery. Kiambu and Gioto dumpsite were decommissioned during the review period. The directorate procured one excavator, one bulldozer (KOMATSU) and a high pressure washing machine through JICA. In addition, it held major clean ups across the county, conducted environmental trainings, held environmental awareness campaigns. Therefore, this further facilitated the increment of county revenue collection to 60M and helped achieve a clean and healthy environment.

## Natural Resources and Forestry

In 2018, tree cover was at 16.5% and the current is 19.74%. This was achieved through raising and transplanting 556,948 tree seedlings and implementation of transitional Implementation Plan for forestry devolved functions. Mapped, Secured and Conserved water sources and catchment areas through awareness creation, planting trees in water catchment and riparian areas. Facilitated the process of collecting revenue by issuing quarrying invoices and certificates. Improved aesthetic value in the county by developing, maintaining recreational parks, gardens, roundabouts and other green spaces in Thika, Ruiru, Kiambu and Kikuyu sub counties. To better management of forestry within the county, there is a draft policy of the Kiambu County Sustainable Forest Management and Tree Growing Policy.

## Renewable Energy and Climate Change

The main focus of the sub sector was the establishment of legislative and institutional framework to guide the mainstreaming of renewable energy and climate change in county operations, planning and budgetary process. Thus, the sub sector has achieved the following; mapped and undertook energy needs assessment in learning institutions, health facilities and informal settlements, undertook a sustainability audit in 10 sub counties, developed the Kiambu County Climate Change Bill, 2021 which was enacted in November, 2021 in to an Act, developed draft Kiambu County Climate Change Fund, Regulations, 2021, formulated Draft County Climate

Change Policy, undertook Sensitization workshops on climate change mainstreaming in county development plans, budgetary processes and operations for county staff, initiated the formulation of County Energy Plan (CEP) under the Sustainable Energy Technical Assistance(SETA)project, and coordinate and participated in 7<sup>th</sup> Annual Devolution Conference which was on climate action.

# 2.3.8 Department of Health Services

Health infrastructure in the county has improved with theatres operationalized in Lari, Lusigetti and Kihara Level 4 hospitals. Renovation and face lifting of Lusigetti and Igegania level 4 hospitals is now complete with the Construction of covered walkways at Ruiru level 4 hospital complete as well as renovation of Pharmacy at Rironi Dispensary. The medical blocks and wards in Lari, Wangige and Tigoni level 4 hospitals completed. Expansion and equipping and installation of health facilities with essentials including sanitary facilities, laundries, hospitals' dedicated generators, bulk liquid oxygen tanks with up to bedside piping, ICU facilities and expansion of theatres.

#### **Preventive Health Services**

In the plan period, the department developed and adopted a county COVID-19 emergency preparedness plan that is based on key strategic approaches intended to achieve a well-coordinated and effective response to the pandemic. This involved coordination, surveillance, case management, laboratory testing and Risk Communication and Community Engagement to coordinate development of the COVID-19 strategy and the county COVID-19 emergency preparedness plan. The county PHEOC was operationalized with a dedicated physical space established at Thika Level 5.

Community Health Units (CHUs) were established. A total of 37,576 vulnerable persons (Indigents) were identified and submitted to National Hospital Insurance Fund (NHIF) for biometric registration and enrolment in to the NHIF insurance scheme to be supported by the County Government. This is an ongoing process in the sub counties. Further, water and food quality surveillance services were carried out, with an aim to prevent and control food and water borne diseases. 94.3% of the targeted food and water samples were delivered and analysed.

## Curative and Rehabilitative Services

In the plan period, there was enhanced provision of health services in Kiambu County through provision of pharmaceutical, Laboratory and non-pharmaceutical, cleansing and sanitary commodities to all health facilities in the County. In addition, the County provided assorted medical equipment including laboratory equipment to various health facilities. As a result, specialized services have been enhanced by establishing and equipping critical care units in Kiambu Level 5 hospital and Tigoni level 4 hospital. In addition, renal dialysis services are ongoing in Thika and Gatundu level 5 hospitals. Gatundu level 5 hospital is the non-communicable disease centre in the county.

In order to provide drug rehabilitation services, the health department partnered with MSF to provide quality medically assisted therapy for Opioid dependent persons in Lari level 4 hospital. Ruiru level 4 new unit is equipped with assorted medical equipment. In the plan period, 85% of laboratories received lab reagents and provision of small lab equipment done and Quality assurance systems in place in laboratories.

Following the onset of Covid-19 pandemic in FY2019/20, installation of liquid bulk oxygen and provision of piped oxygen was completed in Thika, Gatundu, Kiambu and Tigoni Hospitals. In addition, a covid PCR equipment was installed in Thika Level 5 hospital. Fully equipped isolation facilities were set up in Tigoni Level 4 Hospital, Kiambu level 5 hospital and Thika level 5 hospital. This ensured that all cases were managed at the health facilities.

In order to improve case management of severely ill children, The Clinton Health Access Initiative (CHAI) partnered with the health department to train 64 health care workers on Emergency Triage Assessment and Treatment Plus Admission (ETAT+). CHAI also donated 84 pulse oximeters to aid in the diagnosis and management of hypoxia in children and new-born. In addition, the department supported the training of 30

health care workers in Basic life support courses and ETAT. The department has also worked together with the Reproductive Health unit in training HCW in Emergency maternal and neonatal care, and Neonatal resuscitation. Emergency care is key in-patient management. This is well achieved by facilitating health care workers with enough skills and resources.

The department of health has continued to supplement the under-fives with vitamin A where the coverage is currently at 97% through door-to-door supplementation. The county sensitized 15 Media houses on Breast Milk Act (BMS) Act 2012 which was aired in three media houses and two national newspapers.

In the plan period, 70% of facilities had nutrition service equipment- Through door-to-door vitamin A supplementation 91.7% of children under-fives were supplemented. Procurement of nutritional therapeutic feeds in critical care units in Thika level 5 hospital and Nutrition commodities and Continuous medical education to improve nutrition staff capacity has led to reduced morbidity and mortality and Promotion of curative health services in the county.

#### **County Pharmaceutical Services**

In the plan period, the department improved availability of essential medicines in health facilities from 60% to 90%. Further to this, scale up and decentralization of non-communicable diseases (NCD) services was facilitated through procurement of additional NCD medicines for the scale up of NCD services in 14 level 2 and 3 health facilities. The department supplied essential medicines and medical supplies to 112 public health facilities, and supported the distribution of public health program commodities to 84 health facilities including private and faith based organizations.

The department further supported delivery of specialized services through procurement and distribution of specialized medicines for the operationalization of Lari Level 4 theatre, Lusigetti Level 4 theatre and Ruiru Level 4 Oncology/Palliative Day-care centre.

IPC baseline survey and commodity management of Covid 19 vaccination assessment at Thika level 5. Kiambu level 5, Gatundu level 5, and Ruiru level 4 hospitals with a capacity building on infection prevention control and antimicrobial stewardship under the Antimicrobial Resistance Multi-partner Trust Fund (AMR-MPTF) project at Kiambu level 5 hospital.

#### Reproductive health services

106% of deliveries conducted by skilled birth attendants was recorded while 32.3% of women of reproductive age received family planning in the review period out of an annual target of 50%. It is worth noting that although there were 60% of facility based maternal deaths, 100% of all maternal deaths were audited.

The RH Program managed to train 24 HCWs (2 per Sub County) as mentors and trainers and at least one HCW per facility in the 108 GoK facilities as service providers for cervical cancer screening and treatment. This will go a long way in ensuring that we meet our county target of screening at least 60,000 women per year. This was done through the support of the National Cancer Control Program in partnership with Clinton Health Access Initiative.

In the plan period, raising Lari Level 4 hospital from Basic Emergency Obstetric & Neonatal Care (BEmONC) to Comprehensive Obstetric & Neonatal Care (CEmONC) level by putting up and operationalizing a theatre. In partnership with Jacaranda Health, 25,649 pregnant women were enrolled in the SMS platform against a target of 8,810. The platform provides the women with health information related to pregnancy and child birth such as importance of attending ASDSPI clinic as well as delivering at the hospital, danger signs in pregnancy etc.

# 2.3.9 Department of Education, Gender Culture and Social Services

## General Administration and Support Services.

The Department improved service delivery by renovating and equipping one office block at the headquarters. Further, five appraisal meetings were held and two exhibitions conducted. The Directorate of Vocational Training hosted the Central region inter VTCs games competitions in 2019 and held annual inter VTCs games competitions in 2021. ECDE Directorate participated in regional and national music festivals.

#### Vocational Education and Training

The directorate managed to increase access to learning in VTCs by increasing the number of VTCs by 26 %, that is from 31 to 39. The total enrolment of VTC learners also increased by 68% from 3,161 learners in 2018 to 5,295 in 2021. This increase is attributable to opening of eight new VTCs, renovation of 13 existing VTCs and construction of two motor vehicle garages in VTCs. Through collaboration with Child Fund and Dow chemicals, a building technology shade was constructed at Muguga VTC. Perimeter fences were also constructed at Kamirithu and Ndumberi VTCs. Additionally, subsidized grants worth Kshs. 168,820,698 were disbursed to the VTCs in three financial years (2018-2021).

To promote the quality of learning in VTCs, the department also procured and distributed electrical installation training tools, food processing tools, hairdressing equipment, catering, plumbing tools, fashion design, garment making and sewing machines to twenty-two VTCs. Additionally, ten instructors were employed and five VTCs connected to internet. To improve sanitation in VTCs, ablution blocks were constructed in 15 VTCs through capitation grants.

The Department contributed to mitigation of the Covid – 19 Pandemic by using VTCs to produce 647,000 face masks that were distributed to the public. The number of trainees being certified by national examining bodies also increased from 678 in 2019 to 1559 in 2021.

## Early Childhood Development Education

The department managed to increase access to learning in ECDEs by increasing the number of pupils by 32%, that is from 33,166 learners in 2018 to 43,644 learners in 2022. The number of ECDE centres also increased by 7% from 491 in 2018 to 523 by the end of the CIDP period. This improvement is attributable to the school feeding programme which ensured 38,455 learners benefitted annually, construction of classrooms and renovation of existing ones.

To improve sanitation in ECDEs, the department constructed ablution blocks at 16 new ECDEs. To improve the quality of education in ECDE centres, the department employed 31 new ECDE teachers, translated employment terms for 1184 existing teachers and promoted 27 teachers to a higher grade.

#### Gender and Culture

To promote cultural, gender and heritage values, the directorate held; three County music dance and cultural festivals, two capacity building and mentorship programmes for artistes, embarked on the 2<sup>nd</sup> phase of construction of Lusiggetti community library, held 15 GBV sensitization forums, held 12 capacity building programmes for community leaders on GBV, formed 12 multi-sectoral technical working groups to harmonize GBV prevention and response and initiated the process of establishing one GBV and rescue centre.

To promote the wellbeing of the PWDs, the Directorate also rehabilitated and supported 400 PWDs with assistive devices and food subsidies, conducted 60 capacity building programmes for women/youth groups/ PWDs and other marginalised groups and also provided training to 2000 women, youth and PWDs on accessing Government procurement opportunities. Additionally, the Directorate marked key UN Days that is International Women's Day, Persons with Disability Day, Day of the African Child and World Elder Abuse Day.

### Social Services

The directorate of social services managed to increase retention in school going children by increasing the number of learners who benefit from bursary. In 2018, the baseline for the number of learners benefitting from bursary was 15,000 learners per financial year. By 2022, the directorate managed to give bursaries to 102,240 learners over the CIDP period. The directorate throughout the 5-year period also managed to aid the old and vulnerable groups in the society and rehabilitated street families. Trainings on community empowerment courses were also conducted for women and youth groups to benefit.

# 2.3.10 Department of Youth Affairs, Communication and Sports

#### **Sports**

During the period under review, the department nurtured and promoted talents by holding super cup football tournament, equipping all participating teams and athletes with customized sports equipment and uniforms, facilitating affiliation of 180 teams to participate in leagues and competition in partnership with Football Kenya Federation, sponsoring Kiambu Amputee Football team at the 2018 Kenya Amputee Football Tournament Champions, sponsoring rowing and canoeing athletes to national competition and facilitating youth teams to participate in Kenya Youth Inter County Sports Association games (KYISA).

The department enhanced staff motivation by facilitating staff teams to participate in KICOSCA annually. It also nurtured local talent by sponsoring Ting'ang'a football club men's and women's teams to participate in East & Central Africa Chipukezeey Championship held in Arusha and Kiambu County Judo Club's team to the African Cadets and Junior Judo Championships held in Bujumbura – Burundi.

#### Youth Affairs

During the plan period, the department equipped and empowered young people by training over 1200 Kiambu residents on entrepreneurship skills and access to Government Procurement Opportunities (AGPO). The department also launched Jiinue Fund to promote welfare among the youth, PWDs and women through self-employment and enterprise development where Kshs. 227M were disburse to 631 beneficiaries in partnership with KCB Bank. The department further sponsored 1200 youths to undertake Driving Courses.

#### Communication

During the plan period, the department increased awareness of the services offered by the county government through documentaries, newspaper supplements, a county handbook and a county magazine.

# 2.3.11 Department of Land, Housing, Physical Planning, Municipal Administration and Urban Development

During the period under review, the department was able to achieve the following under the sub sectors;

## Land Administration, Survey & Geo-Informatics

During the period under review, the directorate improved land administration and management of the land resource through increased revenue and eased the access to county land data through; Titling programme in Thika informal settlement, Ruiru Kiu Block 6 (Githurai Ting'ang'a) Mwihoko LR/No. 10902/10 & 11, Ndeiya Karai Settlement Scheme. Moreover, the department acquired a modern survey equipment including (The Trimble<sup>®</sup> TDC150 GNSS handheld receiver) for GIS & Satellite images up to 2cm high resolution.

#### Housing & Community Development

Under Housing & Community Development, the department was able to provide safe, decent and affordable housing through construction of 40 two-Bedroom units in Thika Municipality, and renovation of 6 onebedroom rental units in Kikuyu Municipality. The department also facilitated the private sector to construct over 4000 affordable houses in the county. It also provided conducive working environment where it renovated headquarters offices at Red -Nova. To improve the living conditions and end land disputes in the informal

settlement, the department facilitated surveying, titling and issuance of 60 block titles to over 2000 residents of Umoja Informal Settlement.

# Physical Planning

In order to provide an overall spatial framework for the county, the directorate of physical planning notably made the following achievements; Preparation of 150 Part Development Plans (PDPs) for public land, Preparation of Draft Kiambu County Spatial Plan, Preparation of 12 draft Integrated Strategic Urban Development Plans (IUSDP) for Kikuyu, Kimende, Githunguri, Kiambu, Limuru, Gatundu Town, Juja, Ruiru, Karuri, Nairobi-Thika Transport Corridor, Kamwangi, Wangige. The sub sector facilitated development control through processing of 20,000 development applications and enhanced compliance through issuance of 15,000 development enforcement notices. Umoja Informal settlement was also completed during the period under review.

#### Valuation and Asset Management

During the period under review, the directorate has streamlined rating process and improved revenues through the following; Gazettement of the Kiambu County Valuation and Rating Act (Regulations) 2018, adoption of Kiambu county valuation roll 2016 and further gazettement of area rates 2018. There was also an increment in annual land rates revenue collection from 187 million for FY 2017/2018 to an average of 350 million for subsequent financial years. The County achieved 35,000 new rateable properties into the county rating register. It also identified and verified county assets relating to devolved functions under the IGTRC & CALC reports. Inspection and Valuation of properties for acquisition, court/litigation, rates exemption purposes and validation of valuation reports for the water companies was also carried out.

## Municipal Administration and Urban Development

The directorate improved urban infrastructure by creating livable cities. This was achieved through the following; Improvement of urban infrastructure through connectivity that is upgrading of 80km roads to bituminous standards, 50km NMT facilities and 80km of storm water drainage. It also improved security by installing 25 high mast and 1500 solar street lights. The sub sector connected 30Km sewer reticulation, Land scaping & beatification, 2 urban parks, landscaping and beatification in 3 major rounds about and Solid waste management- Purchase of solid waste equipment's 60 skips, 6 skip loaders, 6 tippers and 6 back loads.

# 2.3.12 Department of Trade, Industrialization, Tourism, Investment & Cooperative Development

## Trade and Markets Directorate

The Trade and Markets directorate increased the revenue from stalls rent to traders in Kiambu County markets from Kshs. 531,500 in 2018 to Kshs. 2,281,310 in 2022. This was achieved through the construction/ rehabilitation/renovation of 10 markets: Wangige egg market, Kamwangi market, Limuru food stuff market, Limuru market, reroofing Wangige market, reroofing Gatundu market, Limuru clothing market, Witeithie market and rehabilitation of Githunguri and Dagoretti markets. The directorate also partnered with World Bank to promote trade through the construction of 6 markets: Kikuyu modern, Kihara modern, Ruiru modern, Juja modern, Githurai modern and Kirenga market shed. The directorate further partnered with development partners to construct, Soko Mjinga in collaboration with Blue Nile Company, and the renovation of part of Madaraka market through a grant by Global Alliance for Improved Nutrition (GAIN). Githurai Modern market was also completed and is awaiting handing over to the County Government. In addition, four modern market ablution blocks were constructed to ensure well-sanitized markets.

The directorate improved the operating environment for over 450 bodaboda operators who were since 2018 exposed to harsh weather conditions, i.e., sunshine or heavy rainfall. This was achieved through the construction of 50 bodaboda sheds across the County. The Weights and Measures section increased the number of businesses conforming to fair trade practices and adopting standards from 1650 in 2018 to 2850 in 2022. This was achieved through verifying 3,047 measuring instruments, 9,335 weighing instruments and 24,510 weights.

The revenue from verification earned to the county totaled Kshs. 14,340,500 in the period 2018-2022.

#### Industrialization Directorate

The Industrialization directorate improved the trading conditions for twenty (20) traders who were trading in open spaces prone to harsh weather conditions since 2018 by constructing two modern Kiosks that domicile 20 stalls in Ruiru Municipality. The directorate also improved the business management practices and entrepreneurial skills of 400 entrepreneurs spread out in the 12 sub-counties in Kiambu between 2019 and 2021 by conducting 20 MSME training. In addition, the directorate assisted 1440 businessmen/women to access business loans amounting to Kshs 334M, which was achieved through sensitizing entrepreneurs in Post Covid recovery for MSMEs. This was carried out in partnership with Financial Institutions, Youth and Sports Department, KCB Bank and KCB Foundation, and Jiinue Fund.

The directorate established the Kiambu County Avocado Farmers' Cooperative society, with the main members drawn from avocado-producing sub-counties. The aim of the cooperative, which currently has over 400 registered members, is to enhance productivity, improve earnings, promote value addition and create market linkages for the fruits. The directorate mobilized Kshs 300 million in collaboration with other departments towards Covid-19 management. The directorate collaborated with the youth polytechnics to make and distribute over one million face masks to help mitigate the spread of the Covid-19 virus. In partnership with Kenya Private Sector Alliance-KEPSA, the directorate trained 40 traders and 10 members of staff on Covid-19 management. Further, through local and international trade fairs, 300 innovators and MSMEs were exposed to market linkages and networking to promote business growth.

#### Tourism Development and Marketing directorate.

Through the directorate of tourism, the tourism and hospitality industry recorded a drastic increase in bed occupancy in both domestic and international visitors, from 16% in 2019 (Covid-19 era) to 70% in 2022. This was achieved through the following efforts: the directorate participated in 36 exhibitions and tourism forums, which included Magical Kenya, International tourism days, Sustainable tourism Africa summit, East Africa tourism and hospitality expos, workshops and MICE programmes undertaken to promote tourism in the County.

Additionally, 297 stakeholders were sensitized to the available Covid-19 recovery funds, accessibility of these funds and the new tourism and travel protocols. Further the county partnered with Rotary and UNEP to clean, restore and conserve 14 falls attraction site through the Adopt-a-River program. The directorate facilitated the completion of the construction of an ablution block and fencing of 14 falls and the construction of 8 public washrooms at Mathore viewpoints. The county realised Kshs 6,342,780 in revenue from tourist attraction sites.

#### Investment Directorate

The County intends to enhance investments (DDI & FDI) by positioning itself as the preferred investor's destination. To achieve this, the County has established the Directorate of Investment to develop, promote, facilitate, retain & coordinate investments within the County.

#### **Cooperatives Directorate**

The turnover of the Cooperative movement in Kiambu grew from Kshs. 13.79 billion to Kshs. 14.43 Billion translating to a 5% growth rate. This was attributed to the increased number of registered cooperatives from 553 in 2018 to 697 in 2022. Training of 5,307 cooperative members, 876 cooperatives committee members and holding 25 cooperatives sensitization for which were achieved in collaboration with the cooperative societies. The directorate also carried out 44 risk assessments and 9 inspections on cooperative societies to promote prudence and sustainability in the management of cooperatives directorate.

Further, the directorate increased its cumulative revenue from audit services from Kshs. 7,600,000 in 2018 to Kshs 9,107,200 as at 2022- 20% growth through auditing 556 cooperative societies.

The directorate is in the initial stage of establishing a digital (ICT) system in its operations and registry to enhance

access to information in real time, go paperless and reduce operational costs. The directorate collaborated with the USAID CLEAR Programme on capacity building of staff. The directorate together with stakeholders from the cooperative sector gave their input into the review of the National Cooperatives Policy.

# 2.3.13 Department of Roads, Transport, Public Works and Utilities

During the period under review, the department was able to improve the connectivity and accessibility between towns and shopping centres by upgrading to Bitumen Standards the following roads: Thogoto- Ndaire Road, Kimende town Roads, Kimbo- Matangiini Road, and Gatitu Junction and surrounding roads in Thika town which totaled to 11Km. Through other road agencies, the Directorate was able to upgrade to bituminous standards a length of 80Km with NMT facilities under Kenya Urban Support Programme. Over 2000 KM of Access roads were graveled and maintained while 1722 KM were rehabilitated across all the sixty wards in the county.

The department has improved accessibility and connectivity between various town through construction of bridges Such as Darasha, Chura, Murera and Riuriro and rehabilitation of Gatamaiyo bridge. The department also procured 2 drum rollers, 3 tippers, 5 graders and 1 backhoe so as to ensure the roads are properly and continuously maintained

## Transport

In order to ensure that the towns were less congested, the directorate ensured bus parks within the county were well maintained and rehabilitated. The Bus parks include Githurai 45, Kiambu and Makongeni. This resulted to an increased Bus Parks to 22No.

## Public Works

During the period under review, the department improved connectivity by constructing 11 footbridges to ensure safety of road users. The footbridges include Kibuga -Kanjai (kwareti), Juja Farm, Nyanjogu-Nyamuthanga, Iraiani-Kagaa and Kiandithi-Kiawaiguru

## Utilities

Enhanced Security of the residents and business people operating in Kiambu County is a top priority, therefore, the directorate of utility installed 3865 no. conventional street lights, 902no. solar streetlights and 207 no. flood masts across all sixty wards and trained staff on fire and disaster management to approximately 128 no. Firemen.

In order to ensure efficient and quick response in disaster management, the directorate constructed and equipped Kiambaa and Kiambu fire stations hence a 60% increase in response to fire cases.

# 2.4 Challenges in the Implementation of the Plan

Some of the challenges faced by the department during implementation period were;

## **Cross Cutting Challenges**

## - Covid-19 pandemic

The emergence and spread of Covid-19 pandemic in Kenya in 2020 and its containment measures adversely affected the economy. This resulted to global economic contraction, thus disrupting businesses leading to loss of livelihoods for millions of people and a fall in revenue collection. Further, funds meant for development were diverted to combat the spread of the virus, such as buying masks, building and equipping Covid-19 Isolation Centres. Additionally, the pandemic led to the scaling down of office operations, a factor that slowed down service delivery.

## - Delays in Exchequer Release

There was delay in releasing of funds to the County government by the National Government due to the

economic situation prevailing in the country as a result of Covid-19. There was also non-remittance of equitable share and conditional grant which affected implementation of programs and projects.

#### - Accumulated pending bills.

The County continued to accumulate a huge amount of pending bills over the years. This made the National Treasury to issue a Circular on the prioritization of the pending bills in 2020. The County paid off most of the existing pending bills from the FY 2020/21 and the subsequent years using the available funds thus affecting development programs and projects earmarked for implementation.

#### - Missed Revenue Targets

The adverse effects from the Covid-19 pandemic and the resultant containment measures led to shutdown of the economy. The effects impacted negatively on business environment leading to closure of numerous businesses in the county. This further led to low OSR collection thus resulting to missing Own Source Revenue (OSR) target in the County.

#### - Weak Monitoring and Evaluation Systems

The County has monitoring and evaluation unit domiciled in the department of Finance, ICT and Economic Planning. The unit however has been encountering challenges with implementation of County Integrated Monitoring and Evaluation System (CIMES) hence failure to track implementation of programmes and projects during the year under review.

#### - Shortage of critical staff

There has been a shortage of critical staff in the county resulting from natural attrition such as deaths, retirements and resignations. This has hampered service delivery leading to delay in project implementation

#### - Inadequate resources

During the plan period, the available financial resources were inadequate to fund all programmes earmarked for implementation.

#### - Low public participation in planning matters and policy development:

It is a requirement that public should participate in all planning and policy development matters. The representation of the public during public participation forums however has been low and therefore their views are not well articulated.

#### Department specific challenges

Agriculture livestock and irrigation

- Erratic weather conditions as a result of climate change which affected production
- Upsurge of fertilizer prices resulting to reduced fertilizer uptake by farmers thus affecting crop yields.
- Low value addition and inadequate organized marketing framework for local produce.
- High urbanization rates and industrialization diminishing land sizes

Water, Environment Energy and Natural Resources

- Untimely climate and environmental conditions.
- High rate of depletion of vegetation cover and ground water resources due to over abstraction, low recharge and environmental degradation.
- Non-compliance with the water resource management rules and regulation, has led to illegal abstraction of both ground and surface waters.
- Encroachment of riparian zones and wetlands. Some of the riparian lands are under farming of agricultural crops, loosening the soils and clearing the vegetation, hence soil erosion and increased levels of evapotranspiration.

#### Health Services

- Non-communicable diseases (NCDs) such as cancer, hypertension, heart diseases and diabetes are on a rising trend and exerting pressure on the health systems. This was confirmed by the STEPS survey commissioned by the Health sector to determine the levels of NCDs in the population. The survey results show a huge disease burden attributed to NCDs.

- Health Infrastructure: There is lack of adequate physical space for treatment and management of patients to fully benefit from the planned UHC rollout
- Childbirth related conditions continue to pose significant challenges, especially inadequacy of emergency services for delivery, under-utilization of existing antenatal services and inadequate skills and competences of health workers in this area
- There is low uptake of reproductive health services in the county due to; social, cultural, political influence, lack of information coupled with misinformation and inadequate supply of RH commodities in the health system.

Roads, Transport, Public Works and Utilities

- Encroachment of public land especially on road reserves by residents
- High population leading to congestion in towns and Urban centres and increased demand for sector services
- Inadequate technical capacity especially firefighters
- Diminishing gravel/quarry waste borrow pits

# 2.5 Emerging issues

- COVID 19 pandemic: The first case of Covid-19 was reported in Kenya in early 2020. The disease continued to spread at an alarming rate, and several Covid waves emerged. This emergence and spread of Covid-19 pandemic and its containment measures adversely effected economic growth and development in the country thus resulting to contraction of the economy. The pandemic further led to high unemployment level; increased rate of drug and substance use and abuse; increased crime rate and increased Gender Based Violence, suicide and homicide cases.
- Invasion of African Army worms in Tharuni-Limuru Sub County, Ndura and Kirowe-Kikuyu Sub County and Ngoliba area in Thika Sub County.
- Emergence of a new strain of Foot and Mouth disease virus that could not be controlled by the available vaccines.
- Effects of climate change contributed to prolonged drought affecting production of crops and livestock.

# 2.6 Lessons Learnt

- Timely disbursement of exchequer is key to enable the execution of development projects.
- The County should put more effort in resource mobilization e.g by strengthening Public- Private Partnership and mapping own source revenue streams to supplement available resources meant for development programmes/projects.
- Participatory planning, budgeting, monitoring and evaluation of programmes and projects leads to effective implementation and ownership.
- Monitoring and Evaluation is a key component to ensure there is value for money.
- There should be a budgetary allocation for natural calamities/ disaster preparedness and management such as floods, drought, locust invasion, and Covid-19.
- Proper project planning and management are critical for successful program/project implementation.
- Creation of close linkages among the directorates in the department will increase effectiveness in service delivery
- Seeking alternative source of financing is critical to supplement inadequate resources for the department that hinders the implementation/completion of projects.
- There is a need for strengthened tripartite working relations in the health between Government, employees, and the labour unions for harmonization of labour relations in the sector. This will ensure sustainability of the wage bill in the sector which has been rising and is contained and labour unrests are minimized.
- Innovative mechanisms are necessary for sustainable financing of health services
- To enhance collaborations, there is a need to maintain and strengthen the existing health sector

intergovernmental consultative fora/ mechanisms for effective coordination of health services in Kiambu County.

- The National Government and Counties should collaborate to develop standards, norms and guidelines for the health sector. The implementation of the policies, norms, standards and guidelines should be enhanced for quality services in the sector.
- To improve the coordination of all emergencies, stakeholder involvement and formation of disaster technical working groups that cut across departments such as fire, water, environment is critical in achieving the objectives of the department

# 2.7 Natural Resource Assessment

Table 14 presents the status, the opportunities and sustainable management strategies of the natural resources available in the County.

Table 14: Natural	<b>Resource Assessment</b>
-------------------	----------------------------

Name of Natural Resource	Dependent Sectors WEENR Finance	Status, Level of Utilization & Scenarios for future	Opportunities for optimal utilization	Constraints to optimal utilization	Sustainable Management strategies
Diatomite in Limuru (Ndeiya Ward)	WEENK Finance Physical Planning Trade	Underutilised.	Best practice in exploitation of the resource	Private ownership; and Low demand of the resource.	Legal and policy enforcement.
Quarry stones, ballast and Murram in Thika, Juja and Kikuyu Sub-Counties	WEENR Finance Physical Planning Trade	Unsustainable exploitation practices; Environmental degradation; Lack of rehabilitation of degraded environment; and Increased unproductive land.	Best practices in excavation and rehabilitation degraded environment	High demand of construction materials; Lack of County Spatial Plan; Degraded environment and Loss of biodiversity	Legal and policy enforcement. Quarry rehabilitation programme Use of appropriate technology and infrastructure
Carbon Dioxide at Kiriita forest in Lari sub-county	WEENR Finance Physical Planning Trade	Lack of local capacity to extract the gas; and High initial Capital Outlay required.	Best technology practices; and Rehabilitation of degraded environment	Capital intensive nature of the mining industry	Sustainable mineral resources management for posterity
Sixteen (16) Permanent Rivers (Ndarugu, Thiririka, Chania, Karimenu, Ruabora, Theta, Mukuyu, Ruiru, Kamiti, Bathi, Mugutha, Riara, Kiu, Gatharaini, Ndurire, Komothai and Komo)	WEENR Agriculture	Declining water quantity and quality due to siltation, agricultural and industrial activities. Aggravated soil erosion due to loss of vegetative cover along the riparian area.	Provision of safe water for domestic use; Support more agricultural production through irrigation and fish farming	Degradation of riparian land areas; Mismatch of tree species grown in river sources and riparian areas; River Siltation; and Deforestation along the river bank.	Legal and policy enforcement; and River rehabilitation programme

Name of Natural Resource	Dependent Sectors	Status, Level of Utilization & Scenarios for future	Opportunities for optimal utilization	Constraints to optimal utilization	Sustainable Management strategies
Eight (8) gazetted forests (Ragia, Kieni, Kamae, Kinale, Kiriita, Uplands, Muguga and Thogoto)	WEENR Tourism Trade	Eight gazetted forests covering an area of 476.3 Km2 with a total acreage of 40,032.81Ha. Decreased tree cover and forest cover; Increased forest land degradation; and Increased deforestation.	Support uptake of clean cooking technology and clean fuels (Green energy); Use of alternative technologies e.g. in building and construction industry; and Eco-tourism activities including; hiking, zip-lining, nature trails, camping etc.	Deforestation; Encroachment and grabbing of forests Land; Inadequate awareness of the existence of ecotourism activities e.g. zip-lining, hiking, camping etc; High dependency on wood products	Legal and policy enforcement on conservation and management of forests; Promotion of ecotourism programme; Reforestation and afforestation Programme; and Farm and agroforestry programme
Wetlands (Ondiri, Roromo, Manguo, Lari, , Bathi)	WEENR; Agriculture, Irrigation and Fisheries; and Tourism	Shrinking of wetlands due to expansion of agricultural activities and human resettlement; Water quality expected to decline due to increased farming and industrial activities	Best practices in wetland conservation and management; Eco-agricultural practices to reduce eutrophication and siltation; Regulation and management of waste water disposal from the urban areas	Polluted wetland environment; Water levels declined; Water quality deteriorated from farming activities affecting quality of water.	Monitoring of water levels and quality; Regulate waste water and effluents from farms and urban areas; Watershed conservation programme
Land/Soils	WEENR; Agriculture ; Land; Housing; Transport; Physical Planning & Urban Development	Soil erosion; Land Grabbing; Unsustainable land tenure systems incapable of supporting commercial agriculture; Environmental pollution; Rapid urbanization; Population explosion	Effective land ownership and tenure systems	Ownership conflicts; Tenure systems incapable of supporting sustainable large scale production; Political interference	Proper proactive spatial plans for both the rural and urban centers; and Settlement programs for the landless

Name of Natural Resource	Dependent Sectors	Status, Level of Utilization & Scenarios for future	Opportunities for optimal utilization	Constraints to optimal utilization	Sustainable Management strategies
Renewable Energy (Solar, wind and Hydroelectric )	All the sectors	Underutilized /not fully exploited / tapped	Reduced dependence on fossil fuels/ transition to green/ clean energy Reduced energy costs/reduced utilities bills Increases access to affordable and clean energy	lack of adequate technological infrastructure to undertake exploration and exploitation of RE and clean energy potentials such as wind and solar- adopt the statement Fluctuating water levels due to extreme weather conditions resulting to drought Lack of policy support High cost of investment Lack of technical knowhow on operation and maintenance of the technologies Inadequate budgetary allocation for their exploitation / development	More budgetary allocation and resource mobilization Partnership and collaboration More training Formulation of appropriate policies and legal framework to guide and regulate the use and exploitation of potential sources of rewable energy -for adoption

# 2.8 Development Issues

This section present key sector development issues and their causes as identified during data collection and analysis stage.

Sector	Development	Cause(s)	Constraint(s)	Opportunities
	Issue			
Finance, ICT and Economic Planning	Inadequate ICT infra- structure	<ul> <li>Poor accessibility of ICT facilities and network especially in rural areas.</li> <li>Limited ICT facilities i.e hubs and hotspots</li> <li>Cyber crimes</li> <li>System and network failures</li> </ul>	<ul> <li>Inadequate funds</li> <li>Unapproved ICT policy and roadmap</li> </ul>	<ul> <li>Availability of fibre optic internet</li> <li>Goodwill from the management</li> </ul>
	Under performance in the OSR collection	<ul> <li>Inadequate capacity of revenue and enforcement officers</li> <li>Collusion between officers and customers</li> <li>Unrealistic revenue targets</li> <li>Political interference</li> <li>Lack of robust enforcement mechanism.</li> <li>Manipulation of revenue collection system</li> </ul>	<ul> <li>Inadequate fund to facilitate training.</li> <li>Under funding of the Revenue directorate functions.</li> <li>Bureaucracy and centralization of service delivery</li> <li>Lack of synergies and poor interdepartmental coordination</li> </ul>	<ul> <li>Availability of Revenue systems</li> <li>Automation of revenue streams</li> <li>Untapped revenue sources</li> <li>Formation of the Kiambu County Revenue Board to coordinate revenue collection.</li> <li>Adequate funding of the revenue directorate.</li> </ul>
Administration and Public Service	Insecurity	- High level of youth unemployment	- High poverty level	- Creation of job opportunities
	Inadequate office space	- Lack of enough offices	- Lack of enough funds to build enough office blocks	- Building of more office blocks
	Alcohol and Substance abuse	<ul> <li>Society dysfunction</li> <li>High level of youth unemployment</li> </ul>	- Easily accessible and affordable to youths	- Creation of job opportunities Civic education
	Illegal and irresponsi- ble betting and gaming activities	<ul> <li>Society dysfunction</li> <li>High level of youth unemployment</li> </ul>	<ul> <li>High poverty level</li> <li>Easily accessible and affordable to youths</li> </ul>	<ul><li>Creation of job opportunities</li><li>Civic education</li></ul>

Table 15: Sector Development issues

Sector	Development	Cause(s)	Constraint(s)	Opportunities
	Issue			
Agriculture Live- stock and Coopera- tive Development  Low agricultural productivity		<ul> <li>High cost and poor quality agricultural inputs and breeds.</li> <li>Declining soil fertility</li> <li>Inadequate extension services due to low staffing levels and inadequate facilitation</li> <li>Effects of climate change</li> <li>Pests and diseases</li> <li>Low adoption of new technologies and ventures</li> <li>Low value addition</li> <li>High cost of crop and livestock insurance cover.</li> <li>Reducing agricultural land sizes due to land sub divisions and real estate establishments</li> <li>Inadequate water due to overreliance on rainfall</li> <li>Poor water harvesting and storage technologies</li> </ul>	<ul> <li>Competition for land among different land users</li> <li>Conversion of agricultural land into commercial use</li> <li>Inadequate funding</li> <li>Shortage of extension staff</li> <li>Poor soil management</li> <li>Rural urban migration leaving aging population in the villages</li> </ul>	<ul> <li>High demand of agricultural produce</li> <li>Proximity to major markets (Nairobi, Nakuru, Thika) and international markets.</li> <li>Collaboration with stakeholders</li> <li>Use of ICT for marketing and E extension services for ease of access to information</li> <li>Commercializing/ existence of Waruhiu ATC Ruiru ATDC/CRI for training of farmers</li> <li>Existence of learning/research institutions teaching agriculture within the County e.g. JKUAT, CRI, KARLO</li> <li>Availability of both skilled and unskilled labor for the sector</li> <li>Availability of water for irrigation</li> <li>High level of urbanization providing market for agricultural produce</li> <li>High Potential for urban and peri-urban agriculture</li> <li>Availability of stockiest/agro vets and animal feed manufacturers offering agricultural inputs</li> </ul>
	Food insecurity, safety and nutrition	<ul> <li>Low productivity</li> <li>Post-harvest losses</li> <li>Low value addition</li> <li>Climate change</li> <li>Pests and diseases</li> <li>Agrochemicals and veterinary drugs residues in food</li> <li>Low adoption of new technologies</li> <li>Poor feeding habits</li> <li>Declining farm land sizes</li> <li>Adulteration of farm inputs and products</li> <li>-</li> </ul>	<ul> <li>Inadequate funding</li> <li>Shortage of extension staff</li> <li>Poor soil management</li> <li>Misuse of agrochemicals and veterinary drugs</li> <li>High cost of food/feed stuff and inadequate knowledge on proper nutrition</li> <li>Lack of gazetted input inspectors</li> </ul>	<ul> <li>High Potential for urban and peri-urban agriculture</li> <li>Availability of water for irrigation</li> <li>Highly qualified extension officers</li> <li>High potential for growth of horticultural crops, herbs and spices</li> <li>Collaboration with stakeholders</li> <li>Existence of learning/research institutions teaching agriculture within the County e.g. JKUAT, CRI, KARLO</li> </ul>
	Inadequate market access and marketing infrastructure	<ul> <li>Inadequate market infrastructure</li> <li>Inadequate marketing systems</li> <li>Fluctuating quality of agricultural/ livestock produce</li> <li>Low value addition</li> <li>Competition from imports</li> <li>Market dynamics</li> </ul>	- Inadequate funding	<ul> <li>Proximity to major markets (Nairobi, Nakuru, Thika) and international markets.</li> <li>Collaboration with stakeholders</li> <li>Qualified extension officers</li> <li>Use of ICT for marketing and E extension services for ease of access to information.</li> <li>High demand of agricultural produce</li> <li>Good road network</li> <li>Existence of learning/research institutions teaching agriculture within the County e.g. JKUAT, CRI, KARLO</li> <li>Availability of agro-processing industries</li> </ul>

Sector	Development	Cause(s)	Constraint(s)	Opportunities
	Issue			
	Low resource base for cooperative sector	<ul> <li>Inadequate investments in the Cooperative sectors</li> <li>Low level of funding for the sector to access meaningful funds to jumpstart investments</li> <li>Lack of a cooperative development fund</li> <li>Poor saving culture</li> <li>Few cooperatives in existence to pull resources.</li> <li>Low appeal to products and services available to different market segments</li> <li>Poor governance in some co-operatives</li> <li>Low level of adoption of innovation in the sector by savers.</li> </ul>	<ul> <li>Overburdening of available securities with expensive loans that run for a long period of times.</li> <li>Inadequate human resource to undertake sensitization/training on the available investment opportunities.</li> <li>Absence of framework to establish a cooperative development fund.</li> <li>Inadequate budgetary allocation and delayed disbursement of funds to the directorate of Co- operatives to carry out its mandate fully.</li> <li>Lack of information on co- operative business model and importance of saving.</li> <li>High inflation and poverty levels leaving little to save.</li> </ul>	<ul> <li>Enhancing partnerships with other development partners to promote investments.</li> <li>Formulation of the Legal and regulatory framework in the process.</li> <li>Competent and skilled workforce in place for effective and efficient service delivery in the co-operatives sector</li> <li>Continuous registration of cooperatives to promote savings.</li> <li>Availability of competition and competitiveness in the sector</li> </ul>
Water, Environ- ment, Energy and Natural Resources	Low access to ade- quate, affordable, safe water	<ul> <li>Rapid growth in population</li> <li>Development of major national infrastructures</li> <li>Rural- urban migration</li> <li>Sustainability issues from existing systems</li> </ul>	- Inadequate funding	<ul> <li>Expand / increase water supply though construction of Dams, Treatments Plants, drilling of boreholes and Rain water harvesting</li> <li>Investing in additional water distribution infrastructures.</li> <li>Rehabilitation and augmentation of water system</li> <li>To promote investment in community water projects to reach more rural communities</li> </ul>
	Poor solid waste disposal management	<ul> <li>Closure of dumpsites</li> <li>Lack of awareness among community</li> <li>Industrial pollution</li> <li>Inadequate and inaccessible disposal sites</li> <li>Community negative attitude towards waste management</li> <li>Air and Water pollution</li> </ul>	<ul> <li>Land unavailability</li> <li>Inadequate funding</li> </ul>	<ul> <li>Establishment of material recovery facilities</li> <li>Conversion of abandoned dumpsites to be transfer stations</li> <li>Awareness creation on waste management to the community</li> <li>Partnership (international organizations and PPPs)</li> <li>Capacity building among environment officers</li> <li>Purchase of pollution gadgets</li> </ul>
	Low tree coverage	Urbanization	Inadequate funding	<ul> <li>Demarcation and enforcement of riparian areas zones.</li> <li>Gazettement of wetlands as public land to prevent encroachment</li> <li>Rehabilitation of the catchment areas</li> </ul>
	Low uptake of renew- able energy (e.g., solar, wind and hydro) and Low climate change ad- aptation practices and mitigation	<ul> <li>High investment costs</li> <li>Insufficient information on climate change/ renewable energy information</li> <li>Lack of skills /knowledge /education on climate change /RE issues</li> <li>Inadequate capacity building on climate change mainstreaming</li> <li>Policy and legal barriers</li> <li>Institutional /technical barriers</li> </ul>	<ul> <li>Lean budgetary allocation/inadequate funding</li> <li>Shortage of technical personnel/ professionals in the sector /limited technical expertise</li> <li>Shortage of renewable energy technologies experts such as wind</li> </ul>	<ul> <li>Reduced dependency on fossil fuels /reduced utilities bills</li> <li>Resource mobilization</li> <li>Lobby for more budgetary allocation</li> <li>Partnership</li> <li>-Establishment of policy and institutional framework to guide energy planning and management</li> <li>Awareness creation use and benefits of renewable energy and clean cooking technologies</li> </ul>

Sector	Development	Cause(s)	Constraint(s)	Opportunities
	Issue			
Health Services	Increased cases of Communicable Con- ditions	Public awareness low, Emerging & Re-emerging Diseases	Inadequate funds for outreaches and reducing donor support	Provide essential health services Health system strengthening
	The rising burden of non-communicable conditions	Public awareness is low, Predisposing lifestyles	Financial constraint to create awareness	Strengthen collaboration with health-re- lated sectors
	Inadequate Land for expansion	Lack of adequate land in some of health facilities	Inadequate funds for land purchase	Vertical development
	Climate change mainstreaming	<ul> <li>Inadequate capacity</li> <li>Environmental pollution</li> </ul>	Staff have not been trained on climate change mainstreaming	Training of health facility managers HCWs & communities
	Human resources for health (HRH)	Inadequate staffing	Inadequate funds to recruit staff	Utilization of the existing staff/ engagement of students and interns
	Adolescent Youth Reproductive Health issues; Sexual GBV & triple threat	poor parenting & lack of positive behaviour adoption	<ul> <li>Information gap\peer pressure</li> <li>Low economic status</li> </ul>	<ul><li>Multidisciplinary approach</li><li>Youth friendly services</li><li>School health program</li></ul>
Education, Gender, Culture & Social Services	Lack of existing legal frameworks and policies	Slow process due to bureaucracies involved.	<ul> <li>Challenges in implementing activities that require legal backing</li> </ul>	Working with existing national legal frameworks
	Inadequate adminis- trative infrastructure eg offices.	Inadequate funding	<ul> <li>Poorly maintained offices.</li> <li>Inadequate and non- equipped offices.</li> </ul>	Develop the infrastructure in phases.
	Poor infrastructure in VTCs	<ul> <li>Inadequate VTC classrooms and workshops.</li> <li>Inadequate ablution blocks in VTC centres.</li> <li>Lack of centres of excellence and production units in VTCs.</li> </ul>	- Inadequate funding	Working with development partners to fill the financial gaps.
	Low enrolment in Vocational Training Centres	<ul> <li>Inadequate modern tools and equipment</li> <li>Lack of provision of learning and teaching materials in VTC</li> <li>Inadequate VTC instructors.</li> <li>Negative attitude towards VTC (they are viewed to be for failures).</li> </ul>	<ul> <li>Low implementation of community sensitization programmes.</li> <li>Inadequate funding</li> </ul>	<ul> <li>Working with development partners to fill the financial gaps.</li> <li>Working with provincial and subcounty administrations to ensure sensitization of VTCs.</li> </ul>
	Mismatch between training and industry needs	<ul> <li>Fast changing technologies in industry.</li> <li>Inadequate modern training tools and equipment</li> </ul>	<ul> <li>Inadequate funding.</li> <li>Slow adaptation of the fast-changing technology.</li> </ul>	<ul> <li>Engage industries in the County which may offer attachment for trainers and trainees.</li> <li>Working with development partners to fill the financial gaps and in-service instructors.</li> </ul>
	Poor infrastructure in ECDEs	<ul> <li>Inadequate ECDE classrooms and infrastructure</li> <li>Inadequate ablution blocks in ECDE centres.</li> </ul>	Inadequate funding	- Working with development partners to fill the financial gaps.

Sector	Development	Cause(s)	Constraint(s)	Opportunities
	Issue			
	Low enrolment rates in ECDE centres	<ul> <li>Inconsistencies in implementation of the feeding programme.</li> <li>Inadequate play equipment for ECDE learners.</li> </ul>	Inadequate funding	<ul> <li>Working with development partners to fill the financial gaps.</li> <li>Implementation of the school feeding programme</li> </ul>
	Under developed cul- tural and heritage sites.	- Lack of Mapping and profiling of tourism products to enable better coordination when it comes to assessing the development need in the sector.	<ul> <li>Inadequate funding.</li> <li>Inadequate sensitization of the locals on the values and importance of local tourism.</li> <li>Lack of a County tourism guide to market the sites/ attractions</li> </ul>	<ul> <li>Working with development partners to fill the financial gaps.</li> <li>Sensitization of the locals on the values and importance of local tourism.</li> </ul>
	Poor Infrastructure to combat Sexual Gender Based Violence	<ul> <li>Inadequate SGBVRC centres.</li> <li>Inadequate sensitization of the public towards SGBV</li> </ul>	Inadequate funding	<ul> <li>Sensitization of the locals on SGBV issues.</li> <li>Working with development partners to fill the financial gaps.</li> </ul>
	Poor uptake of bursary programme	<ul> <li>Financial constraints.</li> <li>Loss of livelihoods especially after Covid 19</li> </ul>	Inadequate funding.	<ul> <li>Increase bursary allocation.</li> <li>Working with development partners to fill the financial gaps.</li> </ul>
Youth Affairs Sports & Commu- nication	Under development in sporting infrastruc- ture playing fields and stadiums.	Inadequate land re- source.	Low or inadequate funding.	<ul> <li>Partnership with development partners.</li> <li>Proper involvement with all key stakeholders.</li> <li>Payment of pending bills when they fall due.</li> </ul>
	Drug and substance abuse.	- Peer pressure - Unemployment.	Poor sensitization mech- anisms.	<ul> <li>Working with development partners to sensitization and fund youth programs.</li> <li>Create partnerships with local industries to offer youth with training on dangers of drug and substance abuse.</li> </ul>
	Unemployment and talent wastage.	<ul> <li>Unexploited talent among the youth.</li> <li>Mismatch between available programs and young people needs.</li> </ul>	- High number of unemployed youths making it difficult to cater for their needs.	- Offering training opportunities to equip young people with market ready skills thereby facilitating self-employment.
	Limited awareness of services offered to the public.	- High illiteracy levels in the community.	- Lack of proper channels to convey information.	<ul> <li>Partner with social institutions like churches, schools to create awareness on services available.</li> <li>Digitizing communication.</li> </ul>

Sector	Development	Cause(s)	Constraint(s)	Opportunities
	Issue			
Trade, Industriali- zation, Tourism and Investment	Inadequate market infrastructure.	- Ever changing need for a better trading environment	- Inadequate funding	- Availability of land in the major towns and trading centres
	Unfair trade practices.	<ul> <li>Use of unstructured standards of measurement in the supply chain.</li> <li>Inadequate sensitization on consumer rights and statutory obligations.</li> <li>Technological changes in trade measurements. E.g., milk Atms, cooking oil Atms, stone cutting machines.</li> <li>Inadequate testing tools and equipment and workshop.</li> </ul>	<ul> <li>Inadequate funds</li> <li>Lack of research and training in new trade measurements in the market.</li> <li>Political interference in the implementation and enforcement of measurement policies and laws.</li> <li>Lack of devolution of some of the functions of weights and measures department.</li> </ul>	<ul> <li>Existing weights and measures office with qualified and competent officers.</li> <li>Existence of a legal framework, i.e., Weights and Measures Act Cap 513 laws of Kenya and Trade Description Act Cap 505 laws of Kenya.</li> <li>Well-equipped mass and volume laboratory at the national office in Nairobi.</li> <li>Collection of Appropriation in Aid (A.I.A).</li> </ul>
	Challenges in the survival and growth of MSMEs	<ul> <li>Inadequate skills</li> <li>Inadequate capacity &amp; human resource</li> <li>Few entrepreneurial linkages.</li> <li>Inadequate economic/ industrial and MSMEs data base.</li> <li>Inadequate support for the growth and development of cottage industries.</li> <li>Inadequate legal and regulatory framework.</li> <li>Inadequate enabling environment for doing business.</li> <li>Lack of value addition and product diversification.</li> <li>Inadequate market linkages for goods and services.</li> <li>Inadequate marketing strategies &amp; innovations.</li> <li>Slow growth in the establishment of Industrial parks/EPZA Zones</li> </ul>	<ul> <li>No tailor-made financing options for the MSMEs, especially at the start-up stage</li> <li>Absence of leverage in the industries based in the county</li> <li>No established framework for gathering and sharing business information</li> <li>Inadequate policies and legal framework.</li> <li>Lack of friendly industrial funding</li> <li>Lack of knowledge in industrial processes</li> <li>Inadequate access to funds and policies that support innovation, value addition and product diversification.</li> <li>Lack of research and training in new marketing strategies and innovations.</li> </ul>	<ul> <li>Strong entrepreneurial culture among the locals.</li> <li>High population density.</li> <li>Improved infrastructure.</li> <li>Presence of many and varied industries.</li> <li>Presence of other government institutions with huge chunks of land</li> <li>Proximity to industrial research institutions.</li> <li>Legal section in the County Government</li> <li>Reference materials from other counties and the National government.</li> <li>Availability of research institutions, e.g., Higher learning institutions.</li> <li>Availability of trained personnel in the County.</li> </ul>
	High levels of unem- ployment	- Inadequate employment opportunities	<ul> <li>Insufficient resources for new investments that lead to job creation.</li> <li>Mismatch in skills and opportunities.</li> </ul>	- Availability of big population of trained but unemployed youth in the County
	Unrealized tourism potential	<ul> <li>Underdeveloped destinations &amp;tourism attraction sites</li> <li>Poor mapping and profiling of tourism products</li> <li>Poor coordination of marketing for tourism opportunities including promotion of local tourism.</li> <li>Weak institutional framework for tourism planning and promotion.</li> <li>Inadequate investment in product diversification and destination development.</li> </ul>	<ul> <li>Inadequate funding.</li> <li>Inadequate skilled manpower.</li> <li>Pollution of Nairobi River (source of 14 falls attraction site).</li> </ul>	<ul> <li>The County is endowed with a variety of tourist attractions such as forests, wildlife, landscape, waterfalls, and cultural &amp; historical sites.</li> <li>Improved transport network system,</li> <li>Proximity to Nairobi, Jomo Kenyatta international airport and Wilson airport.</li> <li>The County has sites and attractions of Kikuyu folklore and Mau mau history / heritage</li> </ul>

Sector	Development	Cause(s)	Constraint(s)	Opportunities
	Issue			
	Lack of investment promotion and facili- tation.	<ul> <li>Inadequate capacity to create wealth and employment opportunities.</li> <li>Lack of an investment promotion strategy and tools to position the county as the preferred investor's destination.</li> </ul>	<ul> <li>Lack of a legal and regulatory framework foundation for attraction and retention of domestic and Foreign Private Investment to complement County Economic Development Programmes.</li> <li>Lack of support &amp; coordination between the National Government Investment Promotional Agencies and the County Governments on, among other issues, the proposed county investment units.</li> </ul>	<ul> <li>Grant of tax and other incentives as a way of encouraging &amp; retaining investments</li> <li>Develop an investor prospectus/ guide to highlight the investment opportunities available</li> <li>Identify and qualify green projects in sectors such as housing, waste management that meet the threshold of green projects. Such projects can consequently be used to access funds from the capital markets through issuance infrastructure green bonds.</li> </ul>
Roads, Transport, Public Works and Utilities	Poor Road Network and connectivity	<ul> <li>Lack of continuous maintenance of roads</li> <li>Encroachment of road reserves</li> </ul>	- Inadequate Funding	<ul> <li>Payment of contractors in time.</li> <li>Availability of local materials for construction of roads and bridges</li> </ul>
	Congestion in town centres	<ul> <li>Inadequate busparks and slip roads</li> </ul>	- Inadequate funding	- Collaborating with Public Private Partnership
	Insecurity in towns and other urban centres	- Inadequate streetlights and flood masts	- Inadequate funding	- Collaboration with relevant stakeholders and development partners
	Weak fire response system	<ul> <li>Inadequate fire stations and fire equipment</li> <li>Inadequate technical capacity</li> </ul>	<ul> <li>Inadequate funding.</li> <li>Limited resources e.g. human capital</li> </ul>	<ul> <li>Collaborating with Public Private Partnership</li> <li>Presence of fire academy</li> <li>A well dedicated staff</li> <li>Conducting more trainings on firefighting</li> </ul>

# **3.0 Introduction**

CHAPTER

This chapter discusses the spatial development framework within which development projects and programmes will be implemented by the different sectors.

# **3.1 Spatial Development Framework**

Table 16 presents the County Spatial Development Strategies by Thematic Areas

Thematic Area	<b>Overview/</b> Current	Policy Strategy	Potential	Lead Agencies/
	Status		Geographical Areas	Departments
Industrialization	The County is home to several industries, including agro-processing, manufacturing, service, mining, trade and warehouses, which are spread across major urban areas. The manufacturing industries are mostly in Thika and Ruiru	<ul> <li>Provide an enabling environment for industrial growth.</li> <li>Promote Innovative Technologies</li> <li>Strengthen and Promote Community Based Financial Institutions</li> <li>Promote the establishment of Jua Kali and other light industries.</li> <li>Promote cottage industries</li> <li>Establish county industrial parks</li> <li>Revive Collapsed Industries.</li> <li>Establish the industrial zones with supporting infrastructures (water, electricity, road and railway network</li> <li>Promote investment through policies that promote the growth of industries</li> </ul>	<ul> <li>Thika, Ruiru, Limuru, Kikuyu &amp; Ndeiya.</li> <li>Across the County</li> <li>Curity, Juja, Limuru, Kikuyu</li> <li>Limuru, Thika, Juja</li> <li>Thika, Juja Ruiru and Limuru Sub Counties and specific existing and proposed industrial parks; Tatu City, Nachu, Muguga, JKUAT,</li> </ul>	Industrialization Directorate All departments NEMA Private sector

#### Table 16: County Spatial Development Strategies by Thematic Areas

Thematic Area	Overview/ Current	Policy Strategy	Potential	Lead Agencies/

Resource Potential Growth Areas	Enhancement of revenue collection in County Governments is key to meeting their financial responsibilities and financing budgets and budgetary priorities. Over the years, the County Government of Kiambu has failed to realize its own source revenue targets, thereby affecting budget implementation, projects and programmes. To address the gap, counties have been tasked to, amongst other things, propose ways that will increase the revenue base leading to an increment in OSR and a reduction in reliance on the exchequer releases. The County, in conformity with this directive, proposes a number of measures/ strategies aimed at positioning and branding the County as investor-ready. Ultimately, when such deals come to fruition, they will directly and indirectly result in revenue generation.	<ul> <li>Develop an investment promotion strategy that seeks to provide the right information to investors to accelerate their decision-making process.</li> <li>Development of an investment prospectus to highlight key investment opportunities available within the County.</li> <li>Identification of financeable/ bankable projects for possible Partnerships with development partners through a PPP framework.</li> </ul>	County wide	Lands, Housing, Physical Planning, and Urban Development & Municipal Administration.
	The County has automated revenue collection and Facility improvement fund accounts established.	Ensure enhancement of revenue collection	All revenue collection points	Health facilities
	County health infrastructure does not fully address the needs of the growing population and achieve universal healthcare services.	<ul> <li>Enhance on universal healthcare</li> <li>Upgrading of seven major hospitals in the County</li> </ul>	County wide	Department of Health Services
	Registration of indigents, the process of biometric registration by NHIF officers is on-going in all the Sub Counties	Train more NHIF data clerks	County wide	Department of Health Services
Infrastructure	The infrastructure in place is overstretched due to increased economic activities as well as population growth in the county contributed by residents work in Nairobi and live in Kiambu	Develop interconnected, efficient, reliable, adequate, accessible, safe, sustainable and environmentally friendly systems of infrastructure	Countywide	Roads, Transport, Public Works and Utilities
Social Infrastructure	As of FY2021/22 Kiambu County had a total of 706 licensed and operational health facilities.70% are privately owned, 20% Government owned and 10% by FBOs.	<ul> <li>Enhance accessibility to Quality and Affordable Health</li> <li>Private/ Public partnership in infrastructure construction and management</li> </ul>	County wide	Department of planning, survey, education, finance, roads, health • Local community -CBOs -NGOs -Private sectors
Physical Infrastructure	-The water infrastructures in the county are boreholes, dams, Intake weirs, storage tanks, treatment plants, distribution networks and sanitation facilities.	<ul> <li>Increase accessibility to clean, safe and affordable water</li> <li>Improve sanitation through proper solid waste disposal and management</li> </ul>	County wide	WEENR
	-There is only one existing dumpsite in the county which is Kangoki in Thika.

Enhance County Competitiveness	The County Government continues to build a strong transport system to enhance connectivity in the County through roads to ensure businesses thrive in an enabling environment and realize significant progress in manufacturing and agro-processing. This will support growth in the other sectors of the economy, such as commerce, tourism and other services. Given this, the County Government has put in place deliberate efforts to scale up a robust network of high-quality roads to enable Kiambu people to enjoy the benefits of expanded infrastructure assets, interconnectivity and competitiveness leading to improvement and better ranking in the ease of doing business in the County.	<ul> <li>Create an enabling business climate by implementing targeted business reforms to attract foreign and domestic direct investment while retaining the existing ones and increasing job creation. These reforms aim at promoting and facilitating investments and will include;</li> <li>Develop, implement and operationalize policies in collaboration with the county assembly, which creates an environment that fosters investment growth in the County.</li> <li>Simplified procedures for Business Operations by working with the relevant department to ensure a single point of access to all information and facilitation services pertaining to starting a business and obtaining relevant approvals and licenses.</li> <li>Identify ways to improve access to finance, especially for SMEs. This may include signing Memorandums of Understanding (MOUs) with banks and other financing institutions to fund businesses that meet the criteria for financing. Such criteria may include but are not limited to encouraging the formation of cooperatives.</li> <li>Tax incentives, such as; exemptions from the various fees, levies and charges imposed by the County for new businesses and/or deferrals of payment of the same.</li> <li>Ensure a secure and predictable investment environment by implementing measures geared towards combating crime and ensuring that rules are respected consistently through good governance and thorough enforcement.</li> <li>Establishment of a one-stop-shop through liaising with all relevant departments at the national level and other stakeholders such as the Kenya Investment Authority to facilitate investors starting businesses and investing in the County.</li> </ul>	County wide	Department of Trade, Industrialization, Tourism, Investment and Cooperatives Development

# DEVELOPMENT PRIORITIES, STRATEGIES AND PROGRAMMES

# 4.0 Introduction

This chapter highlights sector development priorities, strategies, programmes, flagship projects and cross-sectoral linkages.

## 4.1 Development Priorities and Strategies

This section provides the sector composition, vision, mission, goals, priorities and strategies

## 4.1.1 County Assembly

#### Vision

To be a vibrant, value oriented, quality driven and people responsive County Assembly in Kenya

#### Mission

Transformative, efficient, effective and democratic discharge of representation, legislative, and oversight mandates.

## 4.1.2 County Executive

## **Composition**

County Executive comprises

- Administration (executive) that provides leadership and coordination of departments. The executive also provides effective and efficient public service delivery for enhanced governance and accountability
- Office of the county Attorney that provides quality legal services to the county
- Directorate of Public Participation that provides civic education and enhance public participation in governance, policies formulation and implementation

## Vision

Excellence in County leadership for a competitive and prosperous County.

## Mission

To provide overall policy and leadership direction in the management of public affairs for the prosperity of the County.

#### Sector Goal

- i. To provide effective and efficient services to the public and ensure coordination of various structures within the county.
- ii. To ensure compliance with the set of laws, regulations and procedures

- iii. To provide public legal services and a just, democratic and corrupt free county
- iv. To promote civic education and enhance public participation in governance, policies formulation and implementation

## 4.1.3 County Public Service Board

#### Vision

To be a leading agency of excellence in County Public Service, Management and Development.

#### Mission

To provide policy direction in human resource management and development, to advice on appropriate organization structures, initiate and coordinate human resource reforms to improve on service delivery in the public county service for sustainable social economic development.

## Goals

- *i.* To provide the right quality and quantity of employees.
- *ii.* To ensure optimal utilization of Human resources.
- *iii.* To promote and sanction employees based on set targets.
- *iv.* To comply with the appropriate legal and corporate governance frameworks.
- v. To achieve inclusivity as stipulated in the regulatory framework.
- vi. To increase quality of service delivery to stakeholders as per the service level agreements.

vii. To increase operational efficiency in service delivery.

viii. To establish necessary offices and to abolish unnecessary offices.

## 4.1.4 Finance, ICT and Economic Planning

#### Sector composition

The sector comprises of eight subsectors namely

- Revenue
- Finance
- Budget
- Accounting Services,
- Supply Chain Management
- ICT
- Internal Audit,
- Economic Planning

## Vision

A strategic leader in resource mobilization, economic planning and prudent public financial management

## Mission

To offer effective and efficient services in resource mobilization, public finance management, coordination, economic planning and development for a safe and harmonious county.

#### Sector goal

The sector goal is to mobilize public resources and ensure efficient allocation of the resources to the county expenditure priorities for enhanced accountability and service delivery.

# 4.1.5 Administration and Public Service

## Sector Composition

The sector comprises of the six subsectors.

- Administration
- Alcoholic Drinks Control
- Enforcement, Monitoring & Compliance
- Betting and Gaming Control
- Human Resource Management
- Human Resource Development

## Vision

A people-centred, transformative and accountable administration and public service.

## Mission

To provide effective and efficient services through guided formulation and implementation of regulatory framework to the public.

## Sector Goals

- i. To provide quality administrative services for effective and efficient service delivery
- ii. To develop and maintain an effective and efficient county workforce
- iii. To reduce and create awareness on Alcohol and Substance Abuse
- iv. To enforce various county laws and ensure compliance through well-coordinated enforcement and inspectorate services
- v. To enhance responsible betting and curb illegal gaming

# 4.1.6 Agriculture, Livestock and Cooperative Development

## Sector composition

The sector comprises of five directorates namely

- Crops and Irrigation,
- Livestock & Veterinary,
- Fisheries development
- Agribusiness & Marketing.
- Cooperative Development

## Vision

A Healthy, Food secure and Prosperous County

## Mission

To promote sustainable agriculture through capacity building on agricultural productivity, food and nutrition security, value addition, marketing, extension and infrastructural and cooperative development.

## Sector goal

- i. To create a favourable framework for sustainable development of the Agriculture livestock and irrigation sector and provide support services that increase productivity, value addition and market access for the sector products
- ii. To provide sustainable livelihoods, household food and nutritional security to families while contributing to socio economic development of Kiambu County.
- iii. To promote vibrant and sustainable cooperative movement.

#### iv. To have adequate policies and regulatory framework

# 4.1.7 Water, Environment, Energy and Natural Resources

## Sector composition:

The sector has four subsectors namely; Water & Sanitation, Environment & Waste Management, Renewable Energy & Climate Change and Natural Resources & Forestry whose mandates are as outlined below.

## Water & Sanitation;

The subsector is mandated to;

- Formulate and implement policies, legislations, and guidelines relating to water and sewerage services including waste water treatment and disposal;
- Plan, construct and manage public water supply schemes, community water projects, water treatment works, storage infrastructure;
- Maintain a reliable and updated database capturing water resources and service provision data including data for community water projects;
- Strengthen the Water Service Providers(WSPs) to improve efficiency and sustainability of service delivery;

## Environment & Waste Management

This subsector is mandated to;

- Formulate and implement policies, legislations and regulations relating to Environment, Solid Waste Management and pollution;
- Issuance of Noise and Demolition permits, Licenses to transport waste;
- Environmental protection, environmental education and public awareness campaigns;

## Natural Resources and Forestry

The subsector is mandated to;

- Formulate and implement policies, legislations and regulations relating to county forestry and natural resources;
- Undertake forest extension services, increase forest cover by raising and planting trees;
- Protect and conserve wetlands, riparian and water catchment areas;
- Establish and maintain an arboreta and recreational parks, as well as Natural resources management;

## Renewable Energy and Climate Change

The subsector is mandated to;

- Formulate and implement policies, legislations, regulations and plans related to renewable energy and climate change;
- Establish and maintain an effective and efficient institutional framework to mainstream climate change responses and renewable energy across relevant sectors;
- Coordinate implementation of climate change responses and renewable energy initiatives in the County;
- Undertake research work on climate change and renewable energy;
- Promote and create awareness on the use of green energy on renewable and climate change issues;
- Create linkages and partnerships with various stakeholders and key players in the sector;
- promote energy efficiency and conservation
- Promote use of clean cooking technologies and efficient fuels

## Vision

The department envisions a clean, water-secure and low-carbon County whose residents are empowered to conserve and safeguard the natural resources.

## Mission

The department is committed to promoting environmental sustainability in terms of water and waste management, efficient use and conservation of natural resources in order to minimize the County's carbon footprint.

## Strategic Goals/Objectives

- i. To contribute towards realization of universal access to adequate, affordable and safe drinking water supply and improved sanitation services in the County.
- ii. To advocate for adoption of sound environmental management practices as regards to water use, solid and liquid waste management, pollution control, exploitation of natural resources, energy use and conservation in order to minimize carbon footprint.
- iii. To restore, protect and conserve water catchment areas and water sources through Integrated Water Resource Management.
- iv. Promotion of forest nature based enterprises.
- v. Staffing, equipment, and infrastructure
- vi. Community awareness creation, public-private partnership, intra-county conflict management as well as maintaining database records and information for farm forestry
- vii. To facilitate the formulation and implementation of legal, regulatory and institutional framework that will inform and guide the decisions and execution of departmental activities.
- viii. Coordinate the establishment and implementation of regulatory and institutional framework for mainstreaming of climate actions into county's planning, decision and budgetary process.
  - ix. To improve the aesthetic value for county arboreta and recreational parks.
  - x. To encourage and promote public private partnership and stakeholders' engagement in the execution of the department mandate.
  - xi. Promote uptake of technologies that support low carbon and climate resilient development in the county.

## 4.1.8 Health Services

## Sector composition

The sector comprises four directorates i.e

- Curative and Rehabilitative services,
- Preventive and Promotive services
- Planning and Administration services
- Nursing

## Vision

An efficient, effective and high quality health care system that is accessible, equitable and affordable for every person in the County.

## Mission

To provide health services that is equitable, accessible and accountable to the people of Kiambu County through participatory leadership

## Sector Goal

Attaining the highest possible health standards in a manner responsive to the people's needs. The main goal of the department is to provide curative and preventive health services by strengthening the available health services to all. The focus is on improving access to quality health care to all the residents of Kiambu by funding basic health care, promotion of healthy behaviors and healthy lifestyles in order to reduce disease burden and premature death; prevention of illness and disability, enhancement of quality life.

# 4.1.9 Education Gender Culture and Social Services

## Sector composition

The department comprises of comprises of three Directorates namely;

- Early Childhood Development Education (ECDE)
- Vocational Education and Training. (VET)
- Gender, Culture and social services

## Vision

A dynamic and multi-skilled society with a healthy childhood base, institutionalized gender and disability programs, developed culture and creative industry and functional social welfare systems actively participating in sustainable development.

## Mission

To provide quality education, empower vulnerable groups, mainstream gender and disability development and promote culture and creative arts development.

## Sector/ subsector Goal

The sector goal is to;

- i. To enhance access, equitable, relevant and quality ECDE services.
- ii. Enhance nutritional wellbeing and holistic development of ECDE learners to lay a firm foundation for further learning.
- iii. To promote access, equity, quality and relevant vocational education and training for absorption of trainees into the Labour market.
- iv. To empower the youth with skills in self-employment for improved standards of life thereby contributing to reduction of high unemployment in Kiambu County.
- v. To integrate Information, Communication Technology into vocational training for adoption of learners into the global market.

- vi. To empower vulnerable and special interest groups to fully participate in socio economic activities for self-reliance.
- vii. To harness and revamp the cultural resources and the creative industry for preservation and marketing of Kiambu as a tourist destination.
- viii. To establish flagship programmes addressing gender parity and PWD issues to enable them to contribute to County development.
- ix. To draw policies and legislative frameworks that will guide implementation of the development mandates and inculcate relevant systems for effectiveness and efficiency in service delivery.

## 4.1.10 Youth Affairs Sports and Communication

## **Sector Composition**

The sector comprises of the three directorates namely; -Youth Affairs.

-Sports.

- Communication.

#### Vision.

To be a model department in youth empowerment, sporting excellence with effective and efficient communication.

## Mission

To transform and inspire the community using platforms that empower youth, enhance sporting excellence; promote use of ICT and provision of relevant information.

## **Sector Goal**

To empower the county youth through capacity building, talent development and marketing, social economic empowerment, sports development, communication and entrepreneurship funding through the county youth, women and PWDs enterprise fund.

## 4.1.11 Lands, Housing, Physical Planning, Urban Development and Administration

## **Sector composition**

The sector/department comprises of five directorates

- Land Survey and Geo Informatics focuses in development of a GIS/LIS database for spatial data management and determination of property boundaries
- Housing and Community Development facilitates promotion and facilitation of development of decent housing in sustainable environments
- Physical Planning ensures formulation, implementation and review of various policies in the Department
- Land Valuation and Rating focuses on provision of efficient land, property valuation and management for effective county asset documentation and rating
- Urban Development and Administration ensures Administration and management of urban cities and municipalities within the county

## Vision

Planned & Managed Land Resource for Sustainable Development

## Mission

To promote an integrated framework of spatial planning and development for the social, Economic well-being and environmental sustainability of the County

# Sector goal

Make Kiambu county and its human settlements safe, resilient and sustainable for development through provision of decent, adequate and housing, affordable transportation, sustainable urban areas and basic infrastructure services and facilities.

# 4.1.12 Trade, Industrialization, Tourism and Investment

# Sector Composition

The sector has 4 sub-sectors namely

- Trade and Markets
- Industrialization
- Tourism and Marketing
- Investment

## Sector vision:

Strategic leader in transforming Kiambu County as the preferred choice of Investment in Trade, Tourism and Industrialization.

## Sector Mission:

To promote Investments in Trade, Tourism and Industrialization by providing an enabling environment for sustainable socio-economic development.

## Sub-sector goals

The sector works towards the achievement of goals that are geared toward the promotion and facilitation of investments in Trade, Tourism, Cooperatives and Industrialization in Kiambu County. The strategic goals for the subsectors are:

- i. Build capacity for the development of the Sector.
- ii. Have sustainable growth and development of trade.
- iii. To promote fair trade practices and consumer protection.
- iv. Have sustainable industrial and entrepreneurial development.
- v. Promote innovation, value addition and product diversification.
- vi. Create wealth and employment.
- vii. Have a vibrant and sustainable tourism industry.
- viii. Create a conducive environment for investment and ease of doing business.
- ix. Have adequate policies and legal framework.

# 4.1.13 Roads, Transport, Public Works and Utilities

## Sector Composition:

The department comprises of four directorates Roads, Transport, Public Works, and Utilities.

- Roads directorate focuses on improvement, construction and maintenance of roads and bridges to increase county and inter county connectivity.
- Transport directorate to construct and maintain bus parks to ease congestion in our towns.
- The public works oversees planning, development and maintenance of public buildings, maintenance of inventory of government property, provision of electrical and mechanical services, consultants for buildings and civil works and material supplied and other public works including foot bridges. In addition, the directorate offered quality assurance and technical support services to other departments within the county as far as works is concerned during the period under review.
- Utilities directorate ensures economic stability by providing quality, affordable and sustainable energy to all households, trading centers and public institutions

## Vision

A regional leader in quality, sustainable and environmental friendly infrastructural development

## Mission

To provide and regulate quality technical service in Roads, Transport Public Works, Fire & Rescue and Energy

#### **Sector Goals**

- i. To ensure the county is well connected with an efficient, safe and reliable all weather road network and busparks.
- ii. To provide safe, clean energy lighting and fire, disaster and emergency response in the county
- iii. To provide and maintain safe, healthy and efficient green buildings, civil works and rural footbridges

#### Sectors' priorities and strategies

#### **Table 17: Sector Priorities and Strategies**

Priorities	Strategies
County Assembly	
Quality and enforceable legislation and improved oversight	<ul> <li>Capacity building for members of the County Assembly and staff</li> <li>Improve public engagement through public participation</li> <li>Enhanced research</li> </ul>
Improve infrastructure for purposes of better representation	<ul> <li>Construction of ward offices</li> <li>Construction of a modern chamber</li> <li>Construction of the Speaker's residence</li> <li>Multipurpose office complex</li> </ul>
Quality County Assembly service	<ul><li>Continuous training</li><li>Relevant policies</li></ul>
County Executive	
Enhance Coordination of departments/sectors during formulate and implementation of sector plans and policies	<ul> <li>Facilitate development of sector plans and policies</li> <li>Coordinate implementation of sector plans and policies.</li> </ul>
Promote good governance, ethics and integrity	<ul> <li>Undertake civic education</li> <li>Enhance public participation in governance matters</li> <li>Establish complaint handling and feedback mechanism</li> </ul>

Priorities	Strategies
Formulate Service charter to improved service deliver	<ul> <li>Coordinate formulation and development of a County Service Charter</li> <li>Coordinate implementation of sector service charter</li> <li>Increase employee efficiency through Performance Contracting</li> </ul>
Strengthen Inter-county relations	<ul> <li>Promote harmonized working relationship between counties</li> <li>Develop inter-County dispute resolution mechanisms</li> </ul>
Strengthen linkages between County and National Government	<ul> <li>Promote collaborations between counties and national government.</li> <li>Promote public private partnership</li> </ul>
Enhance legal representation and services	<ul> <li>Facilitate implementation of county acts and other existing laws</li> <li>Promote good governance</li> <li>Enhance support of implantation of county development agenda</li> </ul>
County Public Service Board	
Provision of the right quality and quantity of employees.	<ul> <li>Facilitate recruitment and selection systems.</li> <li>Provide adequate HR development.</li> </ul>
	- Skills enhancement and talent diversification.
	- Facilitate periodic skills and competencies audit.
Depending and consting of surplasses have been t	- Enhance HR analytics.
Promotion and sanction of employees based on set targets.	<ul><li>Facilitate periodic performance appraisal systems.</li><li>Facilitate right placement of staff.</li></ul>
Optimal utilization of human resources.	- Providing adequate human capital resources.
Ensure fair administration of disciplinary process.	- Expeditious determination of disciplinary cases.
Compliance with the appropriate legal and corporate	- Compliance with good corporate governance.
governance frameworks.	- Creating legal awareness for compliance.
	- Providing guiding policies and procedures.
	- Implementing the inclusivity requirements as per regulatory framework.
	- Promote values and principles.
	- Develop a reporting framework.
	- Operationalize code of conduct and ethics.
Increase quality of service delivery to stakeholders	- Enhancing communication and cooperation with stakeholders.
as per the service level agreements.	- Facilitate employee motivation.
	- Enhancing transformative organizational culture and attitudinal change.
Increase operational efficiency in service delivery.	- Facilitate automation of processes.
Staff capacity building.	- Conducting HR audit and capacity assessment.
	- Staff establishment / staff optimization.
	- Talent re-organization.
Finance, ICT and Economic Planning	
Enhance own source revenue mobilization	<ul> <li>Establish Kiambu County Revenue Board</li> <li>Broaden the revenue base</li> <li>Adopt appropriate technology in revenue collection and regularly audit and maintain revenue management system</li> <li>Enhance capacity of the revenue collectors</li> <li>Sensitization of the revenue compliance</li> </ul>
Strengthen planning and policy formulation	<ul> <li>Spearhead County planning</li> <li>Prepare and review County plans, budget and guidelines</li> <li>Enhance sectoral information generation and sharing to inform policies and plans</li> </ul>
Strengthen linkages between policy, planning and budgeting	- Ensure alignment of budget to the CIDP programmes
Strengthen tracking of implementation of policies, plans and budget	<ul> <li>Improving monitoring evaluation and reporting systems on projects, programmes ,strategies and policies</li> <li>Provide timely, quality and reliable information to support enhanced evidence based decision making process</li> <li>Strengthening M&amp;E capacity in the County</li> <li>Fastrack implementation of CIDP</li> <li>Enhance tracking and reporting on the SDGs</li> </ul>

Priorities	Strategies
Improve the Departments' leverage of ICT in its operations for quality service delivery.	<ul> <li>Enhance institutional ICT capacity</li> <li>Develop ICT Strategy in line with the E-Government Strategy</li> <li>Automate service delivery</li> <li>Enhance information management systems</li> <li>Increase CCTV coverage</li> </ul>
Build adequate human resource capacity	<ul> <li>Streamline human resource planning and management</li> <li>Enhance staff capacity through human resource training and development</li> </ul>
Enhance and sustain delivery of quality service	<ul><li>Enhance service delivery</li><li>Enhance and maintain a conducive work environment</li></ul>
Strengthen public financial management	<ul> <li>Strengthen the financial management system</li> <li>Ensure effective treasury management</li> <li>Ensure compliance with the provision of PFMA, PPADA and other legislations on public finance</li> <li>Ensure timely and accurate financial reporting</li> <li>Institutionalize asset and liabilities management system</li> <li>Create awareness on on International Professional Practices Framework (IPPF)</li> <li>Develop a risk management system</li> <li>Providing value-added services and proactive strategic advice to the organization well beyond the effective and efficient execution of the audit plan</li> <li>Assess the effectiveness and efficiency of public funds utilization</li> </ul>
Strengthen Supply Chain Management	<ul> <li>Facilitate efficient Procurement and asset disposal activities</li> <li>Implement e-Procurement</li> <li>Enhance compliance with Public Procurement and Asset Disposal Act and regulations</li> </ul>
Administration and Public Service	
Improved service delivery	<ul> <li>Provide conducive working environment</li> <li>Capacity building and staff development</li> <li>Increase office space for staff</li> <li>Performance management</li> </ul>
Reduced incidences of alcohol and substance abuse	<ul> <li>Rehabilitation and treatment of persons dependent on alcohol</li> <li>Sensitize the public against alcohol and substance abuse</li> </ul>
Promote good governance, ethics and integrity	- Enhance enforcement & compliance of County laws
Reduced cases of illegal and irresponsible betting and gambling	<ul> <li>Licencing of betting and gaming premises</li> <li>Enforcement and crack down on irresponsible and illegal betting and gaming activities</li> <li>Sensitize the public against illegal betting and gaming</li> </ul>
Agriculture, Livestock and Cooperative Developm	nent
Increase agricultural productivity	<ul> <li>Expand the area under irrigation</li> <li>Provide quality and efficient extension services to farmers across the County</li> <li>Ensure accessible, quality and affordable agricultural inputs</li> <li>Surveillance, pest and disease control</li> <li>Linkage with research institutions</li> <li>Promote conservation agriculture</li> <li>Promote sustainable land management</li> <li>Surveillance, pest and disease control</li> </ul>
Enhance food security, safety and nutrition Reduce prevalence of livestock diseases and vectors	<ul> <li>Expand the area under irrigation</li> <li>Promote Value addition</li> <li>Provide quality and efficient extension services to farmers across the County</li> <li>Ensure accessible, quality and affordable agricultural inputs</li> <li>Cold storage chains</li> <li>Post-harvest storage facilities</li> <li>Post-harvest training programmes</li> <li>Sensitize town dwellers on urban and peri urban farming</li> <li>Promote and train on safe use of agrochemicals</li> <li>Promote sustainable land management</li> <li>Enhance animal disease surveillance</li> </ul>
	<ul> <li>Vaccinate livestock against notifiable diseases</li> <li>Implement livestock movement control</li> <li>Procure and distribute Acaricide</li> <li>Control dogs and cats</li> <li>License inseminators</li> <li>Train staff, farmers and animal health providers</li> </ul>

Priorities	Strategies
Adequate market access and marketing infrastructure	<ul> <li>Provide appropriate marketing infrastructure e.g. collection centres</li> <li>Develop crops and livestock value chains</li> <li>Promote value addition and agro processing</li> <li>Collaboration with stakeholders</li> <li>Creation of market linkages</li> </ul>
Increase resource base in cooperative sector	<ul> <li>Sensitize the community on the importance of saving and investments in Enterprise and Cooperatives sectors.</li> <li>Capacity building and training cooperatives.</li> <li>Promotion of good governance in cooperatives.</li> <li>Enhancing partnerships with other development partners to promote investments.</li> <li>Formulation of the Legal and regulatory framework in the process.</li> <li>Continuous registration of cooperatives among all traders</li> <li>Revive dormant cooperative societies.</li> </ul>
Water Energy Environment, and Natural Resource	
To improve service delivery	- Develop and review Water,Environment,Energy and Natural Resources policies to conform with the relevant Acts
To increase water supply and sanitation services	<ul> <li>Expand / increase water supply though construction of Dams, Treatments Plants, drilling of boreholes and Rain water harvesting</li> <li>Investing in additional water distribution infrastructures.</li> <li>Rehabilitation and augmentation of water system</li> <li>To promote investment in community water projects to reach more rural communities</li> <li>Promote partnership with Private Sector and Non State Actors</li> <li>Rehabilitation of stalled water project and improving on governance</li> <li>Increase investment in development and maintenance of water harvesting structures</li> <li>Provision of water tanks especially to special groups and institutions</li> <li>Develop effective human resources for the water sector conducting random checks on water vendors to ensure safety</li> <li>Work with various agencies and local communities to undertake regular surveillance of county's water utilities</li> <li>To develop a robust monitoring and evaluation mechanism of non-revenue water</li> <li>Zonal metering</li> <li>Increase/ expand sewerage system</li> <li>Promote appropriate onsite community sanitation system</li> <li>Enforce the WASH regulation of having toilets in all public facilities such as super markets. Banks etc.</li> <li>Scaling up of latrine coverage and extension of sewer line</li> <li>Intensify public health inspections for toilets coverage and hygiene facilities</li> </ul>
To increase the current forest cover from19.74% to the targeted 22%	<ul> <li>Promote agroforestry</li> <li>Afforestation</li> <li>Creation and adherence of Forest Management plans</li> <li>Creating awareness and Encourage development of community owned tree nurseries;</li> <li>Re-location of humans on forest and water tower lands</li> <li>Rehabilitation of quarries</li> <li>Introduce social cost to quarry owners;</li> <li>Construction of gabions;</li> <li>Demarcation and enforcement of riparian areas zones. According to water law, the riparian zone extends 30 metres from the highest water mark of the river flow.</li> <li>Gazettement of wetlands as public land to prevent encroachment</li> <li>Rehabilitation of the catchment areas</li> <li>Work with various agencies and local communities to undertake regular surveillance of county's water resource</li> <li>Promote adoption of appropriate technologies in protection and conservation of catchment areas</li> <li>Work with other stakeholders to undertake water resources management</li> <li>Strengthen and support community institutions including Water Users Associations (WRUAs), Community forest Associations, famers groups among others, in catchment conservation and protection</li> <li>Enhance and promote private sector participation in protection, conservation and utilization of water resources</li> </ul>

Priorities	Strategies
To increase garbage collection and disposal	<ul> <li>Improve garbage collection system.</li> <li>Establish material recovery facilities</li> <li>Establish one composting facility at the dumpsite and rehabilitate the pilot semi aerobic sanitary landfill and office blocks.</li> <li>Introduce waste segregation in our markets for two fractions(organic/inorganic)</li> <li>Implement solid waste management plan</li> <li>Develop and enforce environmental standards</li> <li>Integrate environmental issues in county development planning</li> <li>Reduce Air pollution</li> <li>Reduce noise and excessive vibration</li> <li>Creating awareness among schools and community</li> </ul>
To increase uptake of renewable energy and mitigate adverse effects of climate change	<ul> <li>Have regulatory and institutional framework for mainstreaming climate change in county operations in place</li> <li>Formulation and implementation of County Energy Plan (CEP)</li> <li>Formulation of County Climate Change Action Plans (CCCAP)</li> <li>Allocation of adequate resources for climate action</li> <li>Reduce carbon emissions</li> <li>Reduce vulnerability and increase resilience to impacts of climate change</li> <li>Promote partnership with Private Sector and Non State Actors</li> <li>Integration of renewable energy in development process and county operations</li> <li>Reduce utility bills</li> <li>Promote energy efficiency and conservation</li> <li>Conversion of waste to energy aimed at reducing emissions emanating from waste</li> <li>To transition to circular economy</li> <li>Create awareness on climate change and renewable energy in the county</li> <li>Improve access to climate change Resource Centre and County Energy Centers</li> </ul>
Health Services	- Establishment of enhance enange resource centre and county Energy centers
Eliminate Communicable Conditions Halt, and reverse the rising burden of non- communicable conditions	<ul> <li>Implementation of Community health services and outreach services</li> <li>Strengthen environmental health services and community led total sanitation</li> <li>Improve Data collection, analysis and information dissemination</li> <li>Enhance Health education</li> <li>Strengthen management Support to lower tiers of care</li> <li>Enhance implementation of integrated disease surveillance and response</li> <li>Promote data demand and use</li> <li>Promote Community and outreach services</li> <li>Strengthen Human resource for Health through recruitment and retention</li> <li>Promote data demand and use</li> <li>Quarterly coordination meetings</li> <li>Improve nutritional services and enhance breastfeeding practices</li> <li>Promote access to specialized services</li> <li>Strengthen coordination of stakeholders and partnership</li> <li>Lobby for Resource to improve service delivery</li> </ul>
Reduced the burden of violence and injuries	<ul> <li>Enhance capacity among staff to improve service delivery</li> <li>Improvement of health infrastructure</li> <li>Strengthen Human resource for Health through recruitment and retention</li> <li>Strengthen both community and facility Referral health services</li> <li>Improve Data collection, analysis and information dissemination</li> <li>Enhance implementation of integrated disease surveillance and response</li> <li>Improved operations and referral system</li> </ul>
Provide essential health services	<ul> <li>Strengthen Human resource for Health through recruitment, motivation and retention</li> <li>Improvement of health infrastructure</li> <li>Implementation of Community health services and outreach services</li> <li>Improved operations and referral system</li> <li>Promote access to specialized services</li> <li>Strengthen management Support to lower tiers of care</li> <li>Enhance availability and access to Health products (HPTs)</li> <li>Improve Data collection, analysis and information dissemination</li> <li>Enhance implementation of integrated disease surveillance and response</li> <li>Lobby for resource to improve service delivery</li> </ul>

Priorities	Strategies
Minimize exposure to health risk factors	<ul> <li>Streamline the streams of revenue collection to strengthen health care financing</li> <li>Lobby for Resource to improve service delivery</li> <li>Implementation of Community health services and outreach services</li> <li>Strengthen coordination of stakeholders and partnership</li> <li>Facilitate health promotion and education in schools</li> <li>Improve Data collection, analysis and information dissemination</li> <li>Enhance availability and access to Health products (HPTs)</li> <li>Strengthen Human resource for Health through recruitment, motivation and retention</li> <li>Enhance implementation of integrated disease surveillance and response</li> <li>Improvement of health infrastructure</li> </ul>
Strengthen collaboration with health related sectors	<ul> <li>Enhance availability and access to Health products (HPTs)</li> <li>Strengthen Human resource for Health through recruitment, motivation and retention</li> <li>Implementation of Community health services and outreach services</li> <li>Improve Data collection, analysis and information dissemination</li> <li>Lobby for resource to improve service delivery</li> <li>Improvement of health infrastructure</li> <li>Enhance implementation of integrated disease surveillance and response</li> <li>Strengthen coordination of stakeholders and partnership</li> <li>Streamline the streams of revenue collection to strengthen health care financing</li> <li>Facilitate health promotion and education in schools</li> </ul>
Education Gender Culture and Social Services	
Improve Departmental performance and enhance service delivery to the public.	<ul> <li>Develop necessary legal frameworks</li> <li>Develop a conducive working environment and necessary infrastructure for staff.</li> </ul>
Increase access, equity, relevance and quality to vocational training.	<ul> <li>Establish new vocational centers.</li> <li>Expand physical infrastructure in existing VTCs.</li> <li>Renovation and refurbishment of existing physical infrastructure in VTCs</li> <li>Provide adequate human resource to VTCdirectorate.</li> <li>Provide modern training tools, equipment and training materials to VTCs.</li> <li>Subsidize VTC training fee through capitation and bursary.</li> <li>Mobilize Jua kali artisans for short courses that lead to certification.</li> <li>Establish production units/ Income Generating Activities in VTCs.</li> <li>Involve industry partners and other stakeholders</li> <li>Conduct baseline survey and tracer studies to inform training.</li> </ul>
Increase access, equity, quality and relevance of ECDE services	<ul> <li>Enhance ECDE feeding programme</li> <li>Integrate ICT in ECDE learning</li> <li>Construct new ECDEs centres</li> <li>Expand, refurbish and renovate existing ECDE Centres</li> <li>Provide adequate human resource to ECDE directorate</li> <li>Constantly in-service ECDEs on new curriculum</li> <li>Provide teaching/learning materials and play equipment to ECDE students</li> <li>Collaborate with development partners.</li> <li>Provide play equipment to ECDE Centres</li> <li>Provide childcare services.</li> </ul>
Develop safety net programmes to cushion needy and vulnerable members of the community.	<ul> <li>Construct modern rehabilitation centres and conduct sensitization on workshops on drug and substance abuse.</li> <li>Network with development partners to provide rescue services to vulnerable children.</li> <li>Enhance safety net programmes like bursary, benevolent donations provision of basic needs and requirements to the vulnerable and response to people in distress</li> <li>Construct community social halls.</li> <li>Conduct sensitization programmes on drug and substance abuse</li> <li>Provide adequate human resource to social services directorate</li> <li>Conduct baseline survey to inform on existing social groups and organize capacity building sessions.</li> </ul>
Promote culture and creative arts as resources for socio economic development.	<ul> <li>To establish culture and creative arts infrastructure</li> <li>map, rehabilitate, protect, conserve, manage and gazette cultural &amp; heritage sites.</li> <li>conduct capacity building sessions on heritage conservation and mentorship programs for upcoming artists-enact Culture and Mark UN Days.</li> <li>hold cultural exhibitions/markets/festivals.</li> <li>support progressive cultural practices and programmes</li> <li>promote handicrafts and homecrafts.</li> <li>Construction of libraries and reading hubs.</li> </ul>

Priorities	Strategies
Gender and Disability development	<ul> <li>conduct capacity needs assessment for women, PWDs &amp; other SIGs to guide the roll out of capacity building programs.</li> <li>map needy &amp; vulnerable PWDs House Holds for socioeconomic support.</li> <li>establish Safe Shelter &amp; support SGBV survivors</li> <li>build the capacity of SGBV-TWGs &amp; support their activities</li> <li>mark UN Days.</li> </ul>
Promote the welfare of vulnerable children-in need of care & protection	<ul> <li>strengthen existing child protection structures.</li> <li>support mentorship programs for vulnerable boys and girls and provide them with sanitary wear</li> <li>support empowerment programs for AGYW and teenage mothers.</li> <li>Support establishment of lactation and childcare centers.</li> </ul>
Youth Affairs Sports and Communication	
Improving sporting infrastructure	<ul> <li>Construction and rehabilitation of sporting facilities.</li> <li>Training and funding of county teams.</li> <li>Establishment of county sports academy.</li> <li>Establishment of sports trust fund.</li> <li>Formulation of a sports management legislative policy to govern sporting activities in the county.</li> <li>Identification and nurturing of sporting</li> <li>talent in the county.</li> </ul>
Increased employment opportunities for the youth	<ul> <li>Create jobs through direct investment in agriculture &amp; agro-processing.</li> <li>Create a conducive environment for growth and development of small and medium enterprise sector such as key artisans in mechanics and other Jua Kali operatives in catering and food industries among others.</li> <li>Create a new brand of entrepreneurs to undertake activities such as road construction, repair and maintenance, water drilling and distribution systems.</li> <li>Involvement of youths in cleaning and providing sanitary services in key towns, markets and other private and county owned facilities.</li> <li>Financially empowering youth, women and people living with disabilities through sustainable and accessible revolving funds.</li> </ul>
Increased awareness of county services to the members of the public	<ul> <li>Producing departmental documentaries on key milestones.</li> <li>Printing of newspaper supplements and documentaries.</li> <li>Producing county magazines and handbook</li> <li>Weekly updating of county website to inform the stakeholders on county services and ongoing projects.</li> <li>Increasing brand visibility by printing media relations banners and branding.</li> </ul>
Lands Housing Physical Planning Urban Develop	A
Improved land administration and management of land resources	<ul> <li>Digitize county land parcels information</li> <li>Formulate and implement county spatial structure plan</li> <li>Land surveying and titling</li> <li>Formulate,harmonize and implement valuation roll</li> <li>Coordinate and control infrastructure development in the county</li> <li>Create public awareness on land rates and building approvals</li> </ul>
Improved service delivery	<ul> <li>Capacity building staff</li> <li>Implement performance contracting</li> <li>Provision of conducive working environment through staff motivation, rehabilitation and equipping of offices</li> </ul>
Enhanced infrastructure development	<ul> <li>Provide adequate,safe,decent and affordable housing</li> <li>Regularize land tenure in information settlement</li> <li>Improve infrastructure development in municipalities and urban areas</li> </ul>
Trade, Industrialization, Tourism and Investment	
Development of a vibrant micro and small enterprise sector	<ul> <li>Provision of the right infrastructure.</li> <li>Development of smart business centres and industrial parks</li> <li>Research on existing and new business opportunities</li> <li>Capacity building and training in entrepreneurship</li> <li>Establish technology and business incubators and start-up centres</li> <li>Establish and strengthen Micro and Small Enterprise Fund.</li> <li>Construction of Juakali sheds, shoe shine shed, car wash stations and prototype modern kiosks in major towns of the County.</li> <li>Promotion of cottage industries.</li> </ul>
Industrial development, promotion of value addition and product diversification in the County	<ul> <li>Embrace OVOP initiative in the County.</li> <li>Capacity building and training on value addition and entrepreneurship</li> <li>Creation of Small Processing Units through formation of Cooperatives</li> <li>Development of niche products.</li> </ul>

Priorities	Strategies
Improved service delivery	<ul> <li>Develop and review various policies and relevant Acts</li> <li>Realign the existing policies and laws with the constitution and harmonize them.</li> <li>Create a conducive working environment, staff motivation and development.</li> <li>Development of service charter and tools of work.</li> <li>Continuous capacity building the sector.</li> </ul>
Promotion of research and development	<ul> <li>Create strong partnerships with research institutions</li> <li>Offer incentives for research and development</li> <li>Reward creativity and innovation</li> <li>Create innovation centres</li> <li>Documentation of innovations and research findings</li> <li>Link industries with research institutions</li> </ul>
Increased employment opportunities.	<ul> <li>Give incentives to spur investments</li> <li>Expansion of markets for local produce e.g. linking traders to export markets.</li> <li>Develop and encourage tourism activities</li> <li>Promote dispersal of cottage industries in rural areas</li> </ul>
Establishment and development of markets	<ul> <li>Refurbishment of existing markets</li> <li>Establishment of social amenities within the markets</li> <li>Construction of new markets at designated places</li> <li>Construction of Bodaboda Sheds</li> <li>Establishment of special markets</li> <li>Promotion of trade through linking traders to existing export markets and e-commerce.</li> </ul>
Promotion of fair trade practices and consumer protection	<ul> <li>Anti-counterfeit laws.</li> <li>Strengthen quality assurance institutions.</li> <li>Verification of weighing and measuring instruments.</li> <li>Pre-package control in factories, warehouses and along the distribution chain.</li> <li>Awareness creation, enforcement of legal metrology Act.</li> <li>Enhance protection of intellectual rights.</li> <li>Enhance conformity.</li> </ul>
Enhanced productivity and competitiveness	<ul> <li>Tax reforms.</li> <li>Leveraging of technology.</li> <li>Develop a local competitiveness program</li> <li>Promote and market tourism in the county.</li> <li>Product development and diversification</li> <li>Promote private sector development through enterprise development, incentives.</li> <li>Source development partners e.g. KNCCI etc., to provide financial access, market linkages and facilitate exchange of technologies.</li> </ul>
Roads, Transport, Public Works and Utilities	
Improved road network and enhanced connectivity	<ul> <li>Boresha Barabara</li> <li>Promote infrastructural development i.e roads and bridges</li> </ul>
Decongestion of urban centres and towns	<ul> <li>Construction and maintenance of busparks</li> <li>Promote PPPs inorder to assist in construction of modern bus parks</li> </ul>
Enhanced security	<ul> <li>Promotion of street lighting in urban centres and towns</li> <li>Promotion of community policing</li> </ul>
Strengthen fire response system	<ul> <li>Provide effective, efficient and timely fire fighting and rescue services</li> <li>Undertake public sensitization and training</li> </ul>

4.2 Sector Programmes and Flagship Projects

This section provide sector programmes and flagship projects to be implemented within the planned period.

## 4.2.1 Sector Programmes

Table 18 presents the sector programmes to be implemented within the planned period.

# 4.2.2 Flagship Projects

Table 19 summarizes all county flagship projects for implementation by both levels of Government and Development Partners in the county.

## Table 19: Flagship projects

Project Name	Location	Objective	Description of Key Activities	Key Output(s)	Time Frame*	Estimated cost (Ksh.)	Source of Funds	Lead Agency
FINANCE, IC	FAND ECONO	MIC PLANNING	Ĵ		<u> </u>	<u>1`´´</u>		
Hudumia Wanakiambu – Digitised Platform	Kiambu County HQ	To digitise county services	Installation of integrated management systems such as revenue, hospital, human resource, fleet, biometric staff identification, e-cabinet, service delivery portal, among others.	Digitised Kiambu Services	5 years	600M	CGK	FIEP
AGRICULTU	RE LIVESTOCI	K AND COOPER	ATIVE DEVELOPN	MENT				
Modernization of poultry, rabbit ,bovine and pig slaughterhouse	Thika Gatundu south Kikuyu	To offer safe, quality and healthy meat and meat products	Drilling and equipping of borehole Renovation/ modernization of bovine slaughterhouse Completion of poultry and rabbit slaughterhouse Construction of cold rooms for bovine ,pig and rabbit/poultry slaughterhouses Completion of perimeter fence Installation of water storage tanks Installation of solar panels Installation of bio- digester for waste management Installation of bio- digester for waste management Installation of bio gas unit Construction of incinerator Procurement of modern equipment (stunning gun and cartilages , de- feathering machine, chain boxes, stainless carrying rails/ electric hoisters, aluminum tables, electric power saw)	Slaughterhouses completed	2023-2027	520M	CGK/NG/ Donor/PPP	Department of Agriculture, Livestock and Cooperative Development

Project Name	Location	Objective	Description of Key Activities	Key Output(s)	Time Frame*	Estimated cost (Ksh.)	Source of Funds	Lead Agency
Upgrading of Waruhiu ATC	Githunguri	To offer quality extension and training services	Development of an institute master plan Development of structures to upgrade to a fully- fledged ATVET Holding Annual collaborative stakeholders' exhibitions /Trade fairs Establishment and operationalization of revolving fund Instituting governance board Expansion/ refurbishment/ construction of hostel blocks, kitchen and dining hall Construction of perimeter fence and murraming of farm access roads Construction of a modern zero grazing unit with a biogas unit, piggery unit and a poultry unit Procurement of breeding stock Construction of a dam and installation of water supply system Installation of standby generator, LAN, solar heating system, drip irrigation and security lights, Construction, lining and stocking of fish ponds Establishment of agro-processing unit and a commercial agroforestry tree nursery Construction of coffee pulping unit and storage store Laying soil and water conservation structures Construction of green houses.	Institutions upgraded	2023-2027	510.4M	CGK/NG/ DONOR	Department of Agriculture, Livestock and Cooperative Development
Value addition-agro- processing unit and cold storage facilities	Ruiru/Juja Lari, Limuru , Githunguri, Gatundu South Gatundu North	Reduce waste Improve farmers payout Bulking for higher produce price	Feasibility study Acquisition of land Construction and equipping of the fruit agro processing unit Installation of solar panel	Agro processing unit constructed and equipped	2023-2027	1.3B	CGK/Donor/ PPP/NG	Department of Agriculture, Livestock and Cooperative Development

Project Name	Location	Objective	Description of Key Activities	Key Output(s)	Time Frame*	Estimated cost (Ksh.)	Source of Funds	Lead Agency
WATER ENVI	RONMENT EN	ERGY AND NAT	 FURAL RESOURCH	ES S				
WATER ENVII Loromo Water Supply Project	CONMENT EN	ERGY AND NAT The project is anticipated to increase water supply to areas of Limuru and Karuri water companies.	Tural RESOURCH The project was designed with the prospect of tapping into the rich water aquifers on the Limuru side specifically in the Loromo catchment. The anticipated yield for a borehole in 70m3/hr. Drilling, equipping of 4No. boreholes in Loromo well field(est. Q=70m3/h) 2 8 0 M3/HR, Construction of 300m3sump tank in Loromo, laying of 118.9km of assorted pipes, Land Acquisition at Bibirioni Ground Tank, Land Acquisition at Kianjogu proposed 3000m3 RC Tank, Construction of 2 no. RC tanks	Increased water storage and coverage	July 2023- June 2028	0.9	AWWDA PPPs	AWWDA KCG PPPs
Gatundu North Water Supply Project Magumu – Makwa, Muchakai, Kamunyaka, Mataara and Gakoe Water project	Gatundu North & South	To increase water supply sources to serve residents of Gatundu North.	of 6000m3 and 8000m3. The project will entail development of water supply sources to serve residents of Gatundu North. The project will entail implementation of the following projects: Rehabilitate existing Intake Works, lay 97km of assorted pipes, Construction 9No composite filtration units (480m3 each), Relocate existing Mataara intake upstream to abstract 2,000m3/ day from Ragia River. Construction of conventional intake works. Relocate existing intake upstream to abstract 1,500m3/ day from Karimenu River.	Increased water storage and coverage	July 2023- June 2028	0.5	AWWDA PPPs	AWWDA KCG PPPs

Project Name	Location	Objective	Description of Key Activities	Key Output(s)	Time Frame*	Estimated cost (Ksh.)	Source of Funds	Lead Agency
Kinale dam; Height 26 m, Combined Net Yield of 30,000M <sup>3</sup> /d;	Kinale	To serve Limuru, Lari and Kikuyu	Construction of the Dam structure along Gatamaiyu River, Raw water mains 500mm internal diameter, 3.6 km, Conventional full treatment plant with a capacity of 10,000 m <sup>3</sup> /day, a 12,000m <sup>3</sup> storage tank, Trunk distribution mains, three balancing tanks for Limuru, Kikuyu town and Wangigi – kinoo area each	Increased water storage and coverage	July 2023- June 2028	13.0	AWWDA PPPs	AWWDA KCG PPPs
Gatamaiyu Dam	Gatamaiyu river	To serve Githunguri and Ruiru Juja water service area	of 5000m <sup>3</sup> RC. Gatamaiyu 2 Dam, Height 50m, Net Yield of 32,800m3/ day with: Treatment Works of capacity 32,000m3/ day, laying of 39km assorted pipes, System storage of 16,000m3	Increased water storage and coverage	July 2023- June 2028	-	AWWDA PPPs	AWWDA KCG PPPs
Ruiru II water supply project	Githunguri, Kiambu and Karuri regions	To serve KIWASCO region with improved water & sewer services	Construction of a water supply unit of 15,000m3 and associated water supply installations, extension of treated water distribution mains from the reservoir.	Increased water storage and coverage.	2023-2028	2.0	AWWDA PPPs	AWWDA KCG PPPs
DANIDA Water and Sanitation project in GIWASCO Region	GIWASCO Region	To serve GIWASCO region with improved water & sewer services	Construction of Water treatment plant to yield 6,000m <sup>3</sup> of water per day, Construction of Waste Water treatment plant to treat 4,000m <sup>3</sup> of water per day, NRW management and Institutional support	Increased water storage and coverage.	July 2023- June 2028	2.0	AWWDA PPPs	AWWDA KCG PPPs
HEALTH SER	VICES	•		•				
Universal Health Coverage	County wide	Quality health care access for all	Offer Universal Health Coverage	Improved health status of Kiambu citizens	Continuous	2.5B	CGK	-NHIF -County Government of Kiambu
Expansion of Gachororo level 4,	Juja sub county	To upgrade Gachororo level 4	Expansion of the hospital	A functional level 4 hospital providing level 4 services	Jun 2023- 2027	600M	CGK	CGK
Expansion of Kiambu level 5	Kiambu sub county	To expand Kiambu level 5	Construct a multistorey block	A functional level5 services	Jun 2023- 2027	800M	CGK	CGK
Construction of Ruiru specialized services block	Ruiru sub county	To expand Ruiru level 4	Construct a multistorey block	A functional level 4 hospital providing level 4 services	Jun 2023- 2027	600M	CGK	CGK

Project Name	Location	Objective	Description of Key Activities	Key Output(s)	Time Frame*	Estimated cost (Ksh.)	Source of Funds	Lead Agency
EDUCATION,	GENDER, CUI	LTURE AND SOC	CIAL SERVICES		<u> </u>			
Bursary fund	County wide	To cushion the needy and vulnerable learners and increase transition, retention and completion in secondary schools, colleges and universities	Identification of the needy and vulnerable learners and providing them with bursaries and scholarships.	Learners retained and completing schools and colleges	1 <sup>st</sup> July 2023- 30 <sup>th</sup> June 2028	1.22B	C.G. K	Department of Education, Gender, Culture and Social Services
Model child friendly ECDE centres.	Countywide	To increase access and equity to ECDE and provide conducive learning environment.	Construction of classrooms, sleeping facilities, feeding area, ablution block and provision of furniture and play equipment.	Model and child friendly ECDE centres.	1 <sup>st</sup> July 2023- 30 <sup>th</sup> June 2028	500B	C.G. K	Department of Education, Gender, Culture And Social Services
County production units within Vocational Training Centres	County wide	Production of construction materials (cabro, culverts, blocks, windows, doors etc), furniture and uniform.	Construction of physical infrastructure, procurement of relevant tools and equipment and engagement of relevant personnel.	County Production Units established.	1 <sup>st</sup> July 2023- 30 <sup>th</sup> June 2028	500M	C.G. K	Department of Education, Gender, Culture and Social Services
YOUTHS, SPO	RTS AND COM	MUNICATION	relevant personner.	1	<u>I</u>	1		1
Kazi kwa wote.	County wide.	To create employment.	Identifying employment gaps and providing these opportunities to the residents including the youth of Kiambu county.	Kiambu residents employed.	1st July 2023- 30th June 2028.	500M	C.G.K	County Government Department of Youth and Sports.
Enterprise Fund	County wide.	To promote welfare through self- employment and enterprise development among the youth, PWDs and women.	Providing low interest loans to young people, women and PWDs.	Young people, women, and PWDs availed with funds	1st July 2023- 30th June 2028.	1.5 B	C.G.K	County Government Department of Youth and Sports.
Stadium	County wide	Identification and nurturing of sporting talent in the county.	Providing sporting facilities for the youth, women and PWDs.	Increased participation in sporting activities.	1st July 2023- 30th June 2028.	500M	C.G.K	County Government Department of Youth and Sports
LANDS, HOUS	SING, PHYSIC	AL PLANNING	URBAN DEVELOP	MENT AND ADM	IINISTRATI	ON		
Thika Smart City	Thika subcounty	Improving infrastructure development for sustainable urban environment	Construction and improvement of all the infrastructure in Thika city	Fully operationalize management administration	June 2022 – June 2027	620M	KCG/PPP	LHPP&UDA

Project Name	Location	Objective	Description of Key Activities	Key Output(s)	Time Frame*	Estimated cost (Ksh.)	Source of Funds	Lead Agency
Affordable Housing Project: Construction of 10,000units.	Thika, Ruiru, Kiambu, Limuru	To provide sustainable urban growth & development	Construction and provision of complimentary facilities.	Affordable houses available for occupation	Jan. 2023 – June 2024	350B	KCG/PPP.	Directorate of Housing, Survey, Physical planning & Urban Development Administration and Municipalities
TRADE, INDU	STRIALIZATI	ON, TOURISM A	AND INVESTMENT					
Construction of Madaraka Modern Market	Thika Sub- County	To create a conducive environment for traders	Construction of Madaraka Modern markets in collaborations with development partners	Madaraka modern markets constructed and solar energy, water harvesting systems and waste management systems installed.	1 <sup>st</sup> July 2024- 30 <sup>th</sup> June 2024	500M	National government.	National government.
Construction of Githunguri Modern Market	Githunguri Sub-County	To create a conducive environment for traders	Construction of Githunguri Modern markets in collaborations with development partners	Githunguri modern markets constructed and solar energy, water harvesting systems and waste management systems installed.	1 <sup>st</sup> July 2023- 30 <sup>th</sup> June 2024	500M	National government.	National government.
Construction of Kangangi modern Market	Kiambu Sub- County	To create a conducive environment for traders	Construction of Kangangi Modern markets in collaborations with development partners	Kangangi modern markets constructed and solar energy, water harvesting systems and waste management systems installed.	1 <sup>st</sup> July 2023- 30 <sup>th</sup> June 2024	500M	National government.	National government.
Construction of Wangige modern market	Kabete Sub- County	To create a conducive environment for traders	Construction of Wangige modern markets in collaborations with development partners	Wangige modern markets constructed and solar energy, water harvesting systems and waste management systems installed.	1 <sup>st</sup> July 2023- 30 <sup>th</sup> June 2024	500M	National government.	National government.
Construction of Dagoretti modern market	Kikuyu Sub- County	To create a conducive environment for trading	Construction of Dagoretti modern markets in collaborations with development partners	Dagoretti modern markets constructed and solar energy, water harvesting systems and waste management systems installed.	1 <sup>st</sup> July 2023- 30 <sup>th</sup> June 2024	500M	National government.	National government.

<b>Regional/International Obligations</b>		Interventions*
	Social pillar: Equitable social development in a clean and secure environment 5.1 Education and Training 5.6 Gender, Youth and Vulnerable groups 5.7 Equity and Poverty elimination	<ul> <li>WEENR <ul> <li>Conservation of catchment areas</li> <li>Enforcement of regulations on water and sanitation, Natural resources and forestry, waste management and renewable energy and climate change.</li> <li>Health Services</li> <li>Reduce the maternal mortality, end preventable deaths of newborns and children under 5 years of age, end the epidemics of AIDS, tuberculosis, malaria, neglected tropical diseases, combat hepatitis, water-borne diseases and other communicable diseases that threaten the wellbeing of its people.</li> <li>Education gender culture and social services</li> <li>Enhance access, equitable and relevant quality ECDE and VTC services.</li> <li>Continually map all the cultural resources in the County.</li> <li>Improve cultural and creative arts infrastructure.</li> <li>Provide bursary to needy learners.</li> <li>Provide relief to the elderly and street children through the social protection programme.</li> <li>Construct, renovate and equip new and existing ECDE and VTC centres.</li> <li>Youth Affairs</li> <li>Carry out youth empowerment, educative and transformative programmes</li> <li>Offer sporting activities for young people across</li> </ul> </li> </ul>
	Political pillar To create a democratic system reflecting the aspirations and expectations of the people where equality is entrenched, irrespective of one's race, ethnicity, religion, gender or socio-economic status.	<ul> <li>the county</li> <li>Ensure equitable resource distribution across its departments, sub counties, wards, and even across all villages</li> <li>Promotion of the rule of law in the county and equal access to justice for all</li> </ul>

National Development Agenda/	Aspirations/Goals	County Government contributions/
<b>Regional/International Obligations</b>		Interventions*
	Foundations/Enabler Public Service reforms	<ul> <li>Human resource management and development.</li> <li>Develop an integrated human resource strategy.</li> <li>Results based management in the county public service.</li> <li>Promotion of internship and industrial attachment.</li> </ul>
	Values and Ethics	<ul> <li>Administration and Public Service</li> <li>Promote good governance, ethics and integrity</li> <li>Ensure equitable resource distribution across its departments, sub counties, wards, and even across all villages</li> </ul>
	Information & Communication Technology (ICT)- Strengthening the Foundation for a Knowledge Economy	<ul> <li>Finance ICT &amp;Economic Planning</li> <li>Construction of data centres</li> <li>Construction of ICT hubs</li> <li>Construction and equipping of ICT incubation centres</li> <li>Installation of office blocks with internet connections</li> <li>Digitization of provision of services by creating digital programme-Hudumia wanaKiambu</li> <li>ISO certifications</li> </ul>
	Deploying world class infrastructure facilities and services	<ul> <li>Land Housing, Physical Planning &amp;MAUD</li> <li>Preparation and implementation of strategic development and Spatial Plans, special border towns and all other municipalities plans, strategic integrated physical development plans</li> <li>Implementation of Cities and Urban Areas Act of 2011.</li> <li>-Facilitation of production of 2000 housing units annually through various initiatives.</li> <li>-Development of affordable, quality and affordable houses for lower income Citizens.</li> <li>-Development of appropriate building materials and technologies.</li> <li>Installation of physical and social infrastructure in slums and informal settlements in selected urban areas.</li> <li>Road Transport and Public Works</li> <li>Road and infrastructure Improvement</li> </ul>

National Development Agenda/	Aspirations/Goals	County Government contributions/
Regional/International Obligations		Interventions*
Sustainable Development Goals (SDGs)	Goal 1- End poverty in all its forms everywhere SDG 1.a Ensure significant mobilization of resources from a variety of sources, including through enhanced development cooperation, in order to provide adequate and predictable means to implement programmes and policies to end poverty in all its dimensions Target 1.5 By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate- related extreme events and other economic, social and environmental shocks and disasters	Agriculture         Supporting small-scale irrigation         Promoting urban and peri urban farming         Pronoting climate smart agriculture         Provision of quality extension services         Provision of accessible, quality and affordable agricultural inputs         Adoption of modern technologies         Mobilize savings and widen credit facility for investments, promote an equitable and sustainable economy.         Promote sustainable agro-tourism, empowerment of Cooperative Societies, promotion of Industries and enterprises and create linkages with relevant stakeholders and investors.         FIEP         Revenue mobilization for development         WEENR         minimize risks resulting from climate related disasters such as floods, drought and landslides (rainwater harvesting, climate proofing of infrastructure         Formulation and implementation of policy, legislative and istitution framework for mainstreaming climate action and responses aimed at: enhancing social-economic and ecological resilience and reducing vulnerability to impacts of climate change in the County         Education gender culture and social services         Training of women, youth, PWDs, other Special Interest Groups on entrepreneurship and Juakali artisans.         Provide bursaries to needy and vulnerable groups through the social protection programme. Youth Affairs and Sports         Train youth and provide financial assistance to the youth, women and PWDs.         Lands, Housing and Physical Planning

National Development Agenda/	Aspirations/Goals	County Government contributions/
Regional/International Obligations		Interventions*
	Goal 2- End hunger, achieve food security and improved nutrition and promote sustainable agriculture	Agriculture         Promotion of high value and nutritive crops         Promotion of food safety during production, processing and storage         Ensuring consumption of wholesome and safe crop/animal products         Supporting small scale irrigation         Promotion of Yalue addition         Provision of quality and efficient extension services to farmers across the County         Training farmers on best practices for harvest and post-harvest handling and packaging         Increasing surveillance pests and diseases control         Promotion of urban and peri urban farming
		* *
	Goal 3: Ensure healthy lives and promote well-being for all ages.	<ul> <li>Administration and public Service</li> <li>Provision of medical cover , WIBA and GPA to the staff</li> <li>WEENR</li> <li>Improve garbage collection system.</li> <li>Establish material recovery facilities</li> <li>Reduce Air and water pollution</li> <li>Health Services</li> <li>Ensure that all health facilities are fully operationalized.</li> <li>Increase patient to health personnel ratio</li> <li>Increase disease surveillance and research following the emergence of Covid 19 disease and the threat of other diseases such as monkey pox, Ebola among others</li> </ul>
	Goal 4 Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all Target 4.4 By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship Target 4.a Build and upgrade education facilities that are child, disability and gender sensitive and provide safe, non-violent, inclusive and effective learning environments for all	<ul> <li>WEENR</li> <li>Mainstream climate change and renewable energy through training of artisans and technicians on renewable energy and clean cooking technologies</li> <li>Provision of water and clean cooking technologies in the ECDEs and vocational training centers with feeding programmes and catering courses</li> <li>Switch to green energy to cut down on high utility bills in learning institutions</li> <li>Education <ul> <li>Construct, renovate and equip ECDE and VTC centres.</li> <li>Employ more ECDE and VTC teachers.</li> <li>Implementing the school feeding programme for ECDE pupils to increase retention rates in schools.</li> <li>Offering bursary to the needy and vulnerable learners</li> </ul> </li> </ul>

National Development Agenda/	Aspirations/Goals	County Government contributions/
Regional/International Obligations	*	Interventions*
	Goal 5: Achieve gender equality and empower all women and girls Target 5.4 Recognize and value unpaid care and domestic work through the provision of public services, infrastructure and social protection policies and the promotion of shared responsibility within the household and the family as nationally appropriate	<ul> <li>WEENR</li> <li>Mainstream gender in energy and climate change ensuring increased access to affordable, clean and sustainable energy and water supply that would free time to collect firewood and water that can be used for other income generating activities</li> <li>Education and Youths</li> <li>Train women and youth groups and provide equal opportunities for all.</li> <li>Provision of credit facilities for women and youth groups</li> <li>Setup SGBV centres to rescue victims and also hold SGBV sensitization forums in the community to raise awareness to the community.</li> <li>Create equal opportunities for both men and women and encourage women to participate in sporting activities</li> </ul>
	Goal 6: Ensure availability and sustainable management of water and sanitation for all	<ul> <li>Administration and public Service</li> <li>Provision Equipment of sub county office blocks with water harvesting system</li> <li>Construction of ablution blocks</li> <li>WEENR</li> <li>Expand / increase water supply though construction of Dams, Treatments Plants, drilling of boreholes and Rain water harvesting</li> <li>Invest in additional water distribution infrastructures.</li> <li>Health Services</li> <li>Conduct water quality assessment and analysis of water sources to ensure water is safe for consumption.</li> </ul>
	Goal 7: Ensure access to affordable, reliable, sustainable and modern energy for all energy sector	<ul> <li>WEENR</li> <li>Formulation and implementation of policy legislative and</li> <li>Formulation of county energy plan to assist in identification, planning and implementation of sustainable renewable energy, energy access and energy efficiency and conservation projects</li> <li>Health Services</li> <li>Use of technology in construction, orientation of buildings to enhance use of natural lighting, use of solar energy, use of paperless communication –EMR connection, water conservation through use of modern water taps and use of underground water saving tanks.</li> </ul>

National Development Agenda/	Aspirations/Goals	County Government contributions/
Regional/International Obligations		Interventions*
	Goal 8: Promote sustainable economic growth, full and productive employment and decent work for all.	<ul> <li>Promote the growth and development of Micro, Small and Medium Enterprises (MSMEs) through mentoring entrepreneurs and linkages to access of credit facilities</li> <li>Implementation of MSME Policy</li> <li>Establishments of Industrial Parks, Industrial/ Manufacturing clusters and cottage industries.</li> <li>Increase market access both in urban and rural areas.</li> <li>Mobilization of savings and widening of credit facilities for investments.</li> <li>Promotion of sustainable tourism.</li> <li>Fair and just remunerations</li> <li>Provide full and productive employment and decent work including for young people and persons with disabilities.</li> </ul>
	Goal 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation	<ul> <li>Roads and industrialization sectors</li> <li>Developing quality, reliable, sustainable and resilient infrastructure.</li> <li>Establishment of Industrial parks.</li> <li>Promotion of quality, reliable, sustainable and resilient infrastructure and promoting inclusive and sustainable industrialization.</li> <li>Fostering innovation in collaboration with the other departments</li> </ul>
	SDG 9.c- Significantly increase access to information and communications technology and strive to provide universal and affordable access to the Internet	<ul> <li>FIEP</li> <li>Construction of data centres</li> <li>Construction of ICT hubs</li> <li>Construction and equipping of ICT incubation centres</li> <li>Installation of office blocks with internet connections</li> <li>Digitization of provision of services by creating digital programme-Hudumia wanaKiambu</li> <li>ISO certifications</li> </ul>
	Goal 10: Reduce inequalities within and among countries	<ul> <li>Offer bursary to the needy and vulnerable learners.</li> <li>Provide relief to the elderly and other vulnerable groups through the social protection programme.</li> <li>Provide relief to the street children through the social protection programme.</li> <li>Ensure equitable resource distribution across its departments, sub counties, wards, and even across all villages</li> </ul>
	Goal 11:Make cities and human settlements inclusive, safe, resilient and sustainable Urban	<ul> <li>WEENR</li> <li>Improve garbage collection system.</li> <li>Establish material recovery facilities</li> <li>Reduce Air and water pollution</li> <li>Land and Physical Planning</li> <li>County is enhancing inclusive and sustainable urbanization and capacity for participatory, integrated and sustainable human settlement planning and management in all countries</li> </ul>

National Development Agenda/	Aspirations/Goals	County Government contributions/
<b>Regional/International Obligations</b>		Interventions*
	SDG13: Take urgent action to combat climate change and its impacts	<ul> <li>WEENR</li> <li>Formulation of County Climate Action and policies to guide on implementation of climate change actions and responses in all the sectors in the county in order to enhance resilience and reduce vulnerability to impacts of climate change</li> <li>Climate proof infrastructure</li> <li>Training and educate county staff and communities on climate change actions and responses</li> </ul>
	Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification and halt and reverse land degradation and halt biodiversity loss	<ul> <li>WEENR</li> <li>Gazettement of wetlands as public land to prevent encroachment</li> <li>Rehabilitation of the catchment areas</li> <li>Sustainable exploitation of resources in the oceans, rivers</li> <li>Conservation of water bodies</li> </ul>
	Goal 16: Promote just, peaceful and inclusive societies. 16.6 Develop effective, accountable	<ul> <li>Involvement in the countrywide sporting events (KICOSCA), and the Inter-county competitions (KYSIA</li> <li>Promotion of the rule of law in the county,</li> </ul>
	and transparent institutions at all levels	<ul> <li>equal access to justice for all, and corruption/ bribery reduction, public access to information and by ensuring there is responsive, inclusive, participatory and representative in decision- making.</li> <li>Preparation of annual finance bill</li> </ul>
	SDG 17.1 Strengthen domestic resource mobilization, including through nternational support to developing countries, to improve domestic capacity for tax and other revenue collection	· Incorporation of Revenue Services Board

National Development Agenda/	Aspirations/Goals	County Government contributions/
<b>Regional/International Obligations</b>		Interventions*
National Development Agenda/ Regional/International Obligations Africa's Agenda 2063;	Aspirations/Goals Aspiration 1: A prosperous Africa based on inclusive growth and sustainable development Goal 1: A high standard of living, quality of life and well-being for all citizens. Goal 3: Health and well-Nourished citizens	County Government contributions/ Interventions* Agriculture Modern agriculture for increased productivity and production by: Provision of quality extension services Supporting small scale irrigation Promotion of value addition and agroprocessing Provision of accessible, quality and affordable agricultural inputs Adoption of modern technologies Promoting climate smart agriculture Provide appropriate marketing infrastructure <b>Health Services</b> Offer good health and nutrition services Take care of malnourished children and advise on improved nutrition and ensure supplements are distributed Education and Social Services To empower vulnerable and special interest groups to participate in governance and development initiatives for socio economic empowerment Construct, renovate and equip ECDE and VTC centres. Offering bursary to the needy and vulnerable learners. Training of women, youth, PWDs and other Special Interest Groups on entrepreneurship Training and certifying Juakali artisans for sustainable development. Provide educative programs to the young people, improving on their skills thereby increasing employability and self- dependency. Provide low interest loans to small businesses therefore bettering their livelihoods and income earning capacity. Lands and Housing Construction and upgrading of Municipal Infrastructures Construct and renovate affordable houses Use of Renewable Energy and Climate Change Promote Investments by providing an enabling environment for sustainable socio-economic
	Goal7: Environmentally sustainable and climate resilient economies and	<ul> <li>development.</li> <li>Ensure availability and sustainable management of water and sanitation for all</li> </ul>
	communities. Aspiration 2: World class infrastructure.	<ul> <li>Construction of world class infrastructure such as sporting facilities and stadiums</li> <li>Road and infrastructure Improvement.</li> </ul>

National Development Agenda/	Aspirations/Goals	County Government contributions/
Regional/International Obligations		Interventions*
	Aspiration 3. An Africa of Good Governance, Democracy, Respect for Human Rights, Justice and the Rule of Law	<ul> <li>Promote good governance, ethics and integrity</li> <li>Ensure equal opportunities for all men and women</li> <li>Ensure adherence to employment acts, labor relation and any other relevant act in human resource management</li> <li>Ensure capable institutions and transformative leadership is in place and also preserve peace security and stability</li> <li>Offering good health and nutrition services to ensure healthy lives and promote well-being for all at all ages</li> </ul>
	Aspiration 5: An Africa with a strong cultural identity, common heritage, values and ethics	<ul> <li>To harness and revamp the cultural resources and the creative industry for socio-economic empowerment.</li> <li>Continually map all the cultural resources in the County.</li> <li>Improve cultural and creative arts infrastructure.</li> </ul>
	Aspiration 6: An Africa whose development is people driven, relying on the potential of African people, especially its women and youth, and caring for children.	<ul> <li>To establish flagship programmes for PWDs, child protection, women and other vulnerable and special interest groups.</li> <li>Train women and youth groups and provide equal opportunities for all.</li> <li>Provision of credit facilities for women and youth groups</li> </ul>
	Goal 18: Engaged and empowered youth and children	• Empower young people through programs that tap and harness their skills increasing employability and self-independency
EAC Vision 2050	To intensify investment and enhance agricultural productivity for food security and a transformed rural economy.	Agriculture • Supporting small-scale irrigation
		<ul> <li>Promote Value addition</li> <li>Provide quality and efficient extension services to farmers across the County</li> </ul>
		· Promote urban and peri urban farming
		• Train farmers on best practices for harvest and post-harvest handling and packaging
		· Increase surveillance, pests and diseases control
		• Increase market access to regional and global trade through creation of market linkages.
		• Mobilization of savings and widening of credit facilities for investment.

National Development Agenda/	Aspirations/Goals	County Government contributions/
Regional/International Obligations		Interventions*
	Pillar 3.1: infrastructure development	WEENR
		Climate proofing the infrastructure
		· Climate proofing the infrastructure
	Pillar 3.4: environment and natural resource management	· Invest in green infrastructure and green energy
		• Sustainable utilization of natural resources, environment management and conservation with enhanced value addition.
		<ul> <li>Promote the switch from linear to circular economy to promote sustainable utilization of resources</li> </ul>
	3.3 Industrialization Goal: Leveraging industrialization for structural transformation and improved intra-regional and global trade	<ul> <li>Promote industrialization through; the establishment of Industrial Parks, Industrial, Manufacturing clusters and cottage industries.</li> <li>Promote quality, reliable, sustainable and resilient infrastructure, and also promote inclusive and sustainable industrialization.</li> <li>Increase market access to regional and global trade through creation of market linkages.</li> </ul>
		<ul> <li>Refurbishment and rehabilitation of tourism and heritage sites, gazettement of attraction sites for conservation, creation of tourism circuits, diversifying tourism activities, organizing tourism expos &amp; cultural festivals, construction of a culture and heritage information center, among other initiatives.</li> </ul>
	<ul><li>3.5 Tourism, Trade and other Services Development</li><li>Goal: Enhance tourism, trade in goods and other services within the EAC region and with the rest of the world.</li></ul>	• Promotion of income-generating activities including involvement of the most venerable in the communities, e.g., youth, in trade.
		<ul> <li>Facilitation of growth and development of Micro, Small and Medium Enterprises (MSMEs).</li> </ul>
		• Enhance market access and development both in urban and rural areas.
	Zero tolerance to corrupt practices and misuse of development resources	Promote good governance, ethics and integrity
	Articulation of pro-active policies aimed at linking employment targets to skills development initiatives.	Implement human resource policy and procedure manuals

National Development Agenda/	Aspirations/Goals	County Government contributions/
<b>Regional/International Obligations</b>		Interventions*
Paris Agreement on Climate change, 2015	Strengthening global response to the threat of climate change, in the context of sustainable development and efforts to eradicate poverty.	Agriculture · Promote climate smart agriculture
	to cradicate poverty.	· Support small scale irrigation
		Promote biogas production
	Goal: Reduce greenhouse gas emissions	Promote agroforestry
		Promote energy conservation technologies e.g. solar system
		WEENR
		<ul> <li>Promote the adoption and implementation of low carbon technologies (such as renewable energy and clean cooking technologies and efficient fuel)</li> </ul>
		• Undertake an inventory of county greenhouse gases and county determined contributions to lower emissions
		Trade
		• Creation of circular and green economies.
		• Encourage the use of clean and renewable energy, i.e., use of solar energy in production and trading spaces, e.g., Markets and Juakali.
		· Installation of waste management systems in markets to encourage reuse of the organic waste from the market to reduce the greenhouse gases emissions from such waste. e.g., production of biomass energy.

National Development Agenda/	Aspirations/Goals	County Government contributions/
<b>Regional/International Obligations</b>		Interventions*
Agricultural Sector Transformation and Growth Strategy 2019-2029	Anchor 1 -Increase small-scale farmer and fisher folk income Anchor2- Increase agricultural output	Agriculture · Supporting small scale irrigation
	and value add Anchor 3- Increase household food resilience	<ul> <li>Promotion of Value addition</li> <li>Provision of quality and efficient extension</li> </ul>
		Training farmers on best practices for harvest and
		<ul> <li>post-harvest handling and packaging</li> <li>Increasing surveillance pests and diseases control</li> </ul>
		· Promotion of urban and peri urban farming
		· Promote climate smart agriculture
		· Provision of accessible, quality and affordable agricultural inputs
ICPD25 Kenya Commitments- International conference on Population and Development Programme of Action.	Essential Reproductive Health Package of Interventions and UHC	• Employ innovation and technology to ensure adolescents and youth attain the highest possible standard of health.
		• Efforts will be made to eliminate teenage pregnancies, new adolescent and youth HIV infections and harmful practices such as child marriages while at the same time ensuring universal access to friendly quality reproductive health services and information to the youth and adolescents by 2030
		• Eliminate preventable maternal and newborn mortality, mother to child transmission of HIV and severe morbidity such as obstetric fistula among women by 2030.

National Development Agenda/	Aspirations/Goals	County Government contributions/
<b>Regional/International Obligations</b>		Interventions*
Sendai Framework for Disaster Risk Reduction 2015 – 2030.	Priority 1: Understanding disaster risk	Undertake a climate risk and vulnerability assessment
	Priority 2: Strengthening disaster risk governance to manage disaster risk	• Allocate the adequate resources for the development and the implementation of disaster risk reduction strategies, policies, plans, laws and regulations
		· Formulation of policy, legal and institutional framework to guide county's response to environmental related disasters and enhance its capacity to manage disaster
	Priority 3: Investing in disaster risk reduction for resilience.	· Invest in disaster management training in both National and County Governments.
		• Emphasis on coordination of disaster management policies, legal and institutional framework.
		• Invest in finances, human resource and equipment in disaster management.
		• Implementation of the National Disaster Management Policy (2009) into counties and its coordination.
	Priority 4: Enhancing disaster preparedness for effective response and to "Build Back Better" in recovery,	• Sensitization on disaster management and preparedness for the human resources and public.
	rehabilitation and reconstruction.	· Invest in disaster preparedness training in both National and County Governments
		• Invest in finances, human resource and equipment for disaster preparedness.
		· Provide quality infrastructure
		• Enhance law enforcement for the protection of our natural resources.
	Goal7: Substantially increase the availability of and access to multi- hazard early warning systems and disaster risk information and assessments to people by 2030	· Enhance medical research

## 4.4 Cross-Sectoral Linkages

This section provides the cross-sectoral impacts of each sectoral programme and appropriate actions to harness cross-sector synergies or mitigate adverse cross-sector impacts.

#### **Table 21: Cross-Sectoral Impacts**

Programme Name	Sector	Cross-sect	tor impact	Measures to harness or mitigate the		
		Synergies	Adverse Impact	impact		
County Assembly						
Legislation, oversight and representation in the County Government	All sectors	Timely approval of plans, policies, papers, budgets and bills Timely delivery of services to the public		Close collaboration between County Executive and County Assembly		
		Prudent management of County resources				
County Executive	^	·		^ 		
Administration, Planning and Support Services.	All sectors/ departments	proper and timely Communication and coordination	Ineffective communication and administration systems	Setting up clear and effective communication channels.		
Government Advisory Services	National Government, government agencies and other county governments	Collaborations and cooperation between National Government, government agencies and other county governments on various issues and overlapping functions	Overlapping functions in the two government levels	Regular meetings, agreements and written MOUs to guide working relationship between the two levels of governments.		
	All departments and National Government	Compliance to existing laws		Regular inter -departmental and agency meetings		
<b>County Public Servi</b>	ce Board		1	•		
Administration, Planning and Support Services	All sectors/ departments	Improved service delivery through human resource management.		Training and capacity building. Right placement of staff. Skills and talents re-organization.		
Finance, ICT and E	conomic Planning	•	•	·		
Administration, Planning and Support Services	All sectors	Timely delivery of services		Conduct more trainings in order to have a well-motivated workforce		

Programme Name	Sector	Cross-sect	or impact	Measures to harness or mitigate the
		Synergies	Adverse Impact	impact
Public Finance Management services	All sectors	<ul> <li>Synergies</li> <li>Compliance to international public sector, accounting standards (IPSAS) for prudent public finance management</li> <li>Well-coordinated planning and budget activities leading to improved efficiency and proper expenditure controls</li> <li>Timely submission of periodical reports</li> <li>Increased County revenue</li> <li>Providing independent, objective assurance and insight on the efficiency of risk management, internal control,</li> </ul>	Adverse Impact - High resistance from citizens - Negative perception of internal audit by the auditee Auditee resistance	<ul> <li>Conduct trainings on public finance management</li> <li>Encourage proper planning and budgeting through capacity building and sensitization forums</li> <li>Improved and efficient service delivery</li> <li>Carry out capacity building and civic education to both staff and citizen</li> <li>Training the auditor and the auditee so that they clearly understand their responsibilities.</li> <li>Providing value adding audit reports to the auditee.</li> <li>Involvement of all stakeholders during the audit exercise.</li> <li>Escalation of audit issues to the audit committee.</li> <li>Applying due professional care and competence in performance of audit exercise.</li> </ul>
ICT services	All sectors	and governance processes. Time management and reduced operation cost leading to improved service delivery	<ul> <li>High system maintenance costs</li> <li>System Hackers</li> <li>Cyber crime</li> <li>User resistance</li> </ul>	<ul> <li>Regular system upgrade</li> <li>Capacity building of staff on cyber security measures</li> <li>Involvement of relevant stakeholders while developing ICT infrastructure</li> </ul>
Administration and	Public Service			
Alcohol and Substance Control and Rehabilitation.	All sectors	Reduction of incidences associated with substance abuse Ensure a healthy productive county workforce and citizens free from alcohol and substance abuse	Loss of business/ revenues after closure of some alcoholic drinks' outlets	Provision of alternative income generating projects Continous sensitization on effects of alcohol and substance abuse
Human Resource Management and Development Services	All sectors	Ensure staff are covererd under comprehensive medical cover, WIBA and GPA Enhance staff competencies and skills through continuous training	Requires enormous financial resources.	Adequate budgetary allocations. Sourcing for qualified personnel to undertake the exercise.

Programme Name	Sector	Cross-sect	or impact	Measures to harness or mitigate the
		Synergies	Adverse Impact	impact
General administration, Planning and Support services	All Sectors	Enforcement of all county laws and applicable national legislation Provision of security within county premises	Requires lots of financial resources	Provision of adequate budgetary allocations.
	Trade, Tourism, Industry and Enterprise development	Creation of business opportunities	<ul> <li>-Irresponsible betting and gambling activities</li> <li>-Rise of social crimes such as alcohol and substance abuse</li> </ul>	Regulation of betting and gaming activities through licensing, enforcement and public awareness
	Youth Affairs, Sports and Communication	Creation of business opportunities Creation of sporting activities	-Irresponsible betting and gambling activities -Rise of social crimes such as alcohol and substance abuse	Regulation of betting and gaming activities through licensing, enforcement and public awareness
Agriculture, Livesto	ck and Cooperative	Development		
Crop Development and Irrigation and Marketing	Water and Environment	Promoting water harvesting e.g. water pans and roof harvesting	Risk to human and animals if water pans are not well secured	-Capacity build on proper securing of water pans -Capacity build on water harvesting
		Environmental conservation through planting of fruit seedlings, and other cover crops and proper disposal of farm waste	Pollution through misuse of agrochemicals and improper disposal of agricultural waste	<ul> <li>-Capacity building on safe use of chemicals</li> <li>- Sensitizing farmers on NEMA standards on waste disposal and compliance</li> <li>-ensure EIAs are done</li> <li>-Train farmers on the importance of environmental conservation</li> <li>-Train farmers on waste management, e.g. biogas and compost making</li> <li>-Capacity build farmers on proper disposal of pesticide containers and expired chemicals</li> </ul>
	Trade	<ul> <li>-Provision of agricultural products to the local and international markets</li> <li>-Promotion of value addition and innovation</li> <li>-Bulking of agricultural products for marketing and creation of market linkages</li> </ul>	-Breach of local & international trade agreements due to improper use of chemicals - Environmental Pollution due to poor disposal of organic waste in markets -Poor handling of agricultural produce along the value chain	<ul> <li>-Capacity build farmers on the Maximum Residual Limits(MRL) and its impact on trade</li> <li>-Promoting agribusiness</li> <li>-Train agro dealers on proper disposal of expired inputs and pesticides</li> <li>- Capacity build traders on proper utilization of organic waste e.g. composting, biogas production for energy generation and organic manure for sale</li> <li>-capacity build and supporting farmers on value addition</li> <li>-Creation of market linkages</li> <li>-Capacity build farmers on proper handling of agricultural produce along the value chain</li> </ul>

Programme Name	Sector	Cross-sect	tor impact	Measures to harness or mitigate the
		Synergies	Adverse Impact	impact
	Youth	Creation of employment opportunities		-Train youths on modern and emerging farming technologies, agricultural innovations and value addition -Train youths on agribusiness
	Health	Provision of food and nutrition security -Ensure food availability and safety in all seasons	<ul> <li>-Increase in diseases as a result of improper use of chemicals</li> <li>-Increase in nutrition related diseases</li> <li>-Food contamination along the value chain</li> </ul>	<ul> <li>Capacity build farmers on the Maximum Residual Limits(MRL) and its impact on health</li> <li>Train farmers on modern technologies to increase production for nutrition and food security</li> <li>Capacity build farmers on food preparation and utilization for different groups</li> <li>Train food handlers on food safety along the value chains</li> </ul>
	Education	Provision of food to learners Training of learners on simple agriculture technologies		- Train farmers on modern technologies to increase production for nutrition and food security
Livestock and Fisheries Development and Management	Trade	Provision of animal products to the markets -Provision of fish to the markets -Setting up of recreational/sporting fishing facilities	<ul> <li>Pollution as a result of improper waste disposal</li> <li>Low productivity as a result of poor quality feed</li> <li>Environmental pollution due to improper disposal of fish related waste</li> </ul>	<ul> <li>Train farmers on proper waste disposal</li> <li>Train farmers on modern technologies to increase livestock production</li> <li>Train farmers on feed formulation</li> <li>-capacity build fish farmers on modern technology to increase production</li> <li>Train traders on proper storage</li> <li>Train on proper waste disposal of fish waste e.g. animal feeds</li> <li>-construction and rehabilitation of recreational facilities</li> </ul>
	Youth	Creation of employment opportunities		Train on modern and emerging livestock production technologies -Train on value addition of livestock products
	Water and Environment	-Provision of renewable energy Well managed and safe water bodies for fish industry	Environmental and water pollution by animal wastes from slaughter houses, dairy processing factories and farms - Risk to human and animals if fish ponds are not well secured	<ul> <li>-Control water pollution through proper waste disposal</li> <li>- Promote biogas production and composting</li> <li>-capacity build farmers on control of water pollution through regular cleaning of fish ponds</li> <li>-promote recycling of pond water</li> <li>-Sensitize farmers on compliance with NEMA standards</li> </ul>

Programme Name	Sector	Cross-sector impact		Measures to harness or mitigate the
		Synergies	Adverse Impact	impact
	Health	-Creating awareness on Antimicrobial stewardship and resistance -Control of Zoonotic diseases -Provision of food and nutrition security	-Antimicrobial resistance -Deaths in both animals and human -Contamination of fish and fish products	<ul> <li>-Promoting prudent use of antimicrobials ,disease prevention and control measures in animals and humans</li> <li>-Vaccination and creating awareness</li> <li>-Dog population control</li> <li>- capacity build fish farmers on modern technology to increase production</li> <li>-Capacity build farmers and traders on proper handling of fish and fish products</li> </ul>
	Education	Provision of animal products for nutritional security	Disease due to improper handling of animal products and poor nutrition	<ul> <li>Train on increasing production through modern technologies</li> <li>Capacity build on proper handling of animal products</li> <li>promote small stock production e.g. rabbits and local chicken</li> </ul>
Co-operative Development and Management	Housing	Pooling resources for the provision of affordable housing for Cooperative members.		<ul> <li>-Federate the housing co-operatives so as to promote advocacy and self- regulation.</li> <li>-Establish a revolving fund for the housing co-operatives.</li> </ul>
			-Loss of arable land due to subdivision of land and construction of housing units	Promotion of zoning through Spatial Planning.
	Environment		-Pollution from cooperative processing plants, e.g., Dairy, coffee factories.	-Encourage the use of environmentally friendly technologies.
Water Energy Envir	onment, and Natura	al Resources	·	
Water Resources Management And Sanitation Services	All sectors	Provision of Safe, clean and affordable water	Water pollution High utility bills	Expand / increase water supply though construction of Dams, Treatments Plants, drilling of boreholes and Rain water harvesting Promote water conservation and efficient use of water
Environmental Management and compliance	All sectors	Clean and healthy environment	Pollution	Improve garbage collection systems Establish material recovery facilities
Natural Resources , Forest Conservation and Management	All sectors	Agro forestry	Construction of infrastructures leading to decrease in tree coverage	Re-afforestation Enforcement of existing laws.

Programme Name	Sector	Cross-sect	or impact	Measures to harness or mitigate the
		Synergies	Adverse Impact	impact
Climate change mitigation and adaptation	All sectors	Reduced carbon emissions and utility bills	Rapid deterioration of land cover leading to changing rainfall resulting droughts and flooding, loss of biodiversity, threats to animal and plant species, change in vegetation composition and structure, and depletion of water quality and quantity through the destruction of catchments and underground aquifers. creates a window for invasive species, new pests and diseases	Enactment of overarching climate change legislation to provide the framework for coordinated implementation of climate change responses and action plans
Health Services		<u>.</u>	Press & & & Frank	I
Preventive and Promotive Health Services	Water, Energy, Environment and Natural resources	Water quality control Solid waste management	Environmental pollution through improper waste disposal	Policy to set out mandate as far as water quality control, solid and liquid waste management is concerned
	Administration and Public Service	Awareness creation and rehabilitation services for drug and substance abusers		Establish Prevention and Treatment programmes within the county Collaboration in liquor licensing
	Agriculture, Livestock and Fisheries	<ul> <li>Animal food quality control</li> <li>Map out disease zones</li> <li>Vaccination and treatment of livestock with antibiotics (antimicrobial resistance)</li> <li>Zoonotic disease surveillance</li> </ul>	<ul> <li>Duplication of Food quality control</li> <li>Humans developing resistance to antibiotic</li> <li>Human/animal disease transmission</li> </ul>	<ul> <li>Establishment of an interdepartmental Committee</li> <li>Establishment of technical working group</li> </ul>
	Education	Promotion of School health program		<ul> <li>Collaboration in health service delivery among school going children and the youth</li> <li>Vitamin A supplementation, deworming and growth monitoring</li> </ul>
Curative and rehabilitative Health services	Education, gender and social services	Sensitization on adolescent reproductive health		<ul> <li>Social behavior change collaboration with the institutions</li> <li>Employ innovation and technology to ensure adolescents and youth attain the highest possible standard of health</li> </ul>
	All sectors	- Ensuring a healthy work force		- Construction of hospitals
	Administration and Public Service	- Establishment of drop in centers (DICE) in every constituency		- Training of a health personnel in mental health and psychology (human skill mix)

Programme Name	Sector	Cross-sect	or impact	Measures to harness or mitigate the
		Synergies	Adverse Impact	impact
Administration, planning and support services	Education, gender and social services	Adolescent health and SGBV		Collaborate mainstreaming mitigation measures against SGBV and harness health services within learning institutions
County Pharmaceutical services Preventive Health Services	Water, environment, energy and natural resources	Provision of Infection Prevention Control measures through color coded bins	Environmental pollution through improper Disposal of medical waste	Sensitization on IPC Protocols
Education Gender (	L Culture and Social Se	ervices	<u> </u>	<u> </u>
Early Childhood and Vocational Training	Health and Sanitation	Provide learning institutions for inspection	Poor state of sanitary facilities.	Improvement of sanitary facilities.
Development	Water Environment and natural resources	Implementation of green economy considerations in VTCs and ECDEs	Shortage of water and power outages.	Enhance water harvesting and use of alternative sources of energy
	Youth communication and Sports	Train on market demands in VTCs	Negative attitude of the youth towards training.	Sensitization on the importance of the trainings.
	Health.	Collaboration on nutrition needs in the school feeding programme	Delayed implementation of feeding programme.	Multi sectoral approach in implementing the feeding programme
Gender, Culture and Social Services Promotion	Trade, tourism, Industries and Enterprise Development.	Providing cultural and heritage sites to promote tourism	Lack of finances	-Promote culture and creative art as sources of socio-economic development/commercialize the sector
				-Resource mobilization, joint planning & implementation
	Youth, Sports and Communication	Development of youth talents& mentorship through trainings and social halls construction.	Lack of finances	Seek partners to finance talent activities.
	Trade, tourism, Industries and Enterprise Development.	Provide sensitization and training self- help groups on entrepreneurship.	Lack of finances for start-ups Lack of finances	Encourage them to seek financing from financial institutions.
	Agriculture	Provide self-help groups to be trained on agribusiness.	Lack of mances	

Programme Name	Sector	Cross-sect	tor impact	Measures to harness or mitigate the
		Synergies	Adverse Impact	impact
Youth Affairs Sport	ts and Communicatio	)n		
Youth Empowerment,	Agriculture	Increased agricultural productivity resulting from trainings on		-Training on Agri-business and value addition.
		agribusiness and value addition.		-Training the youth on modern methods of farming.
		Provision of labour.		
	Health	Reduced cases of drug and substance use and teenage pregnancies.		Rehabs, seminars and peer training, sports activities for recreation purposes, sports activities as alternative for drug and substance abuse.
A	Administration	Reduced cases of alcohol and substance abuse.		Rehabs, seminars and peer training, sports activities for recreation purposes, sports activities as alternative for drug and substance abuse.
	Education	Increased enrolment of Youths in vocational training centers.		Encouraging more youths to join VTCs.
Sports	Health	Reduction of lifestyle diseases.		Hold sports activities around the county and encourage more people to participate.
Communication	All sectors	Dissemination of information.		Exploring new communication ways of reaching out to all members of public.
Lands Housing Phy	sical Planning and U	rban Development and A	Administration	
Urban development administration and municipalities	Roads, Transport and Public Works Trade, Tourism, Industry and Enterprise	- Accurate land valuation for preparation of the usage in roads and public works	Risk of gentrification	<ul> <li>Transparency and accountability from project planning and project monitoring for roads and public works</li> <li>Capping of house selling prices and</li> </ul>
	Development	- Integration of trade and enterprise to facilitate community development		rent to values that are affordable the ones in trade and enterprise
Land valuation and rating	Finance	- Enhanced revenue generation from land rates and updated valuation register of county properties		- Undertake proper public participation and involvement of all stakeholders
Physical Planning	All sectors	- Spatial plan, building approvals and PDPs		- Undertake proper public participation and involvement of all stakeholders

Programme Name	Sector	Cross-sect	or impact	Measures to harness or mitigate the
		Synergies	Adverse Impact	impact
Renewable Energy and Climate Change	Road department	<ul> <li>Construction of road network Enhance security through street lighting</li> <li>Climate change mainstreaming</li> </ul>	- Rapid deterioration of land cover leading to changing rainfall resulting droughts and flooding, loss of biodiversity, threats to animal and plant species, change in vegetation composition and structure, and depletion of water quality and quantity through the destruction of catchments and underground aquifers. creates a window for invasive species, new pests and diseases	<ul> <li>Climate change legislation to provide the framework for coordinated implementation of climate change response and action plans.</li> <li>Close collaboration with key stakeholders</li> </ul>
Trade, Industrializa	tion, Tourism and I	nvestment		•
Trade Development and Promotion	Agriculture	-Creation of markets for agricultural produce.		-Construction of more agricultural- based markets.
	Environment		-Pollution from markets waste.	-Working with the Environment Department to ensure that the solid waste management guidelines are adhered to in the markets.
Industrial and Entrepreneurship Development	Education (TVETs)	-Promotion of industrial internship and innovation		-Include not only TVETs but also education centres such as innovation hubs and universities.
	Environment.		-Pollution from industrial waste	-Working together with the Environment department to ensure relevant bylaws are adhered to. -Promotion of innovation towards
				recycling of industrial waste
	Youth and Sports	<ul> <li>Promotion of innovation through the creation of market linkages.</li> <li>Provide training and mentorship programmes</li> </ul>		-Increase collaboration with various youth groups and institutions.
	Agriculture	-Promotion of value addition and innovation in agribusiness.		<ul> <li>-Create platforms such as trade fairs, formation of MOUs and sensitization to form marketing cooperatives.</li> <li>-Holding regular agricultural-based trade fairs and exhibitions.</li> </ul>

Programme Name	Sector	Cross-sect	tor impact	Measures to harness or mitigate the		
		Synergies	Adverse Impact	impact		
Tourism Development and Promotion.	Environment and Natural Resources.	-Protection and utilization of natural resources.		-Enhanced promotion of nature- based tourism.		
	Agriculture	-Promotion of Agro- tourism		-Enhanced promotion of Agriculture based tourism.		
	Youth and sports	-Promotion of sports tourism		-Enhanced promotion of sports- based tourism and arts and craft.		
	Revenue	-Enhance own source revenue through the tourism attraction sites and facilities		-Enhanced supervision to optimize revenue collection.		
	Fisheries	-Joint management of Gatamaiyu fishing camp		-Sensitization on sustainable Tourism Promotion of recreational tourism/ sport fishing.		
Investment Development and Promotion	All sectors	-Formulation and implementation of the County investment promotion strategy				
	Environment		-Pollution and increased waste generation	-Working together with the Environment Department to ensure relevant bylaws are adhered to.		
				-Collaborate with the Department of Water Environment Energy and Natural Resources to enact policies to foster the use of alternative energy sources. This will reduce the reliance on fossil fuels and their adverse effects on climate change		
Roads, Transport, I	Public Works and Uti	lities				
Infrastructure Development and Maintenance	All sectors	- Facilitate Designs and construction supervision of public facilities	Environmental pollution	<ul><li>Develop a resettlement plan.</li><li>Continuous engagement with the sectors.</li></ul>		
		- Provision of Market/ Trading spaces along road reserves		- Continuous engagement with all the stake holders.		
		<ul> <li>Increased revenue from traders</li> </ul>		- Comply and enforce NEMA guidelines		
	Trade	Facilitate trade by enhancing accessibility	Heavy commercial trucks overload roads designed for light traffic	<ul> <li>Multi-sectoral approach in prioritizing infrastructure developments.</li> <li>Designate particular roads</li> </ul>		
				- Designate particular roads particularly designed for heavy traffic to minimize Maintenance costs on roads		
	Agriculture	Facilitate transportation of agricultural produce to the market centres		- Multi-sectoral approach in prioritizing infrastructure developments.		
	Administration	Enhancing security by provision of flood masts and streetlights		- Identification of priority area to provide lighting		
	Trade	<ul> <li>Promoting 24hrs</li> <li>Economy</li> <li>Providing conducive</li> </ul>		- Linking up/consulting with the stakeholders in identification of areas that needs lighting		
		environment for trading		- Continuous engagement with all the stake holders.		
		- Increased income generation				
Fire Rescue and Disaster Management	All sectors	Communication and training		Continuous awareness.		

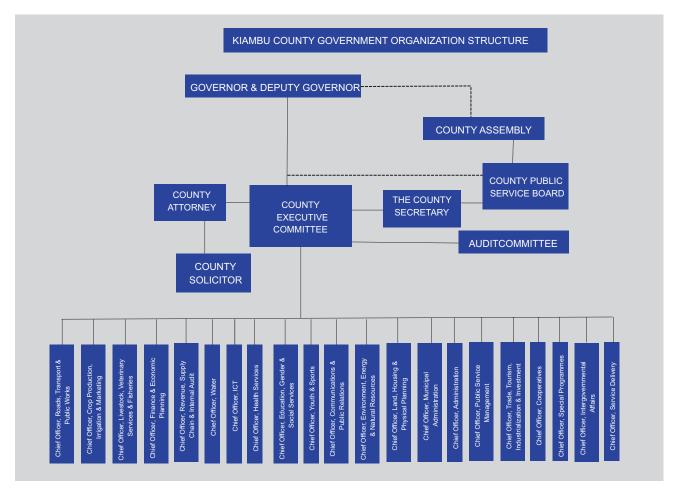

# **IMPLEMENTATION FRAMEWORK**

# 5.1 Overview

This chapter provides the county's institutional arrangement and their specific roles towards implementation of the CIDP. In addition, the chapter presents the resource mobilization and management framework, asset management, risk and mitigation measures.

## **5.2 Institutional Framework**

This section provides the institutional framework of the County including an organizational chart that displays the implementation the CIDP and how the County's internal transformation needs are addressed. The framework indicates the County Government's institutional arrangements and demonstrate linkages with the National Government Departments at the county as well as other key stakeholders.

#### Figure 4: Organizational Chart

The section indicates the specific roles of the key institutions towards implementation of the CIDP as in Table 22.

#### Table 22: Institutional Arrangement

S/No.	Institution	Role in Implementation of the CIDP					
	County Executive Committee	- Coordination of implementation of CIDP programmes					
		- Monitoring and evaluation of the implementation of the CIDP					
		- Mobilization of resources and budgeting					
		- Development of relevant legal framework, plans and policies					
		<ul> <li>Provision of reasonable assurance through risk-based audit in the implementation of the CIDP programmes</li> </ul>					
	County Assembly	- Approval of the CIDP					
		- Over sighting implementation of CIDP programmes					
		- Monitoring and evaluation of the implementation of the CIDP					
	Council of Governors	- Provision of policy directions issued by the National Government to the County					
	County Government Departments	- implementation of CIDP programmes					
		- Developing relevant legal framework, plans and policies					
		- Monitoring and evaluation of implementation of the CIDP					
	County Planning Unit	- Coordination of preparation of County Annual Development Plan					
		- Developing relevant legal framework, plans and policies					
		- Monitoring and evaluation of implementation of the CIDP					
		<ul> <li>Coordination of the preparation of programmes /projects implementation progress report</li> </ul>					
	Office of the County Commissioner	- Acts as a link between County and other National Government agencies at the County					
		- Provision of security during CIDP programmes implementation					
	National Planning Office at the county	- Provision of technical advice on matters relating to CIDP					
		- Capacity building County officers on e-CIMES					
	Other National Government Departments and Agencies at the county	- Provision of relevant data relating to CIDP programmes earmarked for implementation					
	Development Partners	- Collaboration with the County to supplement resources required during CIDP implementation					
	Civil Society Organizations	- Promotion of good governance,					
		- Promotion of national values such as integrity, accountability and transparency					
	Private Sector	- Collaboration with the County to supplement resources required during CIDP implementation					

#### **5.3 Resource Mobilization and Management Framework**

This section provides the projected resource requirements by sector, revenue projections, estimated resource gap and measures of addressing the gaps.

#### 5.3.1 Resource Requirement by Sector

This section indicates the projected financial resources required for each sector during the plan period. The section also includes the percentage of the total budget for each sector.

		Resource Requirement (Ksh. Million)							
Sector		FY	FY	FY	FY	FY	Total	(%) of the	
Vote	Sector Name	2023/24	2024/25	2025/26	2026/27	2027/28	10(a)	Total budget	
4061	County Assembly	1,867.00	1,838.50	1,950.50	1,926.00	1,692.00	9,274.00	5.5	
4062	County Executive	500.85	515.00	469.90	497.00	530.90	2,513.65	1.5	

								As a
~			· · ·	Ksh. Million)				percentage
Sector		FY	FY	FY	FY	FY	Total	(%) of the
Vote	Sector Name	2023/24	2024/25	2025/26	2026/27	2027/28		Total budget
	County Public Service

# 5.3.2 Revenue Projections

This section indicate the various sources of revenue in the County as in Table 24

#### **Table 24: Revenue Projections**

Type of Revenue	BaseYear 2022/23	FY 2023/24	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	TOTAL
a) Equitable share	11,717,525,720	12,572,777,392	13,830,055,131	15,213,060,644	16,734,366,708	18,407,803,379	76,758,063,254
b) Conditional grants (GOK)	0	-	-	-	-	-	-
c)Conditional Grants (Development							
Partners)	0	-	-	-	-	-	-
d) Conditional allocations from loans							
and grants (GoK)	0	-	-	-	-	-	-
e) Conditional allocations from loans and grants (Development Partners)	427,670,488	470,437,537	517,481,290	569,229,420	626,152,361	688,767,598	2,872,068,206
f) Own Source Revenue	4,127,321,507	4,856,554,558	5,342,210,014	5,876,431,015	6,464,074,117	7,110,481,528	29,649,751,232
g) Public Private Partnership (PPP)	0	-	-	-	-	-	-
h) Other sources (Specify)	35,900,000	39,490,000	39,050,000	42,955,000	47,250,500	51,975,550	220,721,050
h) Other sources (AWWDA)		3,680,000,000	3,680,000,000	3,680,000,000	3,680,000,000	3,680,000,000	18,400,000,000
TOTAL	16,308,417,715	21,619,259,487	23,408,796,435	25,381,676,079	27,551,843,687	29,939,028,055	127,900,603,742

## 5.3.3 Estimated Resource Gap and Mobilization Strategies

The total resource requirement for the departments during the planning period 2023-2027 amounts to Ksh. 168.07 Billion. KShs. 127.9 Billion will be funded by the County while Kshs. 40.17 Billion will be financed through private public partnership and partnership with National Government.

FY	Requirement(Ksh. Billions)	Estimated Revenue (Ksh. Billions)	Variance(Ksh. Billions)
2023/24	37,187.53	21,619.3	15,568.27
2024/25	33,433.37	23,408.8	10,024.57
2025/26	32,788.10	25,381.7	7,406.42
2026/27	32,200.97	27,551.8	4,649.13
2027/28	32,465.71	29,939.0	2,526.68
Total	168,075.68	127,900.60	40,175.08

#### Table 25: Resource Gaps

#### 5.3.4 Resource Mobilization Strategy

To mobilize sufficient resources, the County intends to;

- Put in place good governance, management systems and structures to manage and grow acquired resources and assets.
- Enhance internal revenue collection e.g. through tapping the untapped revenue sources.
- Nurture partnerships and alliances as a strategic approach to raising resources, e.g. with financial institutions, organized groups, private sector through Public Private Partnerships (PPPs), and also formulate policies that will promote establishment of investments to enhance the resource basket.
- Seek to diversify its donor base while retaining and deepening its relationship with the current donors and development partners e.g., the World Bank, National Government (NaMSIP), Rotary International, USAID World Vision, Groots Kenya, KNATCOM, NGAAF, NCPWD, NARIGP, ASDSP, ABDP, NAVCDP etc.
- Partnership with national government and semi-autonomous government agencies e.g. through KeRRA, KuRa, KeNHA, NGCDF etc
- Enhance the capacities of the departments' staff on resource mobilization.

## 5.4 Asset Management

The County Treasury act as custodian of the inventory of the County Government's assets. During the planned period, it intends to have a robust balance sheet management system covering the critical aspect of asset management. The County Treasury intends to undertake a county wide asset existence, verification and valuation exercise upon which asset register will be updated and all County assets tagged. This will be augmented by the establishment of a county wide enterprise risk management for the county and its entities. The County Treasury will acquire an asset management system which with manage all assets efficiently and effectively. Timely reports will be generated upon update of the information in the system.

All the other county entities and departments' asset management strategy intends to set a framework for managing the assets portfolio effectively during the planned period. This will guide future strategic assets acquisition and efficient management practices. The Departments asset base is an integral part in supporting and enabling the transformation of the way services are delivered to the stakeholders and partners. It is therefore essential that there be an innovative and forward-thinking strategy in place.

The Departments and other County entities are mandated to implement various strategies to ensure that assets are maintained in a safe and prudent manner. Some of the strategies includes:

- Acquisition of ownership documents for the departments fixed assets.
- Acquisition of modern assets i.e. vehicles and office equipment, to facilitate efficient and effective service delivery.
- Tagging/labelling of Department assets- Assets are labelled to ensure maintenance and safe keeping.
- Maintain and regularly update an asset register that accurately tracks the movement of inventory to avoid loss or misuse.
- Embedding a culture of innovation that maximizes the use of technology to optimize the use of the Department's assets.
- Safe guarding department's assets through a well-managed, rigorous compliance regime, clear maintenance plans and efficient facilities management.
- Conduct periodic stock taking
- Ensure the department assets are used for the intended purposes
- Ensure the assets management follows the public procurement and disposal act.

# 5.5 Risk Management

This section should provide the key anticipated risks that may hinder the implementation of the CIDP, potential risk implications and proposed mitigation measures to enhance sustainable development. The information should be provided in the format presented in Table 26.

Table 26: Risk, Implication, Level and M	<b>Mitigation Measures</b>
--	----------------------------

Risk Category	Risk	Risk Implication	Risk Level(Low, Medium, High)	Mitigation Measures
Financial Risk	Untimely release of funds by national government, low OSR and Inadequate financial resources	<ul> <li>Inadequate/ lack of funds for staff and committees capacity building.</li> <li>Delayed/ failure in implementation of planned projects and programmes.</li> <li>Stalled projects.</li> <li>Delayed salaries.</li> <li>Accumulation of pending bills</li> <li>Failed adherence to work plans by the departments.</li> <li>Poor service delivery.</li> </ul>	High	<ul> <li>Timely provision of adequate funds for capacity building and programme/project implementation</li> <li>Resource mobilization strategies e.g. putting in place measures to improve own source revenue.</li> <li>Embracing the PPP.</li> </ul>
	Compliance and regulatory risks	<ul> <li>Poor Audit rating e.g. adverse opinion which leads to reduced funding</li> <li>Poor governance structures</li> </ul>	Medium	<ul> <li>Preparation of compliant financial statements</li> <li>Implement robust internal control framework and policy guidelines</li> </ul>
	Operational risks	<ul> <li>Loss of county funds / pilferages</li> <li>Misappropriation of public funds</li> <li>Lack of required skill sets by county staff</li> </ul>	High	<ul> <li>Institute functional controls and policy guidelines to curb losses and misappropriation of public funds.</li> <li>Training of employees</li> <li>Hiring skilled workers</li> </ul>

Risk Category	Risk	Risk Implication	Risk Level(Low, Medium, High)	Mitigation Measures
Technological	Cyber security Risk	Unauthorized access to information	High	Investment in cyber security solutions.
	Loss of data	Loss of valuable information	High	Establishment of a secure data centre
	Inaccuracy and loss of valuable data.	Breach of valuable information	Medium	Digitalize all the available data Data management and back up.
	Financial Management Systems, Policies and Procedures	Breach of valuable information	Low	Compliance with PFM Act Establish new audit systems Regular monitoring of expenditure
Political	Political interference	Ineffective service delivery	Medium	Adherence to policies and regulations
		<ul><li>Delayed or Non achievement of county planned targets.</li><li>Bad public image</li></ul>	Low	Fair and transparent service delivery to county residents
		Violation of procedure and processes	High	Sensitization of the political class and staff
	Implementation of unbudgeted projects	Diversion of funds for budgeted projects	High	Strict adherence to Annual development plans
	Bureaucracies in government procurement procedures which lead to delays and inefficiencies	Delayed projects implementation and stalled projects	High	Continuous review and rationalization of public procurement procedures and regulations
	Fraud and corruption	Delayed projects implementation and stalled projects.	Medium	Proper systems Investigation
~~~				Litigation
Climate change and Natural calamities	Disasters such as floods, pests, drought, extreme raise in temperatures, air pollution and natural calamities such as Covid-19 pandemics	Lack of Budgetary reallocations to cater for the disasters. Hampered service delivery.	High	Disasters preparedness through budgetary allocations. Mainstream climate change mitigation measures.
	panaennes			Awareness creation on best practices, e.g Climate-smart agriculture, waste management, waste recycling, tree planting and sensitization and training programmes.
				Instituting early response Surveillance

<b>Risk Category</b>	Risk	Risk Implication	Risk	Mitigation Measures
			Level(Low, Medium, High)	
Social and economic Economical	Prevailing social and economic inequalities within individuals and regions in the county	Gender Based Violence	High	Initiate support and profile equity based planning and programme implementation on a continuous and participatory basis
	Influx of substandard good	Unfair competition to genuine products and services from local producers	High	Strict surveillance of quality goods and services.
Emerging/ diseases breaks e.g cholera, malaria etc	Increase in Morbidity and mortality rate	Overwhelming of the health facilities and the staff	Medium	Establishment and training of RRI teams
Organizational	Unclear reporting and communication systems	<ul> <li>Duplication of reports</li> <li>Raised confusion in services delivery in terms of responsibilities.</li> </ul>	Medium	Set clear reporting and communication systems at staff level, departmental level and between the government and the citizens.
	Poor complaints handling mechanisms	<ul> <li>Poor service delivery</li> <li>Lack of citizens' satisfaction on services delivered.</li> </ul>	Medium	Establish effective and efficient complaints handling mechanisms.
	Poor Performance management and monitoring mechanisms	Poor and delayed project implementation	Low	Establish a robust performance management system for monitoring and evaluation. For quick and informed decision making.
Human resource	Inadequate human resource capacity, in inadequate qualified personnel and inability to recruit and retain skilled personnel	Poor service delivery	Medium	Competitively recruit staff to fill the gaps. Need base recruitment. Training and capacity building of staff. Better remuneration, timely promotion and Suitable working environment
	Industrial unrest	Poor service delivery	Low	An elaborate dispute resolution mechanism
	Lack of written and updated policies and procedures	Organizational inconsistencies and poor governance structures	High	Coming up with written and up to date policies and guidelines
Operation risks	Delay in completion of assigned tasks.	Missed Targets Accumulation of pending bills.	Medium	Equip offices
Development	Inadequate infrastructure	Missed opportunities due to non- completion of projects	Medium	Proper project planning
Mobility	Delayed field operations.	Poor monitoring and evaluation	High	Provide adequate and maintenance of vehicles to ease staff field operations.

#### **6.1 Introduction**

CHAPTER

This chapter outline how the plan will be monitored and evaluated during and after its implementation. The M&E processes, methods and tools should be guided by Section 232 of the Constitution and all the legal provisions that provide for M&E, County M&E Policy in line with the National M&E Policy, CIMES Guidelines, Kenya Norms and Standards for M&E and Kenya Evaluation Guidelines. The chapter highlight the proposed M&E structure; data collection, analysis, reporting and learning; M&E outcome indicators tracking; and dissemination and feedback mechanism.

### 6.2 County Monitoring and Evaluation Structure

Monitoring and Evaluation is an integral link to other phases of the CIDP and CADP formulation and implementation cycles. It facilitate the active participation of stakeholders to ensure that policy recommendations are relevant and actually contribute to policy formulation and efficient resource allocation and use.

The County's monitoring and evaluation framework is anchored in the Finance, ICT, and Economic Planning department. The Monitoring and Evaluation Division will coordinate County Monitoring and Evaluation Evaluation System (CIMES). The County also has Service Delivery Unit responsible for monitoring implementation of the governor's priority programmes and projects.

Monitoring and evaluation at the county level will be spearheaded by the County Monitoring and Evaluation Committee (CoM&EC). The committee will draw members from County government departments, civil society organizations, development partners, public and the private sector. The monitoring and evaluation committee shall collect raw data through observation, field visit, and questionnaire e.t.c and submit the data to the monitoring unit for analysis. After the analysis, the planning unit shall be produce county annual and quarterly reports which shall be disseminated through social media, websites, prints etc as a feedback.

#### 6.3 M&E Capacity

The monitoring and evaluation function in the departments is carried out by the economists. The officers continuously require capacity building on areas of M&E such as modern data collection, monitoring and evaluation methods and analysis among others. Technical assistance and training for capacity and institutional development is also required. Further, the M&E function require sufficient resources to adequately undertake M&E activities. The County need to invest in monitoring and evaluation systems such as E-CIMES for realtime data and tracking progress of development programmes and projects.

To further strengthen the County M&E capacity, the M&E Directorate will regularly assess the M&E capacity and devise strategies to address emerging gaps through, among others, leveraging on ongoing national government and partner-led M&E capacity building initiatives, existing partnerships, and collaborations for M&E, and mobilizing more resources for the various M&E initiatives

# 6.4 M&E Outcome Indicators

This section present a summary of monitoring and evaluation outcome indicators by sector programme.

#### Table 27: Outcome Indicator Reporting

Sector	Programme	Outcome	Outcome indicators	Bas	eline	Mid- term	End-term Target	Source of Data	Reporting Responsibility
				Value	Year	Target	Ŭ		
County Assembly	General Administration, Planning and Support Services	Improved service delivery							Clerk County Assembly
	Legislation, oversight and representation services	Improved oversight and quality legislation							Clerk County Assembly
County Executive	General Administration, Planning and Support Services	Improved service delivery	% increase in efficiency and effective service delivery	45%	2022	65%	80%	Departmental reports and surveys	County Secretary
	Government Advisory Services	Enhanced inter-county relations	% compliance to existing laws	60%	2022	80%	100%	Departmental reports	County Secretary

# 6.5 Data collection, Analysis and Reporting

The Monitoring and Evaluation system will take cognizance of the programmes included in the County Integrated Development Plan as well as indicators facilitating the MTEF process, and development aspects of the respective county.

The County Monitoring and Evaluation Committee (CM&EC) will spearhead monitoring and evaluation at the County level. The committee will draw members from county government departments, civil society organizations, public and the private sector. The monitoring and evaluation committee shall collect raw data through observation, field visit, and questionnaire e.t.c and submit the data to the monitoring unit for analysis. After the analysis, the planning unit shall be produce annual reports which shall be disseminated through social media, websites, prints etc as a feedback and help inform decision-making.

Regarding reporting, the County shall develop the County Annual Progress Report (CAPR) based on the guidelines developed by the Monitoring and Evaluation Directorate. The CAPR will provide the overall status of the CIDP implementation on an annual basis. Subsequently, this will inform the preparation of the consequent Annual Development Plan (ADP) and annual budget preparation process. Further, the County will prepare the Quarterly M&E progress reports that will feed into the CAPR, donor programme/project reports, back-to-office reports, mid-term reports to be prepared at the third year of CIDP implementation, and End Term Reports to be prepared at the end of CIDP implementation period and other ad hoc reports

Through the e-CIMES, the county will be able to analyze the progress towards the achievement of the policies, projects, and programmes outlined in the CIDP III. Analysis of CIMES results will demonstrate whether the resources spent on implementing CIDP investment programmes are leading to the intended outcomes, impacts, and benefits for the county population.

# 6.6 Dissemination, Feedback Mechanism, Citizen Engagement and

# Learning

The County will make data and information available to stakeholders, government officials, academic researchers, policymakers, senior management, project participants, and the public for use in making evidencebased decisions. The County will develop a data dissemination plan that will define the target stakeholder or audience, the information needs of the various stakeholders/audiences, the communication methods, and the timing/frequency of the dissemination. The data/information will be disseminated through State of County Address, oral presentations in stakeholder meetings, written reports, fact sheets, press releases, posters, flyers, social media platforms, county websites, devolution conferences, peer-to-peer events, webinars, and live events.

Further, the County will develop a Feedback-and-Response System, or FRSs to create a two-way communication loop that will enable the various sectors/department to receive citizens' feedback and respond timely to their suggestions and concerns. The Feedback mechanisms will allow the citizens to provide feedback through channels that include meetings, suggestion boxes, hotlines, and others. The County will develop response mechanisms that will acknowledge receiving the feedback and provide appropriate responses to the public in a timely manner.

Regarding learning from the M&E initiatives and reports, the information generated from M&E will be useful for decision-makers, policymakers, and the wider county audience as it will provide facts and evidence, that when accepted and internalized, provide knowledge products for promoting learning. Hence, the County will incorporate learning into the overall programme implementation by using the information disseminated from the M&E processes and making it available for potential users to become applied knowledge. The county will utilize critical reflection sessions, after-action reviews, and peer-to-peer learning, among others, as strategies for learning to improve the overall county performance and quality of results of ongoing and future programs, strategies, and interventions.

## 6.7 Evaluation Plan

This section identifies the key policies/programmes/projects for evaluation during or after the plan period. Evaluation will be critical for the county policies/programmes/projects to determine the relevance and fulfilment of objectives, development efficiency, effectiveness, impact, and sustainability. The evaluations will include rapid evaluations, impact evaluations, CIDP midterm/end-term Reviews, or any other type of evaluation.

The M&E Directorate will develop comprehensive evaluation plans, for each planned evaluation to support the evaluation planning and will cover components like the purpose of the evaluation, evaluation questions, evaluation criteria, timetable, and work plan, collecting data for an evaluation, data collection methods to answer evaluation questions, data collection tools and activities, data analysis, and reporting evaluation findings. Table 28 provides a summary of the Evaluation plan for the various intended evaluations by the County.

# ANNEX 2: KEY HIGHLIGHTS OF THE PROPOSED INTERVENTIONS AND VIEWS MADE DURING THE CONSULTATIVE FORUMS

SECTOR	ISSUES	PROPOSED INTERVENTIONS
Finance ICT and Eco- nomic Planning	Land rates	Review land rates(urban, peri-urban and rural) in the entire County
	ICT infrastructure	Construct ICT hubs and establishment of public hotspots
		Digitize County records and services
Administration and pub-	Alcohol, drug and substance	Construct and equip rehabilitation centres
lic Services	abuse	Crackdown of bars and illicit brew
		Sensitize public on effects of alcohol, drug and substance abuse.
	Public awareness creation	Conduct civic education and citizen engagements
Agriculture, Livestock	Low agricultural productivity	Subsidize seeds and fertilizers
and Irrigation		Adopt new farming technologies
		Promote value-addition
		Provide extension services
		Cultivate drought resistance crops
		Complete ongoing irrigation projects
		Support agriculture innovation/incubation hubs
	Food insecurity	Reduce post-harvest losses
		Promote value-addition
	Livestock production	Provide quality animal feeds to livestock farmers
		Train/capacity build farmers on modern technologies
Water Environment En-	Access to clean, safe and af-	Drill and operationalize boreholes
ergy and Natural Re- sources	fordable water	Supply clean and safe water to all County residents
		Laying of pipes and maintenance of existing ones
		Water harvesting
	Improved sanitation	Solid waste Management
		Construct sewer lines in urban centres with no sewer coverage
Health Services	Health infrastructure	Construct and equip health facilities
		Upgrade/expand existing health facilities
		Renovate/ refurbish existing hospitals
		Employ qualified staff and empower community health workers
		Complete all stalled projects
	Medical drugs and equipment	Provide adequate medicines drugs and equipment in all health facilities

SECTOR	ISSUES	PROPOSED INTERVENTIONS
Education, Culture and Social Services	Education infrastructure	Construct and equip Vocational Training Centres and Early Childhood Development Educational centres.
		Renovate, expand and equip existing VTCs and ECDEs
		Construct resource centres/libraries
	Low enrolment rate	Implement school feeding programs in ECDEs
	Bursary	Increase bursary allocation and distribute it fairly to needy students.
	Culture/heritage	Erect memorial monuments to honour Maumau heros and heroines
		Preserve culture heritage and hold cultural events
	Recreation	Construct and equip social halls
Youth Affairs, Sport and	Youth empowerment	Talent search and nurturing
Communication		Undertake youth mentorship programme
		Conduct youth training on entrepreneurial and life skills
	Sporting	Construct stadiums and play fields
		Conduct sporting activities/tournaments
		Establish fund for disability sports
Trade Industry Tourism	Trade, Industry and markets	Construct and upgrading of markets,
Investments and Cooper- ative Development		Construct modern markets, modern kiosks and bodaboda sheds
		Promote access to affordable credit facilities
		Promote cottage industries
Lands, Housing Physical	Spatial Planning	Finalize County Spatial Plan
Planning and Municipal Administration and Ur-		Timely building approvals
ban Development	Land Survey	Digitize land registry
		Titling of land
	Land reclamation	Reclaim all public lands
<b>Roads Transport Public</b>	Lighting	Installation of street lights
Works and utilities	Infrastructure development	Construction and maintenance of county access roads, bridges and busparks
		Decongest towns by constructing slip roads

### **ANNEX 3: PUBLIC STAKEHOLDER ENGAGEMENT SURVEY REPORT**

#### **Executive Summary**

Within the month of December public participation was conducted in 34 clusters of stakeholders within and associated with Kiambu County to engage them on development priorities and the Governor's Manifesto A total of 186 individuals represented 32 clusters or special interest groups groups from the County Budget economic Forum (CBEF), clergy, council of elders, ethnic groups, municipalities, PWD's, and students just to mention a few. Their feedback covered challenges, obstacles, failures and needs of the county, and at the same time highlighted areas of for development prioritization.

The findings from this survey are expected to be used for the purpose of informing the development of the third generation County Integrated Development Plan (CIDP). Respondents were also briefed on the key aspects of the Governors Manifesto so as to provide them with the necessary background required to adequately assess the document.

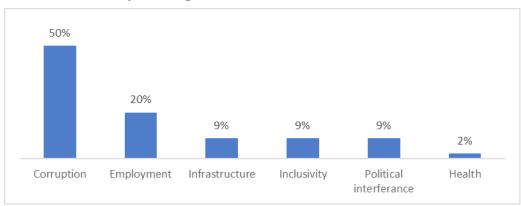

From the Stakeholder Engagement Survey the key highlights were that the biggest obstacles to county development were Corruption (50%), Unemployment (20%), Infrastructure, Inclusivity and Political interests (all tied at 9%). In terms of the failures of past Kiambu County Governments it was found that the biggest failure was corruption (21%), Healthcare, Infrastructure and inclusivity (all tied at15%), Governance (12%), Unemployment, Capacity Building and Creating Awareness (9%).

In terms of county needs, it was found that the key areas were Employment and Health provision (17%), Roads and Infrastructure (15%); and management (10%). As far as County development priorities are concerned, the largest proportion of respondents indicated that healthcare was the most important (26%), followed by roads (14%) Water and Sanitation (12%) and Education (11%).

Finally on the projects that should be urgently undertaken within the first one year, Kazi Mtaani, Kiambu Youth Service introduction and creative competitions and tournaments were listed.

#### Stakeholder Engagement Survey

To address gaps within the county, a stakeholders engagement survey was conducted with a total of 126 respondents interviewed. Of these 66% were males while females represented 34%. This was distributed across 20 clusters within the county.

#### **Obstacle to County Development**

Key to understand among the stakeholders were the challenges the county was facing towards development. The respondents indicated corruption 50% as the leading barrier of development. This was followed by

unemployment 20%. While other factors such as infrastructure, inclusivity and political experience was only at 9% respectively.

#### Failure by County Government

Row Labels	%age
Corruption	21%
Health care	15%
Inclusivity	15%
Infrastructure	15%
Governance	12%
Employment	9%
Capacity building	9%
Creating awareness	6%

Other than looking at obstacles to development, it was imperative to understand if there were any areas the county was experiencing any failure. The respondents indicated the counties failure to cub corruption. This was followed by Healthcare, Inclusivity and infrastructure.

#### **County Needs**

Row Labels	%age
Unemployment	17%
Health provision	17%
Roads	15%
Infrastructure	15%
Management	10%
Water & Sewerage	8%
Financing	6%
Inclusivity	6%
Governance	4%
Capacity building	2%

The respondents were asked to indicate what they perceive to be the needs of the county. 17% indicated Employment and health provision respectively as the top needs. This was followed by Infrastructure and mainly roads.

#### **County Development Priority**

Row Labels	%age
Health	26%
Roads	14%
Water & sanitation	12%
Education	11%
Employment	8%
Training & capacity building	8%
Infrastructure	7%
Security	5%
Welfare	5%
Economic empowerment	4%

Health was leading in terms of prioritization among the respondents. This was followed by roads 14%, water & sanitation 12% and education 11% as the top 4 development priority areas for the county.

# What development challenges are you facing in regard to Kiambu County and what ways would you suggest for addressing them?

	Challenges	W	ay to address
•	Accessibility of	<b>√</b>	nave clear system for rachtrying
	finances for the youth		beneficiaries of government loans
•	Support sports and	✓	Have tournaments for Kiambu
	youth activities		County
•	Lack of scholarship	✓	Approach sponsors
•	Unemployment	$\checkmark$	Create job opportunities
•	Harassment by	$\checkmark$	Let the enforcement officers operate
	enforcement officers		under the law and not otherwise
•	Corruption by county	~	Integrity issues to be addressed
	officers		
•	Lack of right skills	~	Create forums for training
	for self-employment		
•	Requirement for	$\checkmark$	Provide funds for youths to borrow
	loans unfriendly for		
	the youths		
•	Alcohol and Drug	~	Idleness to be reduced by Kazi kwa
	Abuse		vijana
		~	Too many outlets selling liquor
•	Noise pollution at	✓	Proper regulations
	residential places		
•	Poor infrastructure	✓	Provide adequate infrastructure
•	Lack of good roads	✓	Construct more all-weather roads
•	Consideration of	✓	Give support and guidance on CBC
	Competency-based		
	Curriculum (CBC)		
•	Security	$\checkmark$	Provide security for all citizens

#### Challenges and way to address them

What do you consider should be the key development priorities for Kiambu County over the next 1 year and 5 years? (State in order of priority with the most important first)?

Priority for the next one year	Priority for the next 5 years
Kazi mtaani	Agribusiness skills and farm- ing boost
Introduce Kiambu youth service to train the youth	Create markets for products being produced in the county
Creativity competitions	
Have tournaments for Kiambu	
Health – mostly hospitals	
Schools	
Security	
5 year CIDP	
Roads	
Street lights	
Water & sanitation	

#### Priority for the next 1 year and for the next 5 years

What aspects of the Governors Manifesto are most attractive to you and which would you wish to participate in? (State in order of priority)?

#### Most attractive aspects of the Governors Manifesto

Pillar	Attractive	Participate
Governance	Digitization	Digitization
	Revenue service	Revenue service
People	Marginalized groups to get more support	Leave no child behind
	Takataka kando to involve the youth	[]ICT
Resources	□Kazi kwa wote	Agriculture
	Hustler revolving fund	Security
Competitiveness	Competitiveness []ICT	
	Agriculture	
Harmony	Harmony Security	
	[]Thika city & Kiambu Hub	
	CIDP	
	Creation of jobs	
	Enhancing industrial development	
	Creating awareness of cooperatives	

#### **Other Comments:**

- Youths are well schooled and have skills but they are highly affected by unemployment
- Avail job and skills to the youth.
- Suicide cases gone up due to overwhelming life issues that are affecting the youths.
- Conduct a thorough audit/assessment of all constructions/buildings in Kiambu County and root out all cases of corrupt building plans approvals.

Conduct campaigns of social nationalization to address the rampant cases of suicide, killings, drug abuse and delinquency among the youth

#### **Public Participation on the Manifesto**

Public participation on manifestation session discussion were held among 20 clusters to understand the significance and areas of priority among the participants.

#### **Pillar 1: Governance**

Within the governance pillar 6 intervention attributes were measured using a 5 point scale ranging from very high (5) to very low (1). *Hudumia WanaKiambu* had the highest significance and priority (mean of 4.6 & 4.5 respectively), followed by **Pending Bills** (mean of 4.5 significance & 4.3 priority)

qn	Governance	Туре	Very Low	Low	Me- di- um	High	Very High	Mean
q1.1	Hudumia Wana-	Priority	0%	0%	0%	46%	54%	4.5

#### **Pillar 5: Harmony**

# ANNEX 4: COUNTY ASSEMBLY PUBLIC PARTICIPATION REPORT ON DEVELOPMENT PROJECT PRIORITIES

#### 1. COUNTY ASSEMBLY

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS
LIMURU	Bibirioni	- Completion of MCA's office in Bibirioni
	Limuru East	- Construction of MCA'S office in Limuru East.
	Limuru Central	- Construction of MCA'S office in Limuru Central
THIKA	Kamenu	- Completion of MCA's office
	Gatuanyaga	- Construction of the MCA's office
RUIRU	Gatongora	- Construction of the MCA's office
	Biashara	- Construction of the Office of the MCA on the Sub- County Offices Land
KIAMBU	Tingángá	- Construction of the area MCA office
	Kiambu Township	- Building and construction of County Assembly Kiambu chamber facilities and multi-purpose office complexes
GITHUNGURI	Githiga	- Renovation of mca's offices
	Ikinu	- Construct and equip MCA's Office
	Githunguri	- Establishment of an ICT centre
KIKUYU	Nachu	- Construction and equipping of MCA's office in NACHU

# 2. FINANCE, ICT AND ECONOMIC PLANNING

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS
KIKUYU	Kikuyu	- Construction and equipping of an ICT Hub
	Sigona	- CT Training within the Ward
	Kinoo	- Construction and equipping of ICT centre
	Nachu	- Completion and equipping of lusigetti library.
		- fencing of lusigeti library.
		- connecting of the library with reliable internet.
THIKA	Kamenu	- ICT hub in Makongeni and within the Ward trading
		centers
	Thika Township	- Establish an ICT hub at Wabeni Vocational Training
		center. This center needs to be considerate of PWDs.
		- It also needs to have internet connectivity so that youth
		can have access to online jobs and skills development
		training online opportunities
KABETE	Muguga	- ICT Centre at the social hall in Kiambaa shopping
		centre
	Uthiru	- Construction of ICT centre at Chief's camp
GATUNDU SOUTH	Ng'enda	- Construction of ICT hub in Kimunyu
	Kiamwangi	- Construction of ICT hub in Kiamwangi and Nembu

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS
GATUNDU NORTH	Chania	- Provision of Wifi services
		- Introduction of one man one shilling programme
	Githobokoni	- Construction and equipping of ICT hubs
		- Upgrading and renovations of the existing structures
		to support ICT hubs
	Gituamba	- Priority on youths to be employed on the ICT hubs
	Mangú	- County to liaise with Safaricom to provide a Safaricom
		booster to enhance connectivity.
LIMURU	Bibirioni	- Construction of an ICT hub in St. Bosco polytechnic.
	Ndeiya	- Boroti ICT Hub to serve Thigio, Boroti, Narakwa and
		Gichungo Areas; Makutano, Nderu, Rwamburi, Ha
RUIRU	Gitothua	<ul> <li>Dylan ICT Hubs</li> <li>That, the County constructs and fully equips an ICT</li> </ul>
KUIKU	Gitotinua	- That, the County constructs and fully equips an ICT hub in the ward.
		nuo in the wird.
		- Internet connection for Gitothua Ward
	Gatongora	Construction and equipping of ICT hubs
	Kahawa Wendani	<ul> <li>Construction and equipping of left hads</li> <li>Construction of an ICT hub and promotion of ICT</li> </ul>
		skills
		- Equipping ICT infrastructure in the already existing
		VTC
	Biashara	- Construction and equipping of an ICT hub and equip
		it as well as prioritization of public internet the hub
		will also be used as a social hall.
		- Face-lifting of the Sub- County Offices; Construction
		of a Public ICT Hub with free internet.
	Mwiki	- Equipping the existing ICT hub with computers,
		internet access, furniture, LED televisions, cameras
		and professional trainers
		- Facilitating short courses for youth to train in ICT
	17.	skills
	Kiuu Kalana Salani	- Construction of an ICT hub
	Kahawa Sukari Mwihoko	Construction and equipping of ICT hubs     Construction and equipping of ICT hubs
KIAMBU	Ndumberi	- Construction and equipping of ICT hubs - Construction of modern ICT hubs in Ngegu and
		Ndumberi
	Riabai	Construction of a fully functioning ICT hub at Tha-
		thiini police post, Kirigiti and Riabai
		- Construction of modern ICT hub at the Chief's camp
	Kiambu Township	- Installation of ICT Hubs with high-speed internet
		connection in Thindigua, Kiamumbi, Kiambu Town
GITHUNGURI	Ngewa	- Construction of a youth ICT hub and talent center
	Komothai	- Establishment of an ICT Hub at Kigumo

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS
JUJA	Theta	- Establishment of ICT Hub at Ndarasha Centre
	Juja	License garbage collectors     NACADA to approve business permits for bar     operators
LARI	Lari/Kirenga	- Construction of ICT hubs

# 3. AGRICULTURE, LIVESTOCK AND CO-OPERATIVES

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES FOR 5 YEARS
KABETE	Kabete	- Operationalize Kabete Agricultural office
		- Construct an industry to manufacture poultry feeds
		- Construction of cold rooms
		- Upgrading and renewal of Kabete Coffee Farmers at Mararo
	Nyathuna	- Provision of Irrigation projects
	Uthiru	- Construct an industry to manufacuture animal feeds
	Muguga	- Cosntruction of a pork slaughter house at Karecheni grabbed land
	Gitaru	- Establishment of a correction centre at Cura/Rungiri
		- Establishment of a Dairy Cooperative.
GATUNDU SOUTH	Kiganjo	- Establishment of a milk cooler at Kiamworia
	Ngénda	- Provision of fish farming
	Kiamwangi	- Establishment of a milk cooler at Kiamwangi
		- Provision of a collection centre for avocados at Kiamwangi
KIKUYU	Kikuyu	- Construction of Dams at Baraniki, Kiawamagira and Ondiri
		- Installation of water harvesting structures at Kiriti, Ondiri,
		Baraniki and Kiawamagira
		- Training of farmers
		- Subsidizes on Fertilizers
		- Empowerment of Dagoretti slaughter houses owners and workers
		- Installation of Coolers for Kikuyu dairy farmers cooperative society

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES FOR 5 YEARS
	Sigona	SOILS ANAYLYSIS
		- Build a soil analysis laboratory in the ward
		SEEDS
		- Increase certified seeds in the ward
		- Provide variety types of seeds i.e. maize, beans, sunflower,
		vegetables etc.
		- Provide more fruits seedlings to promote agro fruits forest
		SEXED SEMENS
		- Provide the ward with improved sexed semen's so as to
		improve the production and also the breeds 4. TRAINING
		- More training in the respect to value chain additions
		- 2Train our farmers on Black Soldier Fly
		BEE HIVES
		- Provide with bee hives with stingless bees within the ward
	Kinoo	- Provide seeds to farmers, bee-hives and chicks
	Nachu	Providing the ward with improved sexed simen for dary
		and pig farmers for improved breeding.
		Provision of training propgrams for livestock and
		agricultural farmers.
		Provision of behives for bee farmers starters and training.
		Donation of certified maize and bean seeds to farmers.
		Construction of extra fish ponds.
		- provision of youth chicken hatchery
	Karai	- Piping of irrigation systems at Gikambura RIU area dam
		- Piping of irrigation water at Waromo dams
LIMURU	Bibirioni	- Timely provision of certified seeds and fertilizer
		- Training farmers on soil fertility Management
	Limme Foot	- Provision of fruit trees
	Limuru East Limuru Central	<ul> <li>Provision of maize, avocado seedlings and fertilizers.</li> <li>Construction of a shade for Goat traders.</li> </ul>
	Ndeiya	<ul> <li>Dam liners and fencing of already established dams 2.</li> </ul>
	ladiya	Water for irrigation 3. Demonstration farm for famers
		trainings 4. Extension officers on AI and Agriculture 5.
		Green houses 6. Drip irrigation for different groups and
		trainings 7. Farming • poultry farming • pig farming • fish
		farming • bees farming • rabbit farming • dairy farming
		• goat farming • snail farming • improved kienyenji forming & sloughter house in Thigie location
		farming 8. slaughter house in Thigio location- Farm inputs • Machineries • tractors • fertilizer •
		pyrethrum • sunflowers • yams • improve nippier grass
		<ul> <li>sweet potatoes, arrow roots, cassava, millet, sorghum,</li> </ul>
		coriander, straw berries, wheat

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES FOR 5 YEARS
THIKA	Kamenu	- Donation of certified seeds and farm inputs
		- Introduction of fish farming
		- Upgrading of livestock farming
		- Consideration of a modern slaughter house with leather tanning
		- Consideration of irrigation water to farmers from rivers from the ward
	Hospital	<ul> <li>Provide the youth with chicken hatchling in order to create employment</li> </ul>
	Ngoliba	- Demonstration farm for capacity building for the farmers;
		- Rehabilitation of irrigation works;
		- Provision of agricultural inputs to area residents.
		- Employment of extension officers to facilitate provision of agricultural inputs
	Thika Township	- Farming incentives and to be implemented and shared across Athena, Karibaribi, Ngoigwa and Kiandutu. These include fertilizers, AI inputs and seeds;
		<ul> <li>Wabeni technical should be upgraded to be an agricultural center of excellence where all inputs such as fertilizers, AI and seeds, government trainings can be facilitated and distributed through the institution;</li> </ul>
		- Wabeni technical should be funded to create agricultural demonstration farms for upcoming innovations and trainings. This would be of great benefit to local farmers in increased food production and value addition;
		- Karibaribi village should be provided with irrigation water for the purpose of farming. The current water supply from THIWASCO is not designed for farming use and residents would benefit from an addition water supply for irrigation purposes;
		- Employment of extension officers to facilitate provision of agricultural inputs
	Gatuanyaga	- Provide the youth agricultural inputs as well as seeds that are suitable for the climate of Kiambu;
		<ul> <li>ii. Supply residents with drought resistant plants like cassava;</li> </ul>
		- iii. Construction of the Komo irrigation project;
		- iv. Employment of extension officers to facilitate provision of agricultural inputs

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES FOR 5 YEARS
GATUNDU NORTH	Gituamba	- Prioritization on offering of agricultural extension services
		- County to harness the avocado market and also removal of brokers from the avocado value chain
		- Provision of avocado driers
		- Provision of subsidized fertilizers
		- Provision of fruits seedlings
		- Provision of soil testing services
	Chania	- Provision of affordable animal and chicken feeds
		- Government to increase water connectivity to harness irrigation water
	Githobokoni	- County to prioritize provision of free seedlings
		- Provision of subsidized AI services
		- Provision of cattle dips
		- Upgrading of the coffee factories
		- Drilling of boreholes and piping to support irrigation
		- Provision of agriculture extension services
		- Njaa marufuku to be reintroduced
		- Brokers to be eliminated from the farm produce value
		chains
	Mangú	- Farmers extension services to be harnessed
		- County to provide subsidized fertilizers
		- County to prioritize provision of free seedlings
		- County to provide markets for farm produce
RUIRU	Gitothua	- Promotes the use of modern smart farming techniques.
		- Hires extension officers and assigns them to sub-counties in a bid to promote and build the capacity of farmers in the area.

		<ul> <li>Kiriri dispensary upgrade to level 2 i. Construction of Modern Dispensary ii. Construction of Wards iii. Perimeter Wall iv. Renovation v. Standby Generators vi. Solar Power System vii. Construction of Staff Quarter Houses viii. Security Houses ix. Maternity Wings x. Water Storage</li> </ul>
		<ul> <li>Construction of new Ndiuni dispensary • water storage</li> <li>perimeter wall 6. Construction of a new and modern dispensary at Michobo • water storage • perimeter wall 7. Construction of a new and modern dispensary at Boma • water storage • perimeter wall</li> </ul>

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS
THIKA	Kamenu	- Makongeni Dispensary to be elevated to a Level 3 facility and be user friendly
		- Consideration of building a dispensary with the Kiganjo areas
	Hospital	- Dispensary in Umoja and Gachagi Estate
	Ngoliba	- Construction of a maternity at Maguguni dispensary.
		- Rehabilitation of Ngoliba maternity.
		- Construction of Mukuneke dispensary
	Thika Township	- Upgrade and expansion of existing dispensaries to level four in Kiandutu and Karibaribi.
		- Construction of dispensary in Athena
		- Completion of Abolition block in Kiandutu
		- Perimeter wall should be installed in Kiandutu Health center
		- When the dispensaries are being upgrade, there should be consideration in infrastructure especially for PWDS.
		- There is also an urgent need for beds in maternity ward to accommodate PWDs pregnant women
		- There should be allocation for Ambulance and laboratory services during the upgrade of dispensaries.
		- The Kiandutu health center needs cabro paving as there are challenges during raining season where due to flooding, patients cannot access the administration.
		<ul> <li>Kiandutu Cemetery needs to have a new perimeter wall constructed to secure the premises</li> </ul>

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS
	Gatuanyaga	Komo dispensary:
		- Operationalization of the dispensary hiring more staff; Ensuring there is water supply;
		- Construction of public toilets.
		- The facility needs to be registered as soon as possible and issued with registration code by the county health department.
		- The facility needs to be connected to a sustainable running water system.
		- It also needs to be fitted with storage tank.
		- The facility also needs to be equipped with the basic office furniture and medical equipment appropriate for the level 2 health center.
		- Restructuring of the management of the health facility is highly recommended for smooth running.
		- Since the facility is registered under individual's name, it is highly recommended that registration be done under the facility's name to allow power connection. The facility urgently needs an ablution block and a septic tank.
		<ul> <li>It also needs a medical waste pit and an incinerator. Basically, Komo Dispensary is just but an empty structure which really needs to be worked on as it currently serves approximately 100 people per week. This poses a great health risk to the community.</li> </ul>
		Munyu Health Center:
		- Purchase of an ambulance;
		- Purchase of 4 fridges to serve in maternity, pharmacy, laboratory and the kitchen.
		- Urgent of a new incinerator is needed.
		- This being the main health facility in the ward, it urgently requires an ambulance for evacuation of emergency health cases. The ward does not have any ambulance.
		- It also requires an inpatient wing since there is enough space for construction of the wards. The other two facilities refer their critical cases to this facility.
		<ul> <li>Being a major health care center, the facility needs to be upgraded from its current Level 3 status to Level 4 General Facelift needs to be done i.e., Roofing, painting, change of ceiling, broken hand wash basins to be replaced, Purchase of a new delivery bed.</li> </ul>
	l	- Purchase of medical equipment for the same.

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS
		Gatuanyaga Dispensary:
		- Operationalize the maternity;
		- Due to perennial flooding which impedes access to the facility, the access road needs to be well raised, graded and fitted with drainage culverts.
		<ul> <li>Construction of a perimeter wall around the facility, installation of security lighting system as well as motivation of the security personnel by proper and timely remunerations.</li> </ul>
		<ul> <li>Completing the maternity wing by construction of waiting bay fitted with seats, equipping the maternity wing, construction of a placenta pit and employing more personnel in the maternity wing.</li> </ul>
		- Renovating the staff quotas to enable the maternity wing to function appropriately.
		- Construction of a new structure that will used as a TB treatment area and as a storage room and also urgently purchase the TB screening equipment.
		- There is need to have a reliable water supply to the facility.
		- Operationalize the borehole in the premises to address the
		issue of water scarcity;
		- Fencing of the dispensary;
		- Upgrade the dispensary.
KIAMBAA	Karuri	- Upgrade Karuri Rehabilitation Centre to a boarding facility.
		- Upgrade Karuri Health Centre to a Level 4 hospital due to
		increased population in the region.
		- Construction of Karuri Mortuary.
	Kihara	<ul> <li>Construction of a Dispensary or a Health Centre in Karura and Wangunyu. There is a public land near Wangunyu polytechnic or the chief's office.</li> </ul>
		<ul> <li>Alternatively, a dispensary should be established at the Wangunyu rehabilitation centre.</li> </ul>
		<ul> <li>Rehabilitation of facilities in Kihara level 4 hospital and upgrading to level 5.</li> </ul>
	Ndenderu	- Construction of a dispensary in Ruaka.
		- Upgrade of:
		- Ndenderu dispensary.
		- Ruaka nursery dispensary.
	Mucatha	<ul> <li>Upgrading of Gathanga and Muchatha Health centres.</li> <li>They have labs but lack drugs and machines to test specimen.</li> </ul>
		-
		- Facility requires solar energy and a fence.
		- Revive the Universal Health Care in Muchatha dispensary.
		- Additional Staff in Muchatha Dispensary.
		- Construction of an ablution block in Muchatha.
		- Establishment of a Dispensary at Waguthu area.

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS

KIKUYU	Kikuyu	<ul> <li>Rehabilitation of water Pipelines at Thogoto, Ondiri,Kiriiti and Kidfarmaco</li> </ul>
		<ul> <li>- Installation of water pipelines at Mutaratara, Ondiri, Kiawamagira and Baraniki</li> </ul>
		Drilling and equipping of boreholes at Thogoto Polytechnic, Kiawamagira, Baraniki and Mutaratara
		Solarization of all boreholes at the ward
		Operazation of Rumwe borehole
		<ul> <li>- Development of sanitation structures at Dagoretti Market, New Kikuyu buspark,</li> </ul>
		<ul> <li>- Dagoretti slaughter house and alliance pickup and dropping bay</li> </ul>
		Completion of Sewer line to cover Thogoto – Kiriti area, Lower parts of Kikuyu town and Lower Kidfarmaco
	Kinoo	<ul> <li>Boreholes: at Kinoo water project, at Kinoo vocational training, at Muthiga water project.</li> </ul>
		- Borehole at Muthiga Shauri Village
		- Solarization of all boreholes in Kinoo ward
		- Construction of modern toilets at Kinoo and Regen Markets
		- Modern toilets at Gaitumbe cemetery
		- Improvement of storm water drainage from Kinoo shopping centre
	Karai	- Construction of public toilet at Rutara cemetery
		- public toilet at RIU nderi shopping centre
		- RIU nderi water tower
		- piping of water at munyeki,
		- solar water pump at Riu water supply centre
		- water pump at Rurii Kahero
		- solar pump at Mai A ihii
		- solar pump at Riu-nderi area
		- Toilet construction of Rutara cemetery toilet
		- Rui-nderi shopping centre toilet

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS
	Nachu	<ul> <li>Provide water(borehole) in Lusigetti in Karai-Kiroe areas in Nachu Ward</li> </ul>
		- Water Drainage System at Kanya Yo Shopping Center.
		Fencing and Construction of Toilets and Dias of Nachu Ward Cemeteries:
		- Lusigeti Cemetry
		- Ndacha Cemetry
		- Kanayayo Cemetry
		Water pipe installation of drinking water at the following areas
		- Lusigeti Cemetry
		- Ndacha Cemetry
		- Kanayayo Cemetry
		- Mbomboini Area
		- Githarane Area
		- Mutiso Area
		- Kiahiti Area
		- Maregeta Area
		Tower tank installation at:
		- Maregeta Area
		- Kiahiti Area
		- Construction of a tower tank at renguti high school.
		- water pipeline at kanyayo
		- provision of water pipes for nyakumu
		- Provision of water pipes for mutiso village.
		- Provison of water pipes for kiahiti village from karai secondary tower tank.
		<ul> <li>construction of public toilet at lusigetti cemetry, kanyayo cementry and nachu cemerty.</li> </ul>
		<ul> <li>construction of a drainage system at lussigeti and kanyayo shopping center</li> </ul>
	Sigona	<ul> <li>Nduma borehole to be equipped and solarized it and the other boreholes in the Wards</li> </ul>
		- provide Pipes of 2- 4inches to cover the following areas:
		Kanyanjara area -3kms
		- Nduma 2.5kms
		- Nderi 2.6kms
		- Thamanda 4kms
		<ul> <li>construction of ablution blocks in Kerwa shopping centre and Zambezi area</li> </ul>
		Provide skips to the following areas
		- Zambezi
		- Nderi
		- Thamanda
		- Kerwa

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS
LIMURU	Bibirioni	- Construction of a public toilet
		- Installation of 200 water pans
		- Drilling and piping of boreholes
		- Provision of water tanks
		- Establishment of a waste segregation centre.
	Limuru East	- Provision of a water tank at Nazareth hospital.
		- Provision of water in the entire Ward.
		- Construction of a sewer line at farmers.
		- Construction of an ablution block in Farmers.
		Drilling of boreholes at:
		- Kamonde Area
		- Karanjee area
		- A garbage collection to be established in Limuru East.
	Limuru Central	- Fix drainage system at Rahab road, Rironi market.
		- A public toilet to be installed in Limuru Town
		- An ablution block in Limuru town.
		- Provision of Kamirithu and Rironi cemetery ablution
		blocks
	Ndeiya	- Provision of toilegts at Limuru bus park
	Inderya	<ul> <li>Dams and dam liners with a security/perimeter fence surrounding it in Ndeiya</li> </ul>
		- Relocation and replacement of old water pipes with 1.5
		inch 1000 rolls water pipes solar panel in the following
		borehole areas; • Gitutha • Nguirubi • Kiriri • Rwamburi
		• Nderu 2. Additional boreholes in Ndeiya 3. Planting of
		trees in all primary, secondary and nursery schools and
		their conservations 4. beautification of all major roads
		- dump sites • cabins and bins in Makutano, Thigio,
		Boroti,Rwamburi, Ndiuni, Rwacumari, Boma, Kiriri,Ngamba, Gitutha, Githarane
		- Ablution blocks at • Nderu shopping center • Makuano
		Shopping Center • Boroti Shopping Center • Thigio
		Shopping Center • Bora Shopping Center • Thigio
		Cemetery • Boroti Cemetery • Boma Cemetery •
		Makutano Cemetery • Nderu Cemetery • Ndiuni
		Cemetery 8. Sewer line connecting all the major shopping
		centers

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS
THIKA	Kamenu	- Waste recycling plant to be done at Kang'oki dumpsite;
		<ul> <li>Provision of boreholes which are solar powered within the ward;</li> </ul>
		- Drilling borehole in Salama area;
		- Provision of pipied water at Landless
		- Provision of modern public toilets within the ward;
		- Building public toilet at public cemetery Kiganjo
		Sewer-line network:
		- Makongeni Bus park area;
		- Kisii stepin area;
		- Salama estate area;
		- Kiganjo mali area
		- Langata area.
	Hospital	<ul> <li>Connect water to Thika Primary School, Muslim primary and St. Patrick's Primary</li> </ul>
		- Come up with garbage collection initiatives to help create employment for the youth
	Ngoliba	- Rehabilitation of Kona Mbaya borehole;
		- Installation of ultra-purification plant ay Kona Mbaya Delmonte land field 58. which will enable us to purify drinking water for the entire ward.
	Thika Township	- Operationalize and upgrade all existing boreholes in Athena, Kianjao and Karibaribi
		<ul> <li>All boreholes new and existing need to be connected to solar powered technology to curb the issue of malfunctioning of power outages</li> </ul>
		- For solid waste management, there should be allocation on skips for garbage collection.
		- Green energy incentives should be allocated for the whole ward in terms of tree planting with a focus on dual purpose trees such as avocados and macadamia.
KIAMBAA	Karuri	- A proper mechanism to handle garbage collection and especially disposal of pampers should be established.
		- Completion and rehabilitation of all boreholes to address serious water shortage Karuri.
		- Provision of a water hydrant in Karuri.
		Drilling boreholes at:
		- Njuku chief's office
		- Kiambaa shopping centre
		- Muthurwa pri.sch
		- Equip the fire station with a stand-alone borehole.
	Kihara	- Construction of a sewerage system.
		Operationalize the following boreholes:
		- Gachie Primary
		- Kihara police station
		- Ha Mwangi

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS
	Ndenderu	<ul> <li>Reticulation of water system in the Ward. Revive existing borehole.</li> </ul>
		- Construction of Ruaka Dam.
		- Operationalize Ruaka borehole near the slaughter house.
		Sinking boreholes at:
		- Kirienye water project
		- Kagongo water project
		- Rescue Ruaka River from contamination.
		Construction of a public toilet at:
		- Karura market.
		- Ndenderu shopping centre.
		- Gacharage shopping centre.
	Mucatha	Establishment of Karuri Water project at:
		- Misarara
		- Waguthu Kiambaa
		Rehabilitating boreholes projects at:
		- Kwa Wamutonga
		- Ka Nursery Gathanga
		- Giphesen Muchatha
		Provision of water pump at:
		- Gisii
		- Misarara
		- Muongoiya
		- Wanyori
		- Waguthu
		- Kwa High Gatitu
		Construction of Public Toilets at:
		- Kaburi Muchatha
		- Kaburi Gathanga
		- Muchatha shopping
		- Centre
		- Gathanga shopping
		- Centre
		- Njenga Karume
		- Nursery at Kwa High
		- Ka Nursery Gathanga

SUB COUNTY	WARD	DEVELOPMENT PRIORITIES 5 YEARS
GATUNDU NORTH	Mangú	<ul> <li>Water tariffs from Gatundu water to be reduced, house- holds are paying for water that they are not accessing, the standing charge is punitive</li> </ul>
		<ul> <li>Water connectivity pipes to be upgraded, the area water connection uses pipes that were laid in 1970 leading to water spilling in endless piping lines</li> </ul>
		<ul> <li>Money to be provided to revive Nyakagema irrigation project</li> </ul>
		<ul> <li>Water access from Karimenu dam is provided but it is very dirty, water purification budget to be provided</li> </ul>
	Githobokoni	- Borehole to be drilled at Thunguri in Mwimuto sub lo- cation
		<ul> <li>Water from Sasumua dam to be connected to the residents before piping to Nairobi</li> </ul>
		<ul> <li>Provision of a modern borehole in every sub location and the subsequent piping</li> </ul>
		<ul> <li>Dams at Gakoe to be expanded and piping undertaken to provide water to the area residents</li> </ul>
		- County to regulate the area water contracts as the con- tractors are importing labourers from other counties, also dam contractors to offer CSR on the area roads construc- tion, schools, health centres etc
